Actions 4 records found (3 selected) 20 per page 1 of 1

<input type="checkbox"/>	Code	Name	Is Enabled	Pickup Location	Action
<input checked="" type="checkbox"/>	CAPITAL	CAPITAL	Disabled	Disabled	Edit
<input type="checkbox"/>	default	Default Source	Enabled	Disabled	Edit
<input checked="" type="checkbox"/>	DRETAIL	DRetail	Enabled	Disabled	Edit
<input checked="" type="checkbox"/>	PRODWHOLE	PRODWHOLE	Disabled	Disabled	Edit

## Assign Sources

The selected sources will be displayed under Assigned Sources and click on [Save & Close].

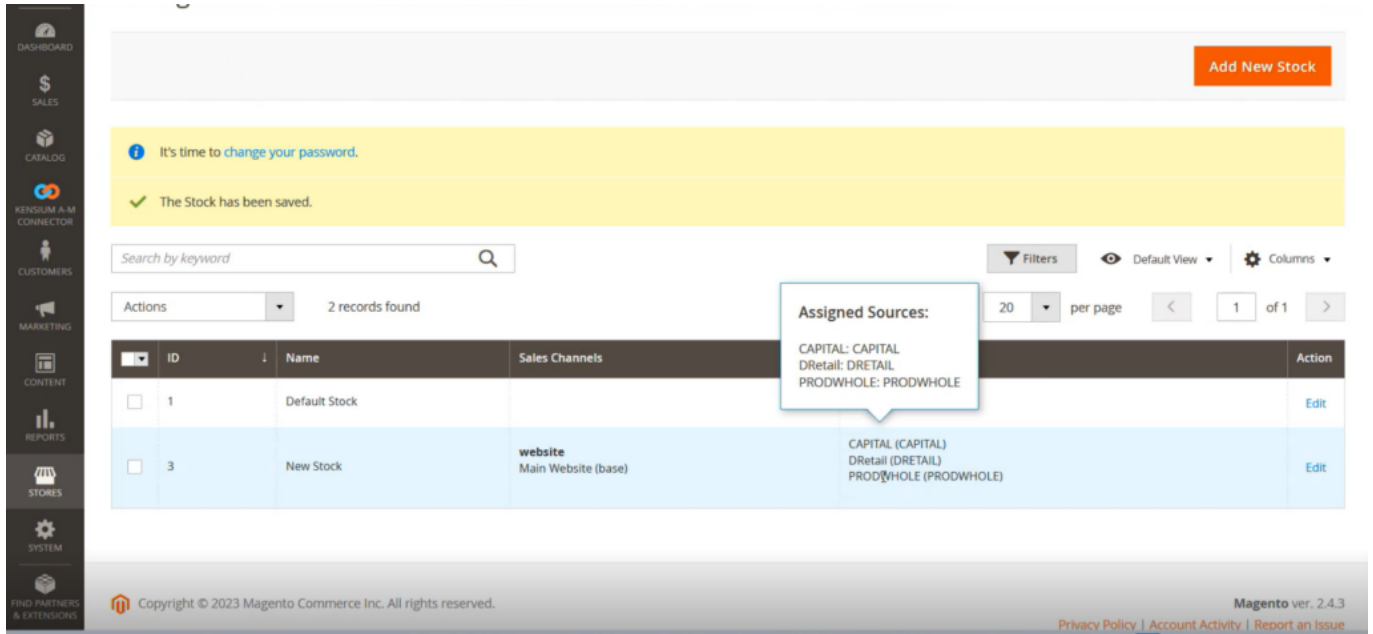

The screenshot shows the 'New Stock' interface. At the top, there is a navigation bar with 'Back', 'Delete', 'Reset', and 'Save & Continue' buttons. Below this, a large empty box is present with a note: 'Use Ctrl+Click for check several values or uncheck value. All unassigned sales channels will be assigned to the Default Stock.' The main section is titled 'Sources' and contains a table with the following data:

Assign Sources		
Code	Name	Unassign
CAPITAL	CAPITAL	
DRETAIL	DRetail	
PRODWHOLE	PRODWHOLE	

Sources Assigned.

