

Setting up Parameters in Acumatica

Once your license is active you need to set up the parameter within Acumatica. To access the Setup Parameters, click on the **[Magento Connector]** on the left panel and under the configuration you can view an option **[Setup Parameters]**.

Option to access [Setup Parameters]

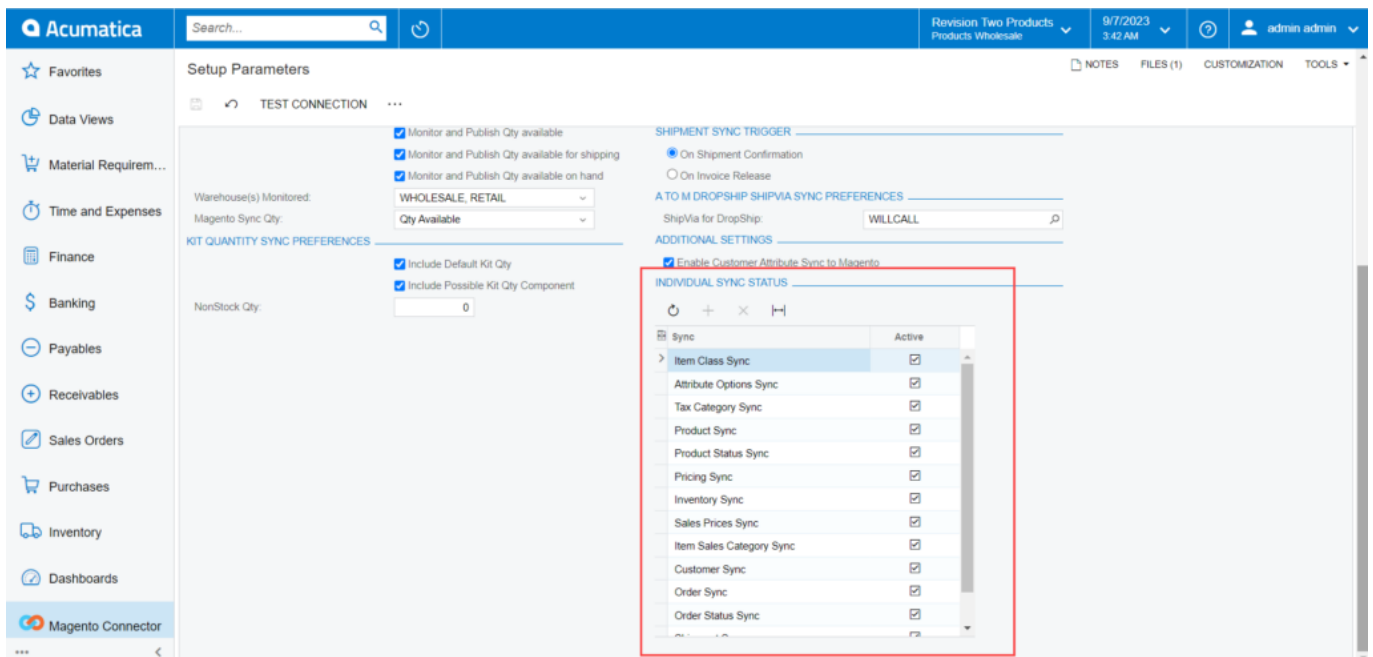

You will be redirected to the **[Setup Parameters]** screen. For the first time, you need to select the **[Individual Sync Status]**.

Individual Sync Status

Once you are on the **[Setup Parameter]** page, the first step would be to select the **[Individual Sync Status]**. The application should provide you with a list of the options that you want to sync. Only the selected options will be synced. The following options will be available with a checkbox as shown in the figure below.

- **Item Class Sync**
- **Attribute Options Sync**
- **Tax Category Sync**
- **Product Sync**

- Product Status Sync
- Pricing Sync
- Inventory Sync
- Sales Prices Sync
- Item Sales Category Sync
- Customer Sync
- Order Sync
- Order Status Sync
- Shipment Sync
- Order Lookup Sync

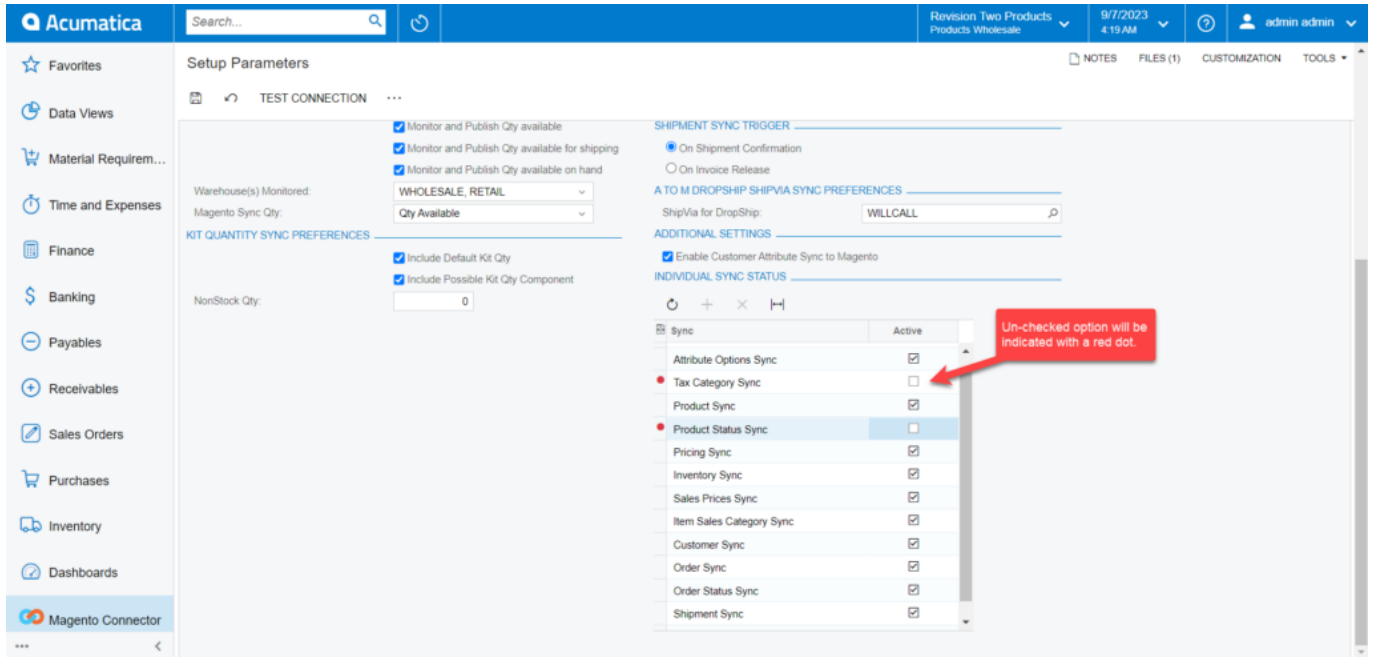

The screenshot shows the 'Setup Parameters' configuration page for the Magento Connector in Acumatica. The 'INDIVIDUAL SYNC STATUS' section is highlighted with a red box and contains the following table:
