Add & Create a new Stock

From this section, you can add or create a new stock. Under the Sources, you can Assign Sources. You must map them with the stock.

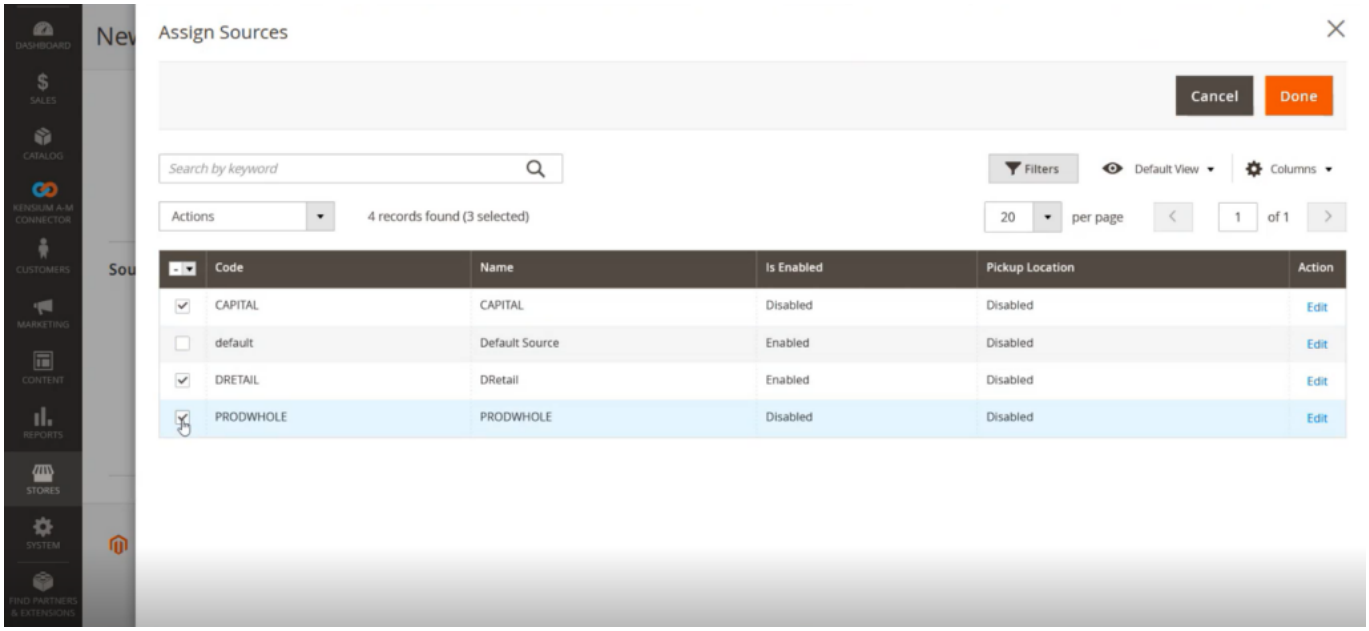

Option to Add or Create Stock

In the Assign Sources upon clicking on the button the following screen will appear. You need to check the code.

