The screenshot shows the 'Kensium A-M Connector' application interface. On the left is a dark sidebar with a navigation menu. The 'Kensium A-M Connector' menu item is highlighted with a red arrow. The main content area is a light gray grid of menu items. A red box highlights the 'Queues' menu item, which has a sub-menu containing 'Queue Status' and 'Consumer Management'. To the right of the main menu is a white panel with a search bar, a notification bell with a red '7', and a user profile icon. Below this is a yellow 'Add New Rule' button. Further down is a table with columns for 'Created Date', 'Updated Date', and 'Action'. The table contains four rows of data.