So, you can create a new stock by using the above methods. You have added a main website and different sources/ Stores.

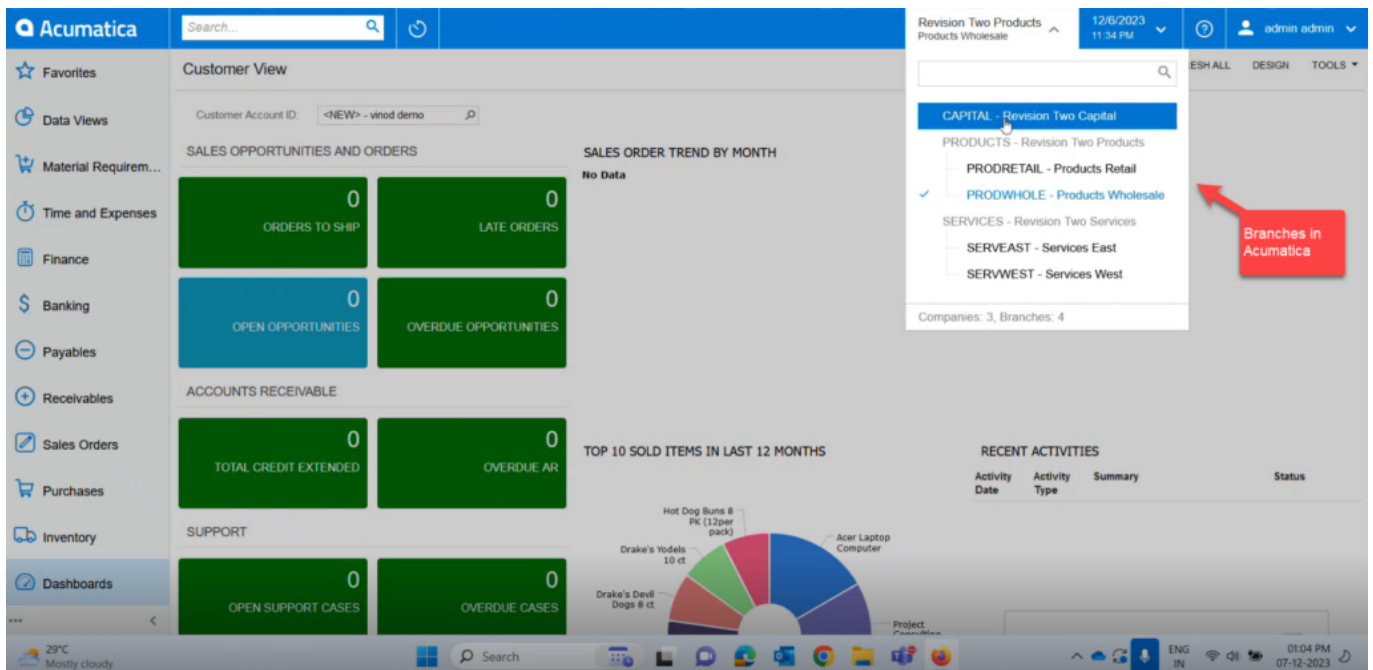

**Assigned Sources:**  
CAPITAL: CAPITAL  
DREtail: DRETAIL  
PRODWHOLE: PRODWHOLE

ID	Name	Sales Channels	Assigned Sources	Action
1	Default Stock		CAPITAL (CAPITAL) DREtail (DRETAIL) PRODWHOLE (PRODWHOLE)	Edit
3	New Stock	website Main Website (base)	CAPITAL (CAPITAL) DREtail (DRETAIL) PRODWHOLE (PRODWHOLE)	Edit

Now you have sources in Magento, and you have Branches in Acumatica.

