

Creating the Store

At the first stage only default store will be displayed which you can edit from the Manage Stock Screen.

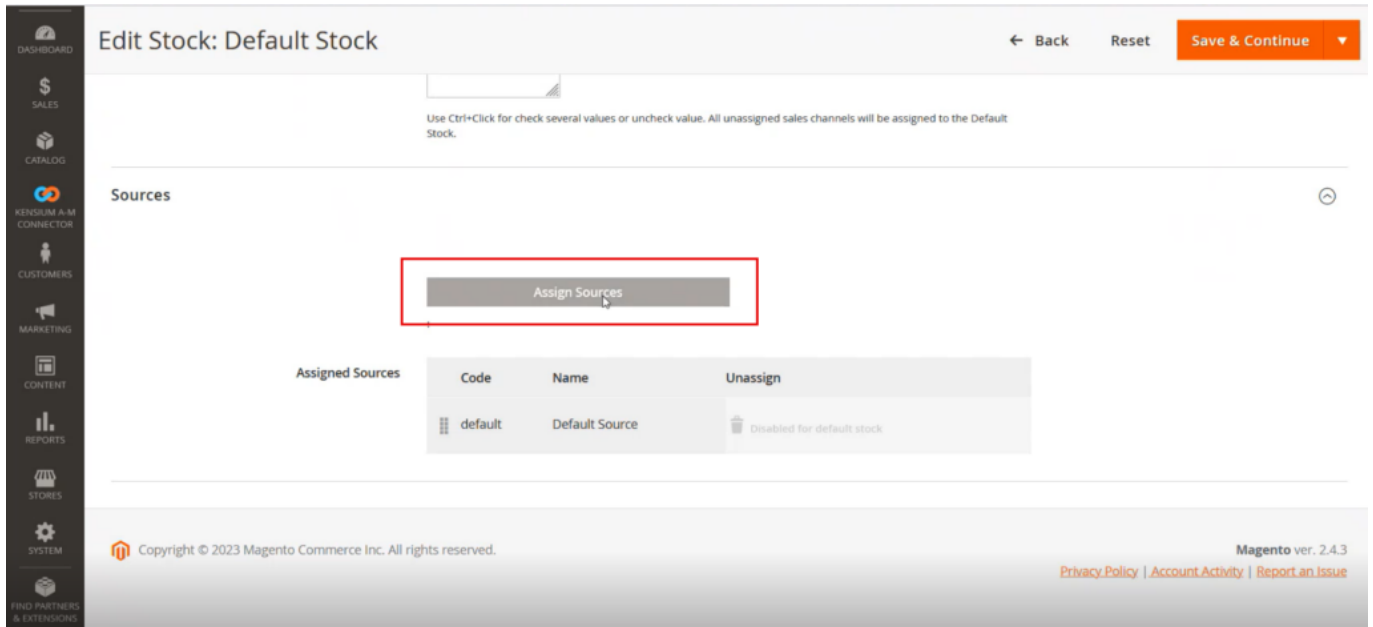

The screenshot shows the 'Manage Stock' interface. The title 'Manage Stock' is highlighted with a red box. The interface includes a sidebar with navigation options: DASHBOARD, SALES, CATALOG, KENSUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area has a search bar, a table with one record, and an 'Add New Stock' button. The table has the following data:

ID	Name	Sales Channels	Assigned Sources	Action
1	Default Stock	website Main Website (base)	Default Source (default)	Edit

The footer contains the text: Copyright © 2023 Magento Commerce Inc. All rights reserved. and Magento ver. 2.4.3. There are also links for Privacy Policy, Account Activity, and Report an Issue.

Upon clicking on the [Edit] button you will be redirected to the following screen.

Edit Stock: Default Stock ← Back Reset Save & Continue ▾

Use Ctrl+Click for check several values or uncheck value. All unassigned sales channels will be assigned to the Default Stock.

