

Batch Process in Acumatica

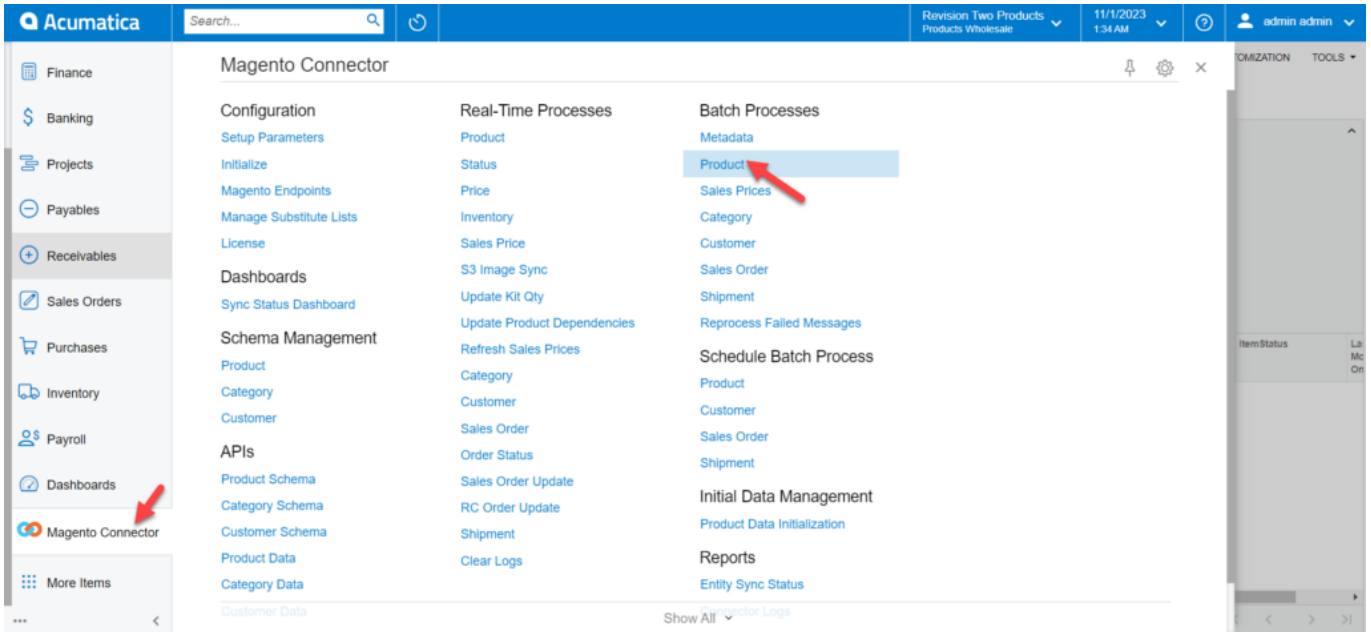

The batch process in Acumatica refers to sending bulk data from Acumatica to Magento. To access the Batch Processes, you need to click on the Magento Connector on the left panel of the screen and the Batch Process will appear.