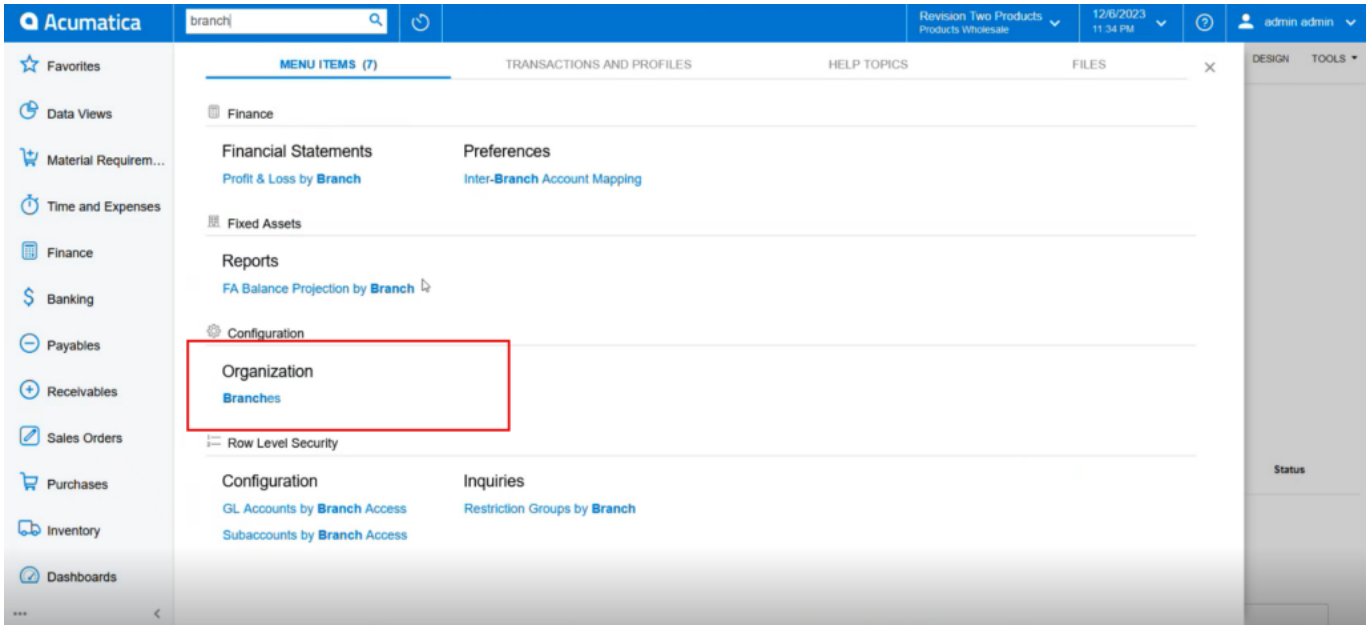

From the Configuration -> organization -> Branches you can see the details within Acumatica.