<input checked="" type="checkbox"/>	PRODWHOLE	PRODWHOLE	Disabled	Disabled	Edit

Assign Sources

The selected sources will be displayed under Assigned Sources and click on [Save & Close].

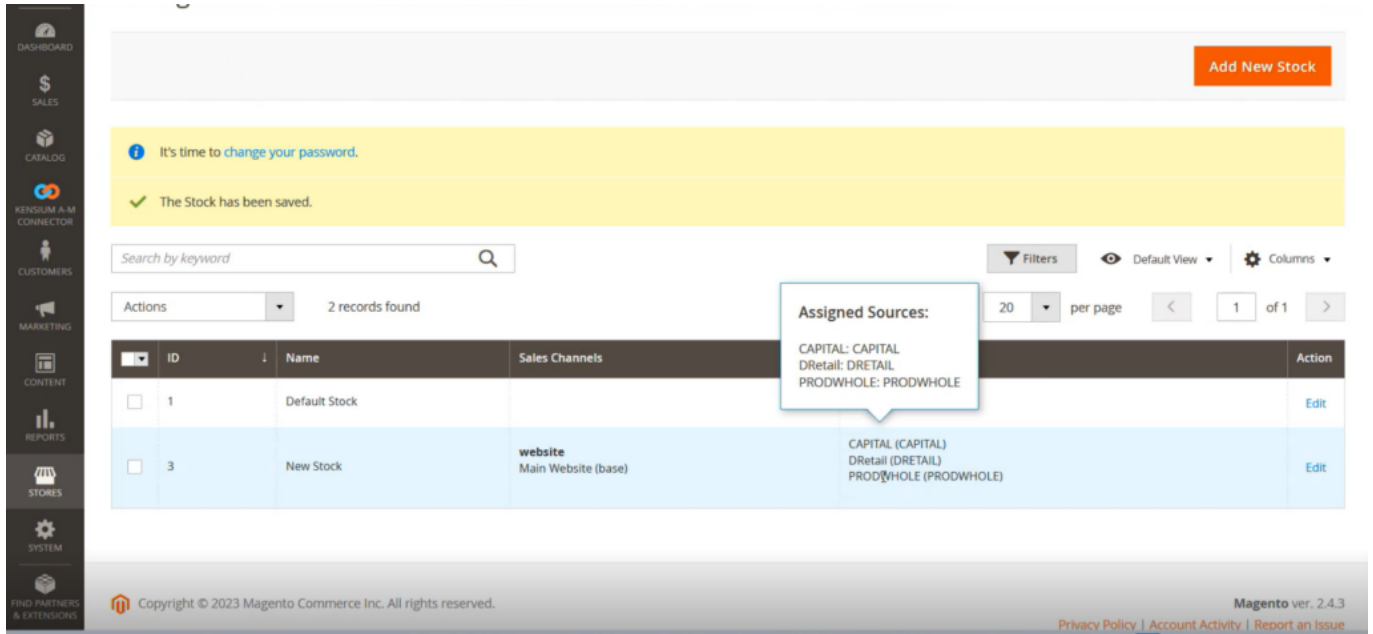

The screenshot shows the 'New Stock' interface in the Kensium Adobe Connector. The top navigation bar includes 'Back', 'Delete', 'Reset', and 'Save & Continue' buttons. The main content area is titled 'Sources' and features a table of assigned sources. A red box highlights the table, which has a header 'Assign Sources' and columns for 'Code', 'Name', and 'Unassign'. The table lists three sources: CAPITAL, DRETAIL, and PRODWHOLE.

Assign Sources		
Code	Name	Unassign
CAPITAL	CAPITAL	
DRETAIL	DREtail	
PRODWHOLE	PRODWHOLE	

Sources Assigned.

So, you can create a new stock by using the above methods. You have added a main website and different sources/ Stores.