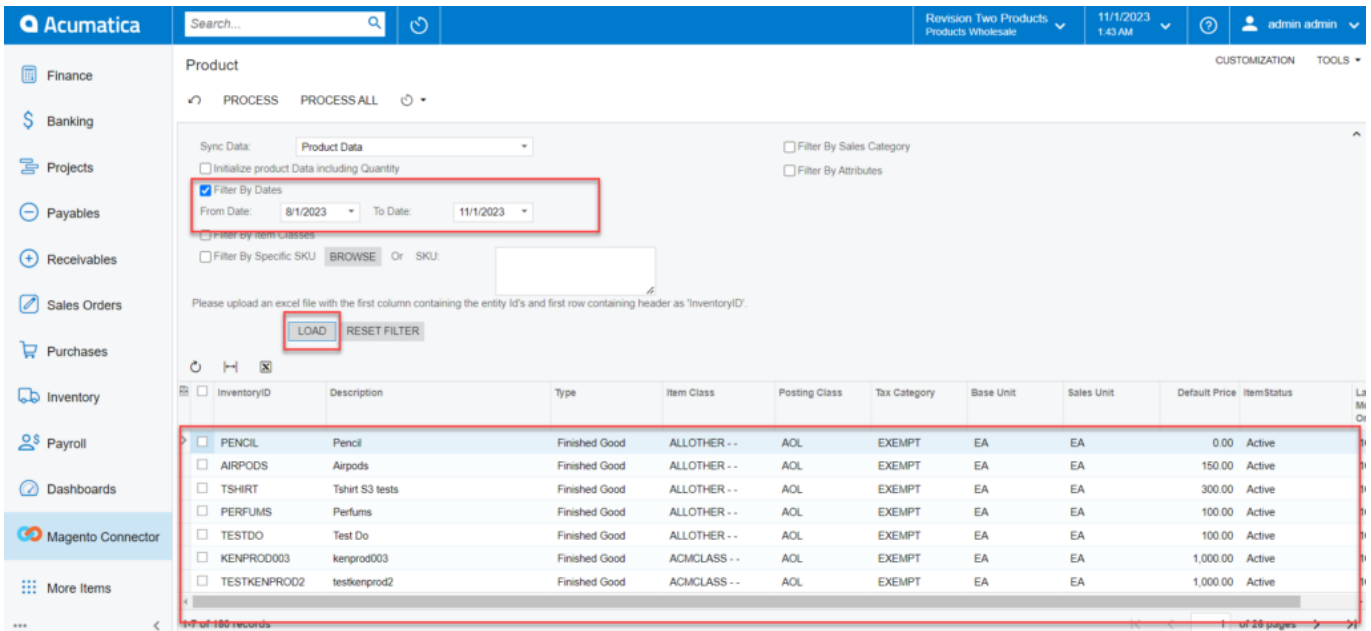

Metadata Process All

Products: Products will have a couple of filters by which you can fetch the data. If you choose Sync Data as Product Data, you will get the following checkboxes.

- Initialize Product Data including Quantity.
- Filter by dates
- Filter by Item Class
- Filter by SKU
- Text box to enter the SKU
- Filter by Sales Category
- Filter by Attributes

