

Export Setup in Kensium A-M Connector

From the Kensium A-M connection click **[Export Setup]** under the Configuration as shown below:

The screenshot shows the Kensium A-M Connector interface. The left sidebar contains a navigation menu with categories like DASHBOARD, SALES, CATALOG, KENSIUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. Under the 'Kensium A-M Connector' category, the 'Export Setup' option is highlighted with a red box. The main content area displays a grid of configuration options, including 'Acumatica Endpoint URLs', 'Basic Configuration', 'Sync Configuration', 'Import Setup', and 'Sync Rules'. The 'Export Setup' option is located under the 'Sync Configuration' category. The right sidebar shows a search bar, a user profile for 'ashaa', and buttons for 'View Details', 'System Messages: 1', 'View Status', and 'Update Consumer List'. Below these, there is a table with a 'Consumer count' column and several rows of data.

| Consumer count |
|----------------|
| 10 |
| 1 |
| 1 |
| 1 |
| 1 |
| 1 |

Option to Export the Entity

The Export Mapping and Configuration includes the **[Entity Name]** and **[Download]** options along with the records per page and filter options.

To export the Entity, you need to click on the **[Download]** option. For, if you want to export the entity - Basic Configuration, click on the **[Download]** from the same grid.

Task "Rule processing: 2,3": 1 item(s) have been successfully updated. [View Details](#) System Messages: 1