 - SERVEAST - Services East
 - SERWEST - Services West

Companies: 3, Branches: 4

The screenshot shows the Acumatica application interface. The top navigation bar includes the Acumatica logo, a search bar with the text 'branch', and user information for 'admin admin'. The left sidebar contains various menu categories like Favorites, Data Views, Material Requirements, Time and Expenses, Finance, Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, and Dashboards. The main content area is titled 'MENU ITEMS (7)' and lists several categories: Finance (Financial Statements, Preferences, Fixed Assets), Reports (FA Balance Projection by Branch), Configuration (Organization, Row Level Security), and Inquiries (GL Accounts by Branch Access, Restriction Groups by Branch Access). The 'Organization' link under the Configuration section is highlighted with a red rectangular box.

The screenshot shows the 'Branches' list in the Acumatica application. The top navigation bar is the same as in the previous screenshot. The left sidebar is also the same. The main content area is titled 'Branches' and displays a table with the following columns: Branch ID, Branch Name, Country, City, Active, Account Name, and Created On. The table contains five rows of data:

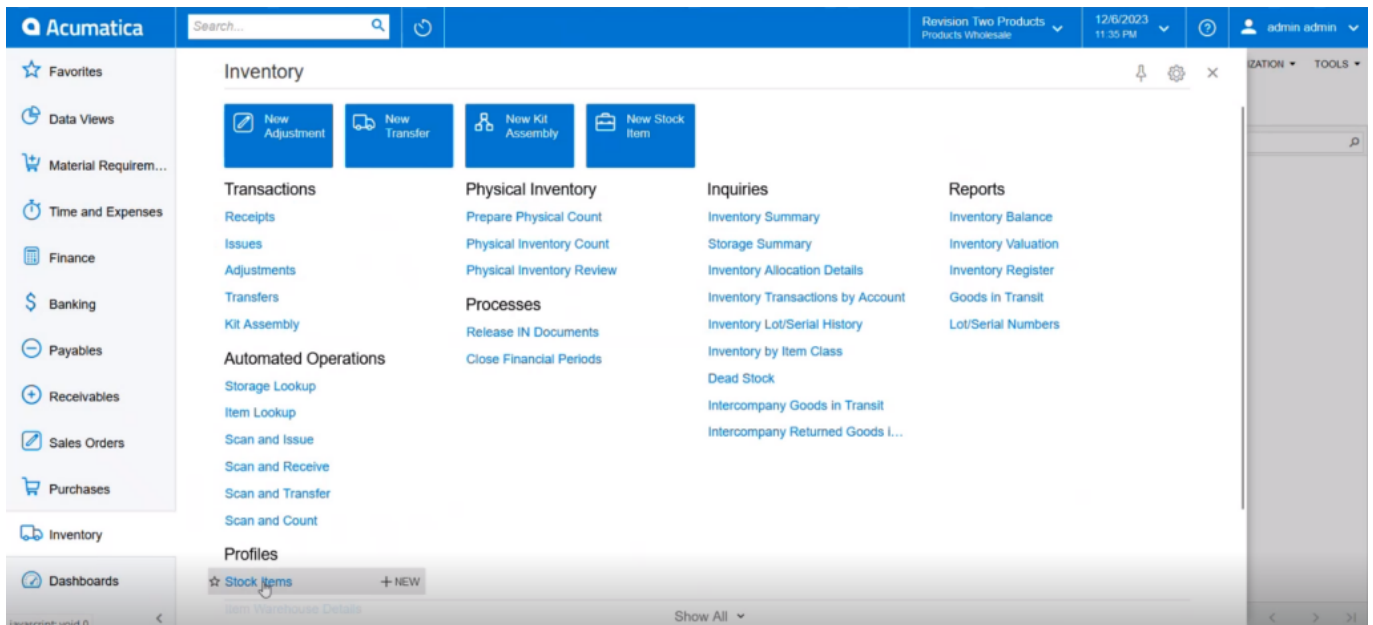

Branch ID	Branch Name	Country	City	Active	Account Name	Created On
CAPITAL	Revision Two Capital	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Capital	2/5/2018
PRODRETAIL	Products Retail	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
PRODWHAOLE	Products Wholesale	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
SERVEAST	Services East	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018
SERWEST	Services West	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018

The bottom of the screen shows '1-5 of 5 records' and navigation arrows.