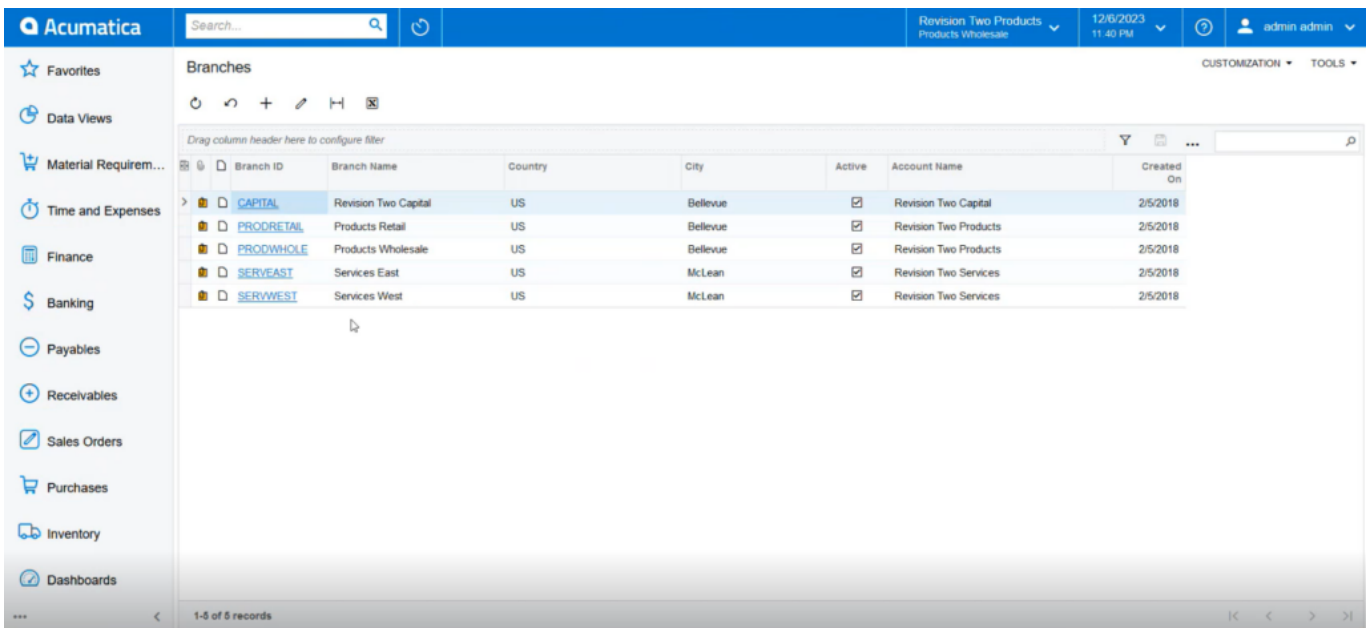

**Branches in Acumatica**

- CAPITAL - Revision Two Capital
- PRODUCTS - Revision Two Products
  - PRODRetail - Products Retail
  - PRODWHOLE - Products Wholesale
- SERVICES - Revision Two Services
  - SERVEAST - Services East
  - SERWEST - Services West

Companies: 3, Branches: 4

The screenshot shows the Acumatica application interface. The top navigation bar includes the Acumatica logo, a search bar with 'branch' entered, and user information for 'admin admin'. The main menu on the left lists various categories like Favorites, Data Views, Material Requirements, Time and Expenses, Finance, Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, and Dashboards. The central pane displays 'MENU ITEMS (7)' with sub-sections: Finance (Financial Statements: Profit & Loss by Branch; Preferences: Inter-Branch Account Mapping), Fixed Assets, Reports (FA Balance Projection by Branch), Configuration (Organization: Branches - highlighted with a red box), and Row Level Security. Other sections include Configuration (GL Accounts by Branch Access, Subaccounts by Branch Access) and Inquiries (Restriction Groups by Branch).

The screenshot shows the 'Branches' list in Acumatica. The table contains the following data:

