

Template Items

 In the Template Items you can use the same item class which you have created before. This feature allows you to create different combinations of a particular product. To access the Template Items, you need to go to [Inventory] on the left panel of Acumatica and click on [Template Items] under [Profiles].

Access Template Items

Upon clicking on the Template Items, you will be redirected to the following screen where you can create the product with the same item class.