KENSIUM

Assign Sources Checkbox

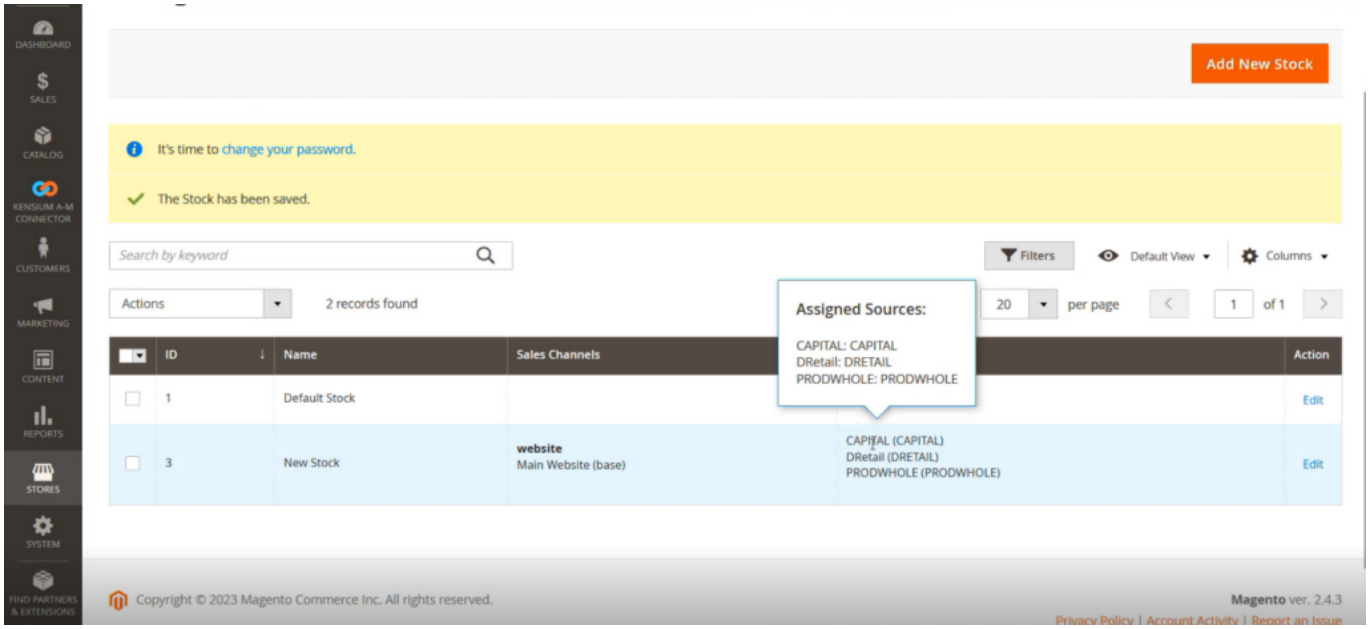

Now the application will add the selected coded in Assign Sources in the new stock browse and [Save] it.

Assign New Sources

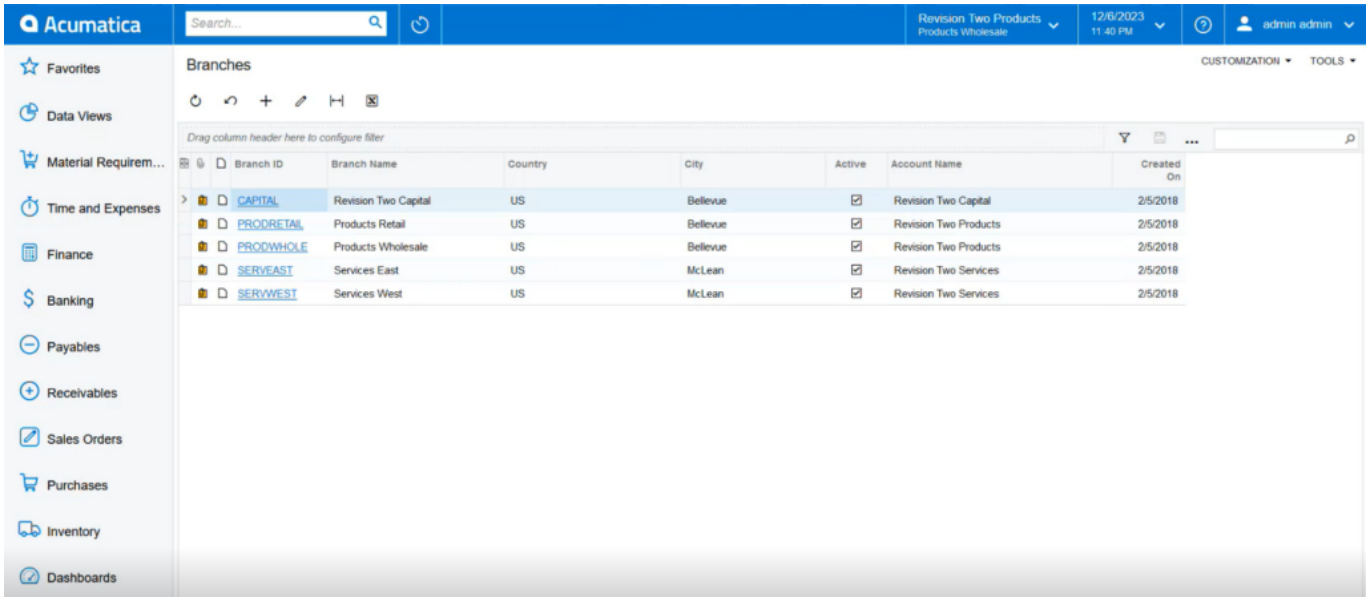

© 2025 Kensium LLC

You have added a new Stock which is the Main Website with the sources or the stores.

New Stock with mapped sources

In Magento we have the [Sources] whereas in Acumatica we have the Warehouses.