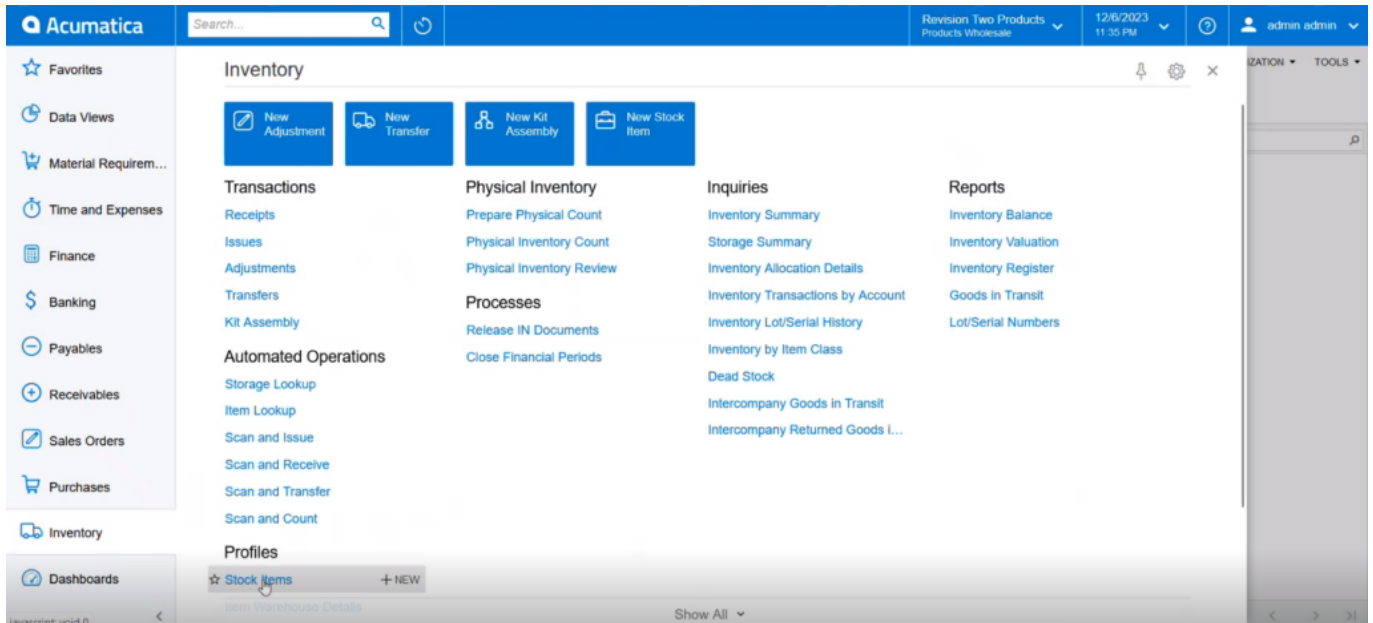

Branch ID	Branch Name	Country	City	Active	Account Name	Created On
CAPITAL	Revision Two Capital	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Capital	2/5/2018
PRODRETAIL	Products Retail	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
PRODWHAOLE	Products Wholesale	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
SERVEAST	Services East	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018
SERWEST	Services West	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018

The interface also shows a search bar, navigation icons, and a footer indicating '1-5 of 5 records'.