Branches in Acumatica

So, the data can be defined according to the Branches. When you are defining the branch-wise data and syncing it to Magento, you also need to keep the data similarly (Branch Wise).

Go to [Profiles] in Acumatica and click on Stock Item as shown below.

The following Product comes under the [Wholesale]. So, this product belongs to the respective branch. In other branches, the same product will not be available. Here we segregate the data where the product belongs.

You need to map these two. To map you need to go to the mapping screen. To map go to Magento Kensium A-M Connector and under Mapping click on Store-Branches as shown below.

Store-Branches under Mapping

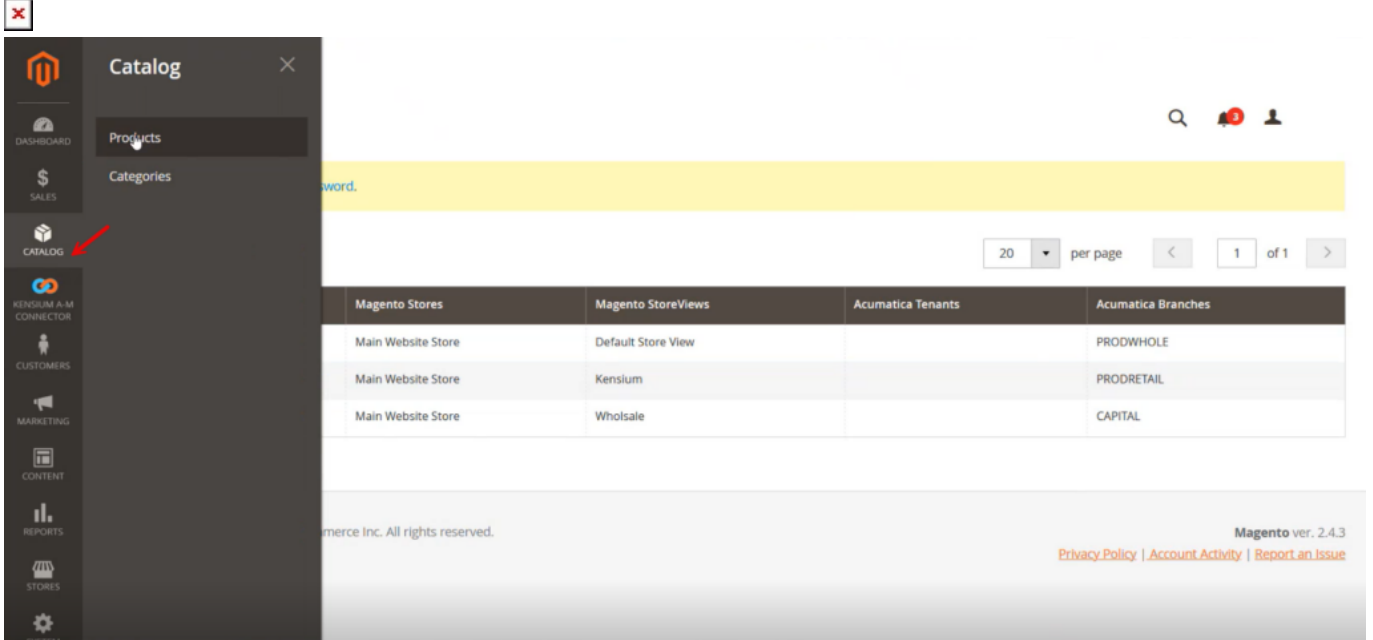

Upon clicking on the Stores- Branches you will be redirected to the mapping screen as shown below.