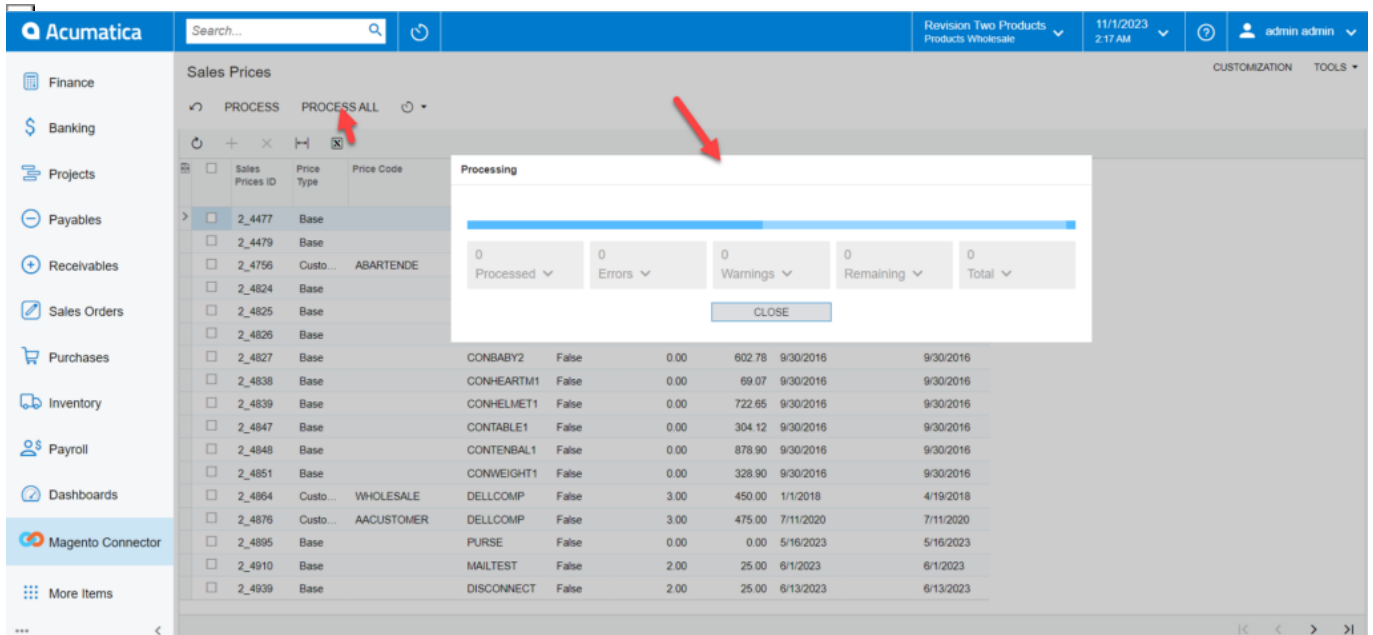

If you want to fetch the Product data with a date range, then enter the date range and click on Load. All the records during this period will be populated on your screen. The Start Date and the End Date can have a maximum difference of 15 days.

InventoryID	Description	Type	Item Class	Posting Class	Tax Category	Base Unit	Sales Unit	Default Price	ItemStatus	
<input type="checkbox"/>	PENCIL	Pencil	Finished Good	ALLOTHER - -	ACL	EXEMPT	EA	EA	0.00	Active
<input type="checkbox"/>	AIRPODS	Airpods	Finished Good	ALLOTHER - -	ACL	EXEMPT	EA	EA	150.00	Active
<input type="checkbox"/>	TSHIRT	Tshirt S3 tests	Finished Good	ALLOTHER - -	ACL	EXEMPT	EA	EA	300.00	Active
<input type="checkbox"/>	PERFUMS	Perfums	Finished Good	ALLOTHER - -	ACL	EXEMPT	EA	EA	100.00	Active
<input type="checkbox"/>	TESTDO	Test Do	Finished Good	ALLOTHER - -	ACL	EXEMPT	EA	EA	100.00	Active
<input type="checkbox"/>	KENPROD003	kenprod003	Finished Good	ACMCLASS - -	ACL	EXEMPT	EA	EA	1,000.00	Active
<input type="checkbox"/>	TESTKENPROD2	testkenprod2	Finished Good	ACMCLASS - -	ACL	EXEMPT	EA	EA	1,000.00	Active

You can select the Sales Price Class ID and click on Process All. All the data will be processed in Magento.