### Branches in Acumatica

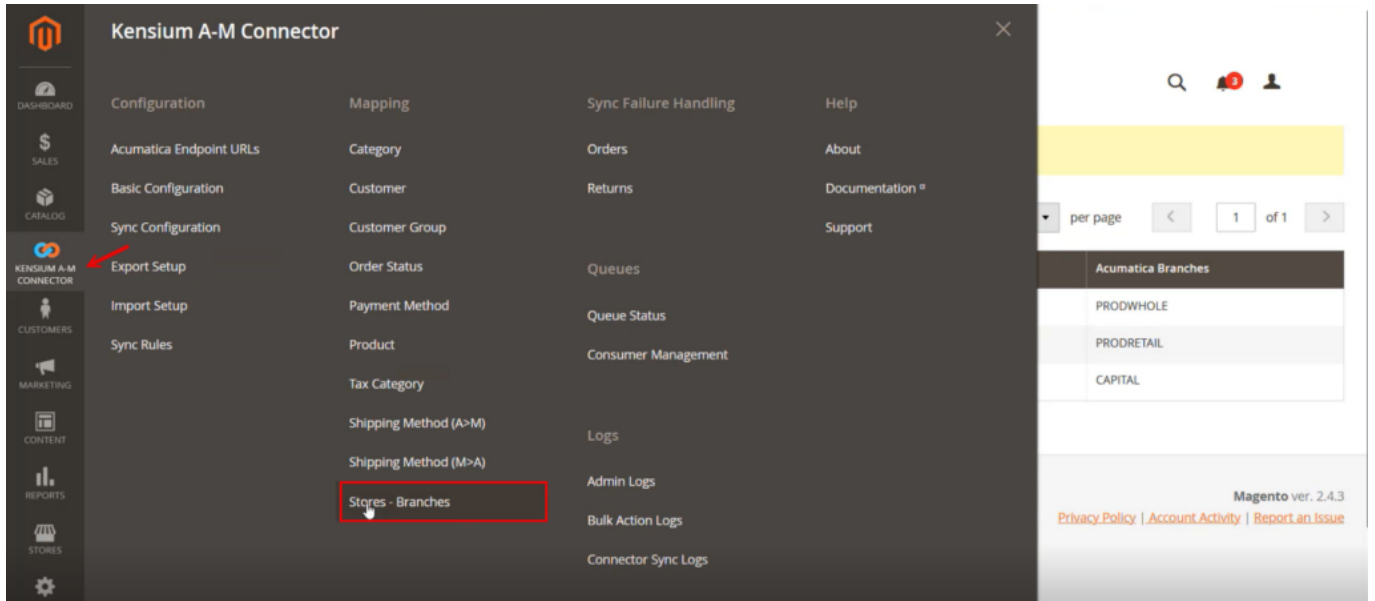

So, the data can be defined according to the Branches. When you are defining the branch-wise data and syncing it to Magento, you also need to keep the data similarly (Branch Wise).

Go to [Profiles] in Acumatica and click on Stock Item as shown below.