Mapping Screen for Stores- Branches

In the above screenshot you can view each store of Magento is mapped with each Acumatica Branches.

To see the use of the mapping click on the Catalogue in Magento and from there click on the Products.

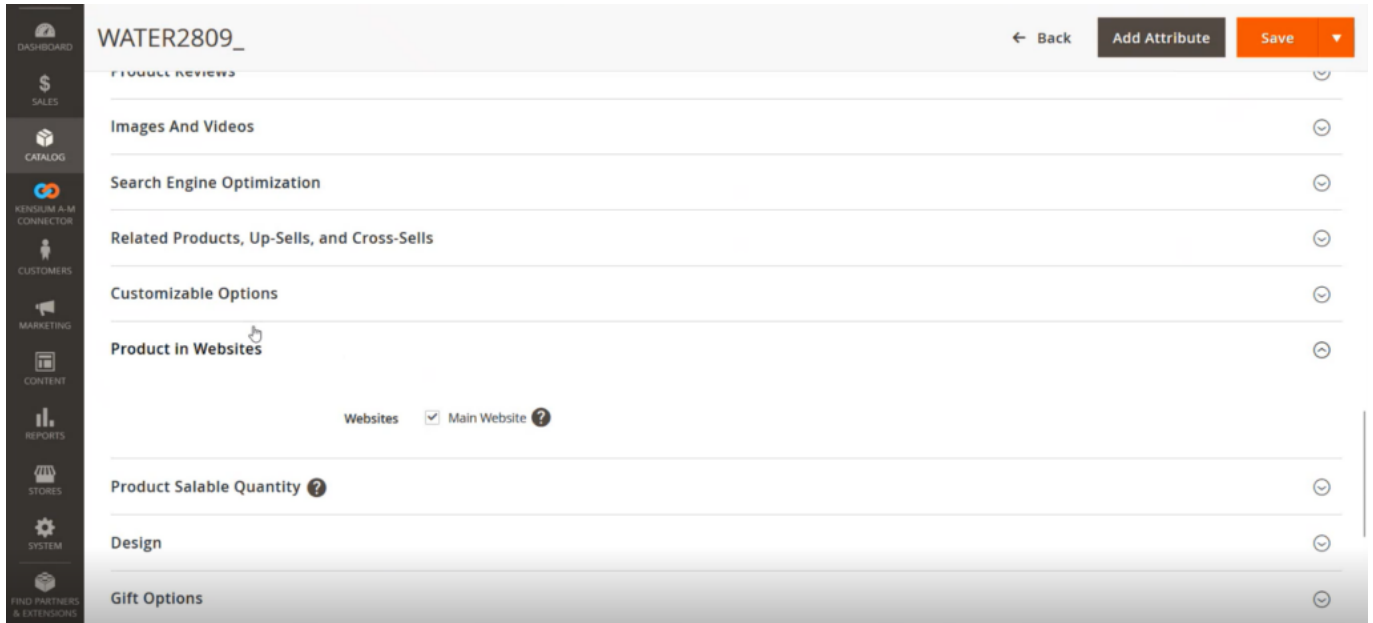

The screenshot shows the Magento Catalog interface. A sidebar on the left contains navigation options: DASHBOARD, SALES, CATALOG (highlighted with a red arrow), KENSIUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area displays a table with the following data:

Magento Stores	Magento StoreViews	Acumatica Tenants	Acumatica Branches
Main Website Store	Default Store View		PRODWHOLE
Main Website Store	Kensium		PRODRETAIL
Main Website Store	Wholesale		CAPITAL

At the bottom of the page, there is a footer with the text "commerce Inc. All rights reserved." and "Magento ver. 2.4.3" along with links for [Privacy Policy](#), [Account Activity](#), and [Report an Issue](#).

Since all the products are added to the main website, the [Checkbox] for main Website is checked.

If you have multiple websites and if a product belongs to that website, it should be checked. If a product is available in all the stores you can check all the websites.
