Price / Cost tab includes all the schema and display name

×

• Attributes: The [Attributes] in the Product Schema section is followed by the [Price/Cost Information]. This will show the Attribute ID, Substitute ID, Description, Attribute Types, and attribute values. The [Active] check box in the schema indicates the active attributes which are reflected in the in-stock item browse while creating a new product.

The Attributes which are selected as Active will be displayed in the Product browse. You need to define the attributes you want to see in the Product browse.