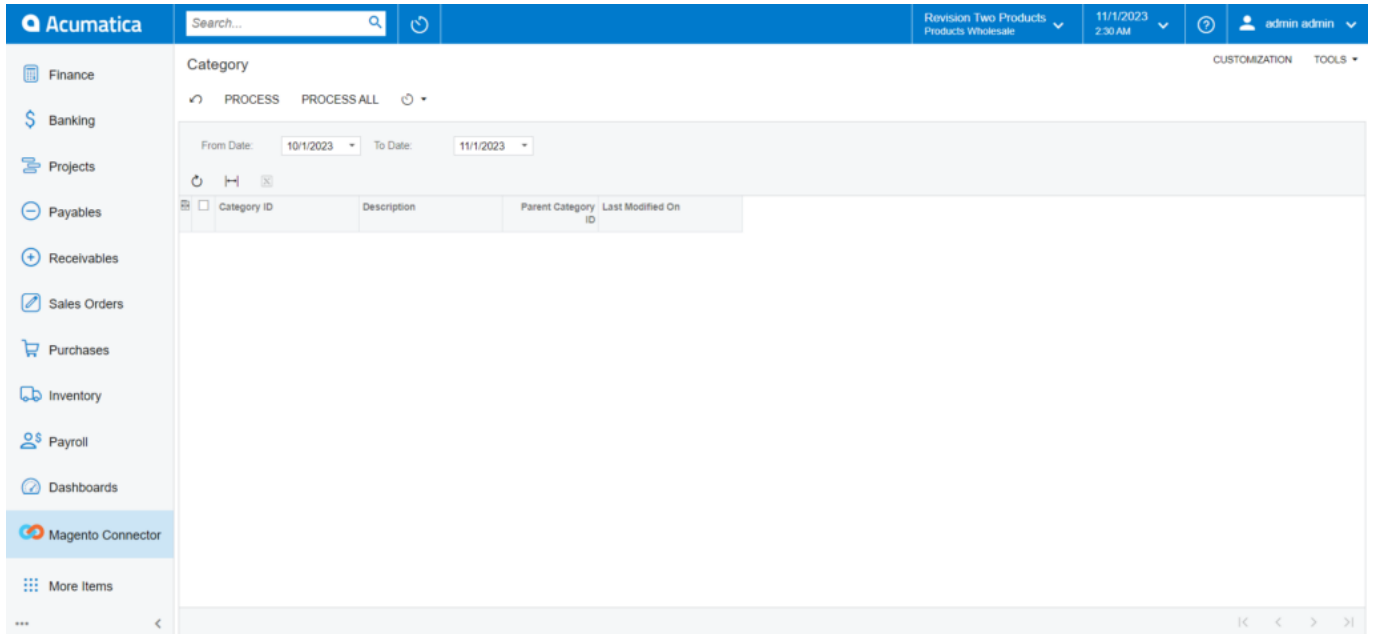

The screenshot shows the Acumatica interface with the 'Sales Prices' table. The 'PROCESS ALL' button is highlighted with a red arrow. A 'Processing' modal is open, showing progress bars and statistics for 'Processed', 'Errors', 'Warnings', 'Remaining', and 'Total'. A second red arrow points to the 'Processing' modal.

Category in the Batch Process.

From the Batch Process screen select the date range and the range should be within 15 days. By clicking on [Process All] your Product Category data will be processed to Magento at a single click.

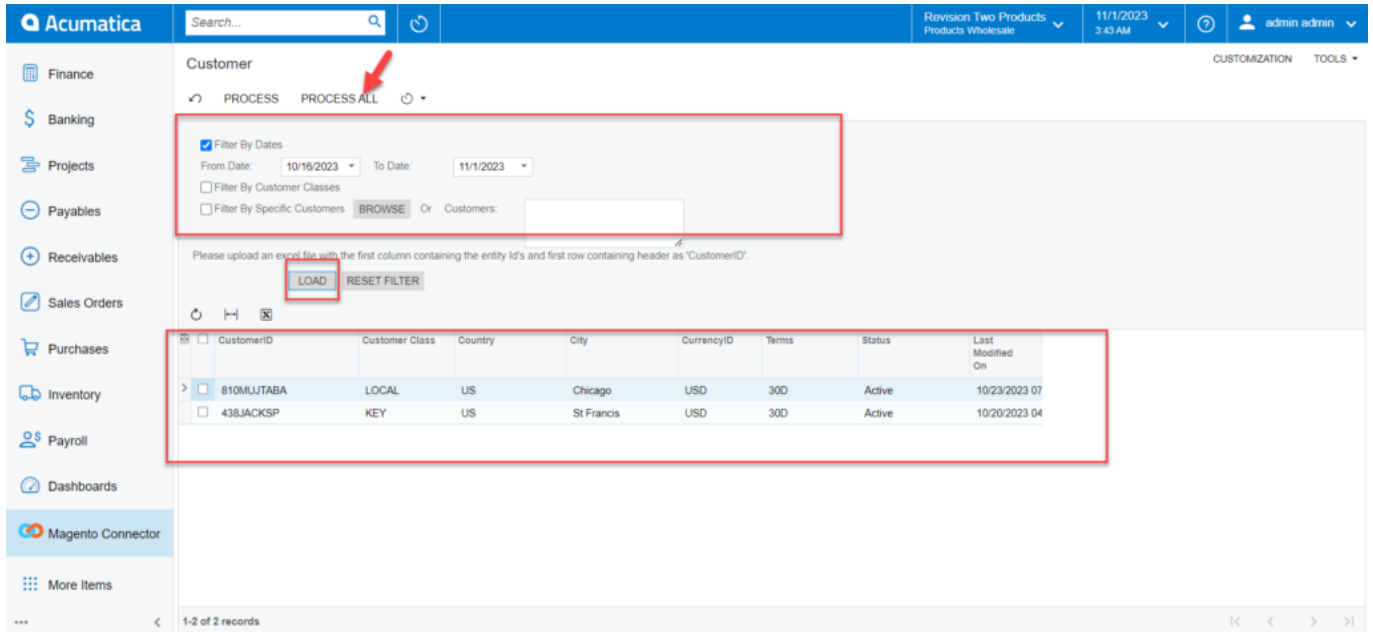

The screenshot shows the Acumatica interface for the 'Category' screen. The top navigation bar includes the Acumatica logo, a search bar, and user information (Revision Two Products, Products Wholesale, 11/1/2023 2:30 AM, admin admin). The left sidebar lists various modules: Finance, Banking, Projects, Payables, Receivables, Sales Orders, Purchases, Inventory, Payroll, Dashboards, Magento Connector, and More Items. The main content area is titled 'Category' and features a 'PROCESS' button and a 'PROCESS ALL' button. Below these are date filters: 'From Date: 10/1/2023' and 'To Date: 11/1/2023'. A table with the following columns is visible: Category ID, Description, Parent Category ID, and Last Modified On. The table is currently empty.