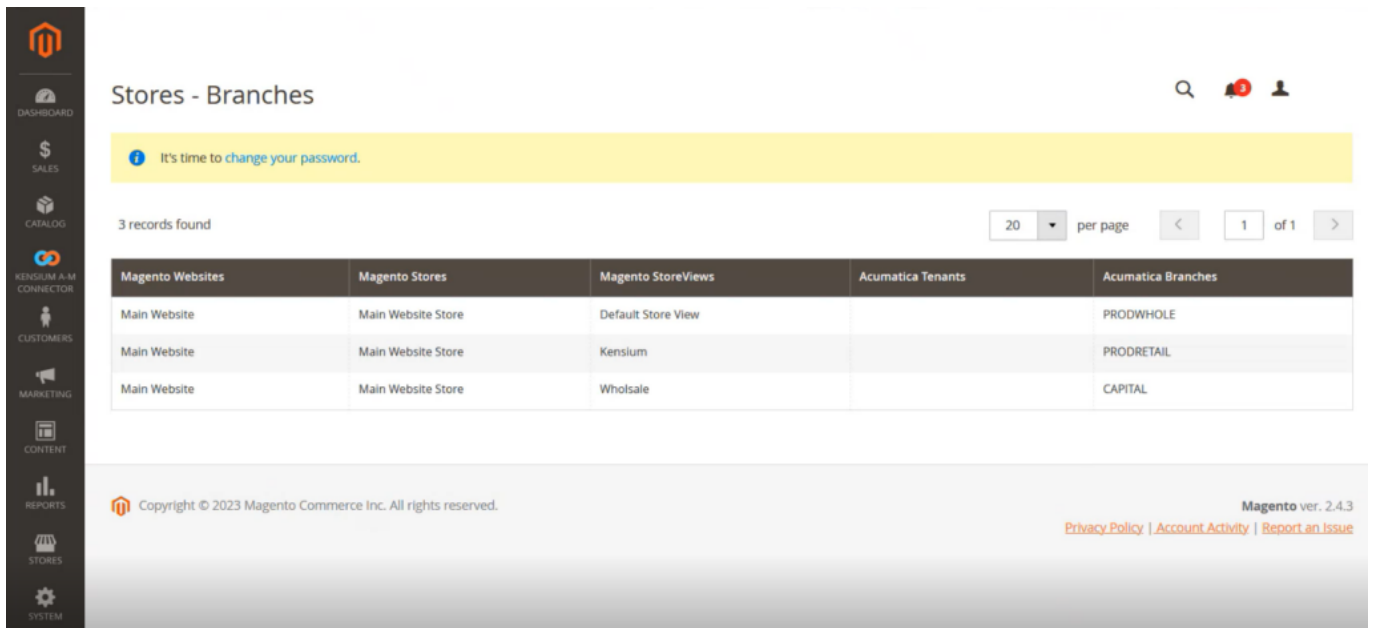

The following Product comes under the [Wholesale]. So, this product belongs to the respective branch. In other branches, the same product will not be available. Here we segregate the data where the product belongs.

You need to map these two. To map you need to go to the mapping screen. To map go to Magento Kensium A-M Connector and under Mapping click on Store-Branches as shown below.

### Store-Branches under Mapping

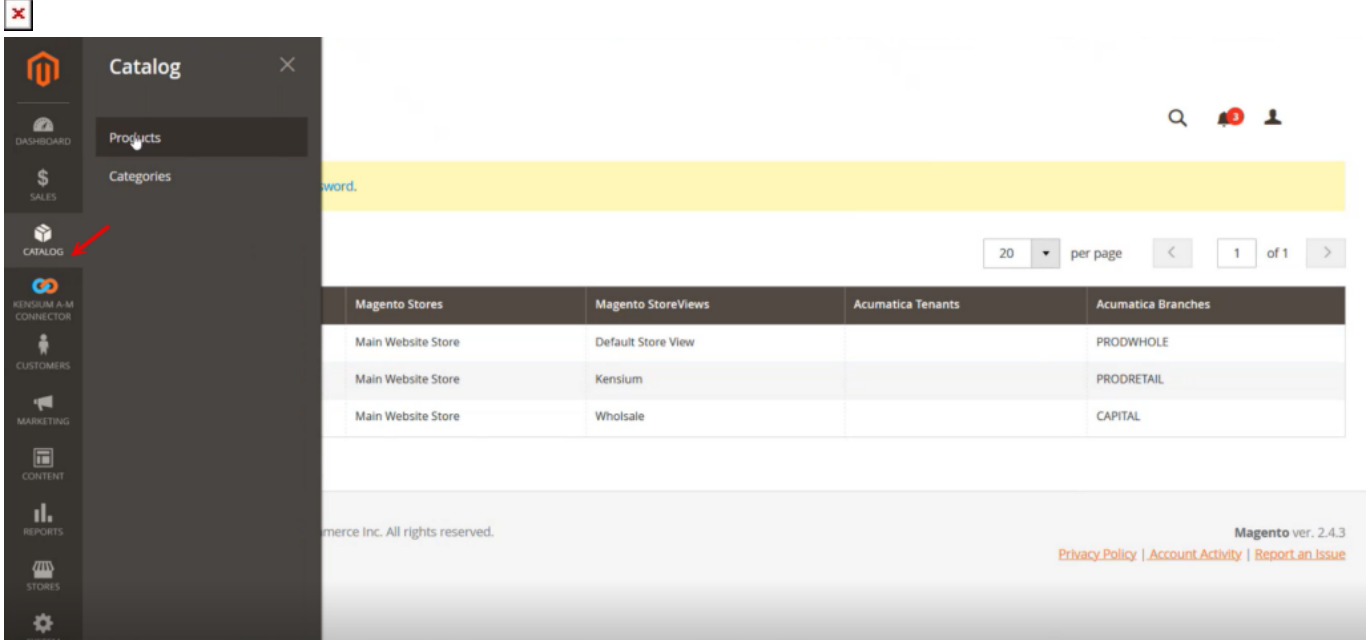

Upon clicking on the Stores- Branches you will be redirected to the mapping screen as shown below.

### Mapping Screen for Stores- Branches

In the above screenshot you can view each store of Magento is mapped with each Acumatica Branches.

