

Managing Stores and Warehouses

If you have a multi-warehouse inventory structure, you will need to create multiple sources assigned to stock in Magento. Subsequently, you should generate receipts in Acumatica based on the warehouses, map those warehouses to Magento Sources, and then the inventory will be synchronized from Acumatica to Magento according to the specified sources.

The objective is to map the stores in Magento. So, if you go to the Default config you will have Main Website Store and under that, we have Default Store view Kensium and Wholesale.

Under the Basic configuration from the Kensium A-M Connector, you will be able to see the default store. Under the Main Website, you can view the stores.

Default Store in Magento under the Basic Configuration

These stores can be mapped with the Acumatica Branches.

The screenshot shows the Acumatica interface with the 'Branches' table. The table has columns for Branch ID, Branch Name, Country, City, Active, Account Name, and Created On. Five rows are visible, each with a folder icon and a branch name in blue text. A red box highlights the table area.

Branch ID	Branch Name	Country	City	Active	Account Name	Created On
CAPITAL	Revision Two Capital	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Capital	2/5/2018
PRODRETAIL	Products Retail	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
PRODWHOLE	Products Wholesale	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
SERVEAST	Services East	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018
SERWEST	Services West	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018

Branches in Acumatica

So, when you are defining the branch-wise data and syncing the data to Magento, we need to keep the data similarly.

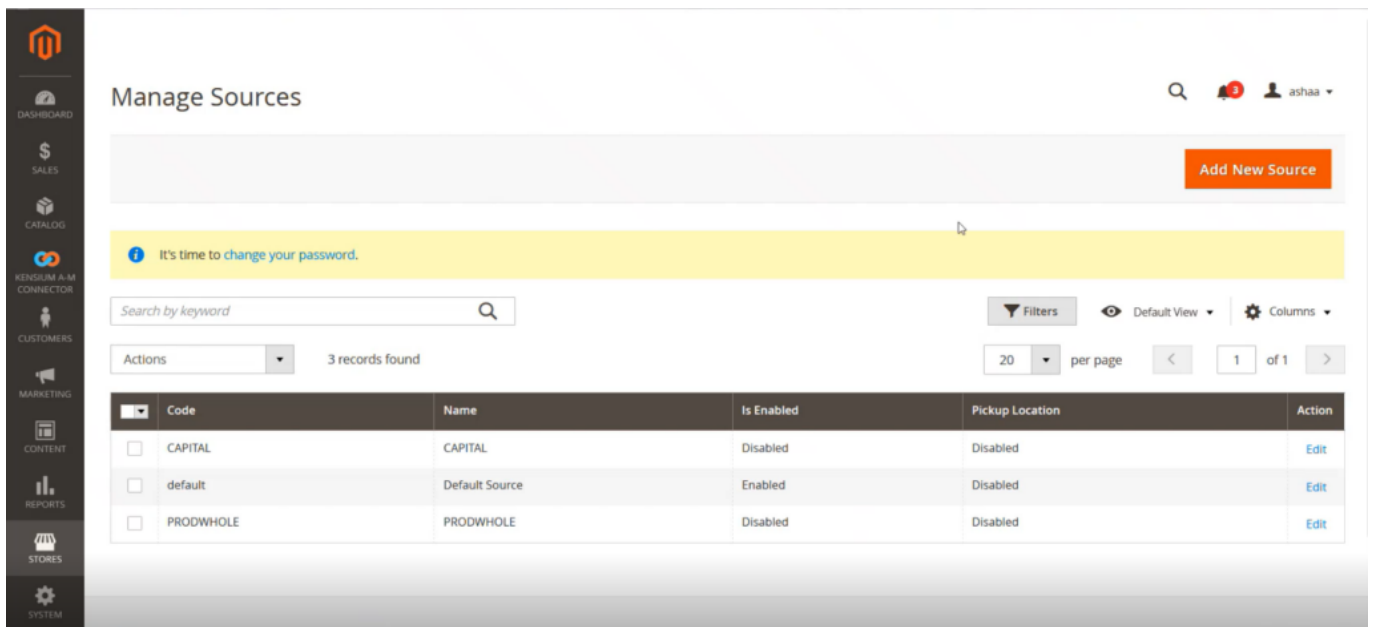

Go to Magento and click on Store. You will find two options under the Inventory.

- Sources
- Stocks

Stores

Upon clicking on Sources, you will be redirected to Manage Sources from where you can add new Sources and if you have sources already within Mage Source you can delete them based on the business requirements.

Add Sources from the Manage Sources Screen

[In the Creating New Source subsection we have illustrated how to Add a new source.](#)

Stores - Branches

It's time to change your password.

Stores - Branches

These stores can be mapped to Acumatica Branches. So, in Acumatica tenants may have multiple branches.