Customer Batch Processes

The Customer batch process screen will have multiple filters. You need to check at least one of the filters and then click on the [Load] button. You can use the following filters and click on Load.

- Filters By date (Checkbox)
- Filter by Customer Classes (Checkbox)
- Filter by Specific Customer (Checkbox)

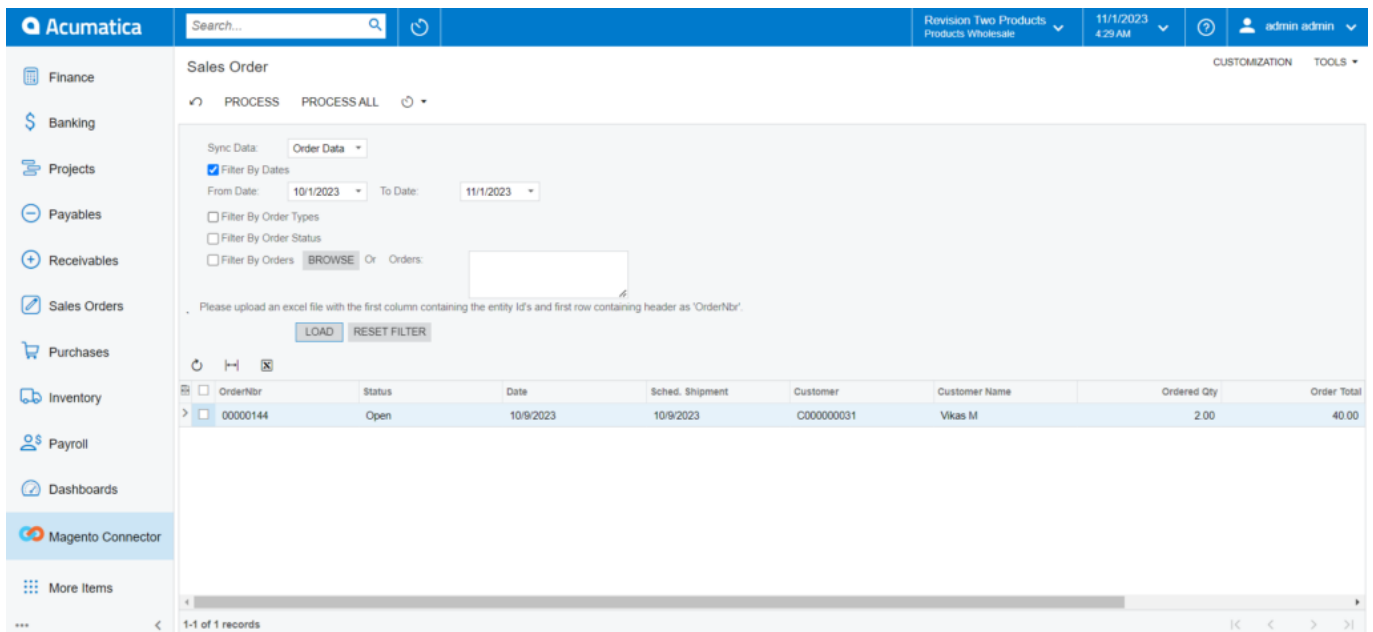

The screenshot shows the Acumatica interface for the 'Customer' list. The top navigation bar includes 'Acumatica', a search bar, and user information. The left sidebar lists various financial and operational modules. The main content area is titled 'Customer' and features a 'PROCESS ALL' button with a red arrow pointing to it. Below this, there are filter options: 'Filter By Dates' (checked), 'Filter By Customer Classes', and 'Filter By Specific Customers'. A table below the filters displays two customer records:

CustomerID	Customer Class	Country	City	CurrencyID	Terms	Status	Last Modified On
810MJTABA	LOCAL	US	Chicago	USD	30D	Active	10/23/2023 07
438JACKSP	KEY	US	St Francis	USD	30D	Active	10/20/2023 04

Sales Order in Batch Process

Upon clicking on the Sales Order, you will be redirected to the following screen.