To see the use of the mapping click on the Catalogue in Magento and from there click on the Products.

The screenshot shows the Magento Catalog interface. A sidebar on the left contains navigation options: DASHBOARD, SALES, CATALOG (highlighted with a red arrow), KENSIUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area displays a table with the following data:

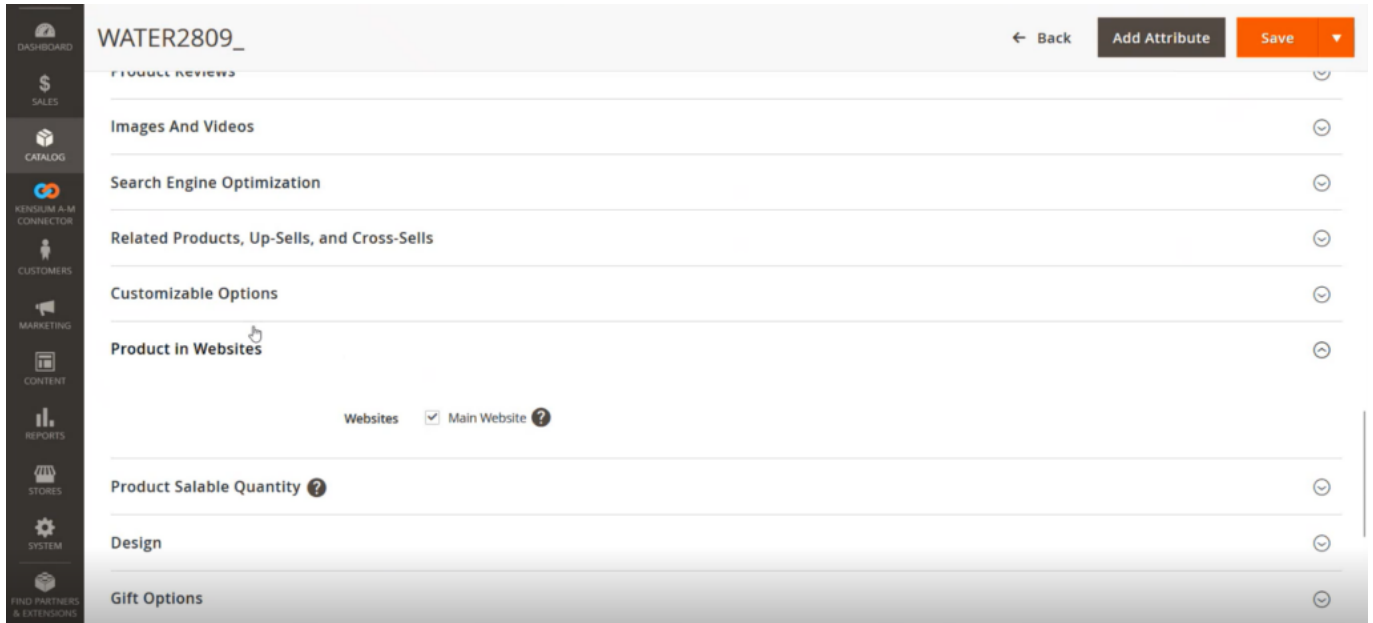

Magento Stores	Magento StoreViews	Acumatica Tenants	Acumatica Branches
Main Website Store	Default Store View		PRODWHOLE
Main Website Store	Kensium		PRODRETAIL
Main Website Store	Wholesale		CAPITAL

At the bottom of the page, there is a footer with the text "commerce Inc. All rights reserved." and "Magento ver. 2.4.3" along with links for "Privacy Policy", "Account Activity", and "Report an Issue".

### Products under Catalogue

From the Product Screen go to Products in Website.

Since all the products are added to the main website, the [Checkbox] for main Website is checked.

If you have multiple websites and if a product belongs to that website, it should be checked. If a product is available in all the stores you can check all the websites.