The screenshot shows the Acumatica interface for the 'Sales Order' list. The top navigation bar and left sidebar are consistent with the previous screenshot. The main content area is titled 'Sales Order' and features a 'PROCESS ALL' button. Below this, there are filter options: 'Sync Data' (set to 'Order Data'), 'Filter By Dates' (checked), 'Filter By Order Types', 'Filter By Order Status', and 'Filter By Orders'. A table below the filters displays one sales order record:

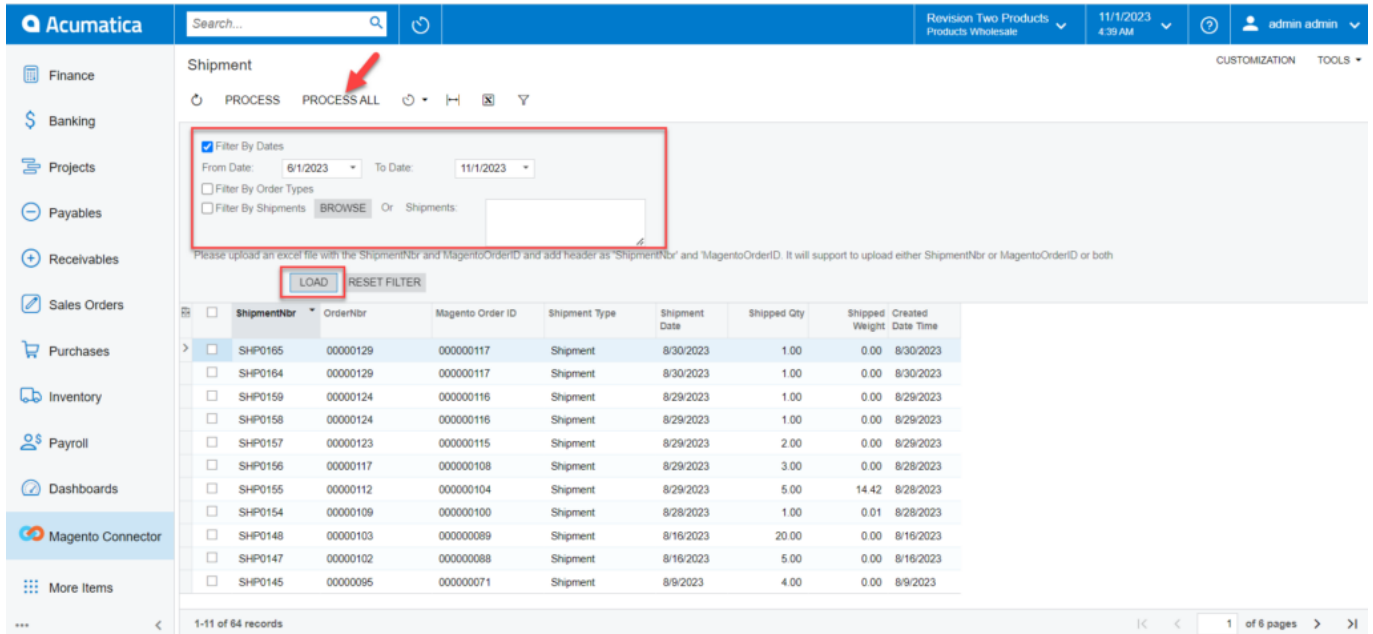

OrderNbr	Status	Date	Sched. Shipment	Customer	Customer Name	Ordered Qty	Order Total
00000144	Open	10/9/2023	10/9/2023	C000000031	Vikas M	2.00	40.00

Shipment in Batch Process

You will have the following filters.

- Filter by Dates (Checkbox)
- Filter by Order Types (Checkbox)
- Filter by Shipment (Checkbox)/ Browse or Shipment (Textbox)

After choosing any of the filters you need to click on Load. The records will appear on the grid. Upon clicking on the **[Process All]** with a single click all the data will be synced to Magento Connector.

ShipmentNbr	OrderNbr	Magento Order ID	Shipment Type	Shipment Date	Shipped Qty	Shipped Weight	Created Date Time
SHPO165	00000129	000000117	Shipment	8/30/2023	1.00	0.00	8/30/2023
