

Testing the Connection

After entering the Client ID, Client Secret, Login ID, and Password in the Magento you need to test the connection.

Click on the Test Connection to check the integration between Magento and Acumatica by using the OAuth connection as shown below:

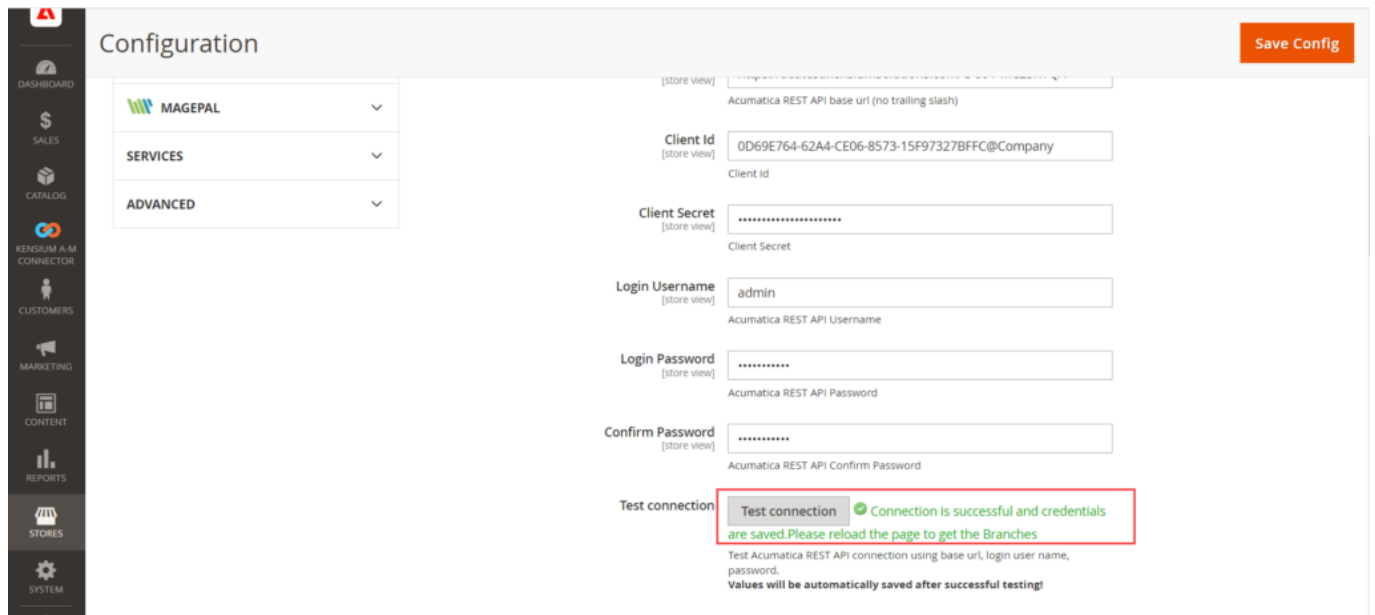

The screenshot shows the 'Configuration' page for the Kensium Adobe Connector. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, KENSIMUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and includes a 'Save Config' button in the top right. A left-hand menu lists categories: CUSTOMERS, SALES, MAGEPAL, SERVICES, and ADVANCED. The main configuration area contains the following fields:

- Authentication Type**: Dropdown menu set to 'OAuth 2'. Below it, a note states: 'This configuration will be used for Acumatica Login Type.'
- Acumatica base url**: Text input field containing 'https://acutest.kensiumsolutions.com/C-801-MC23R1QA'. Below it, a note states: 'Acumatica REST API base url (no trailing slash)'.
- Client Id**: Text input field containing '0D69E764-62A4-CE06-8573-15F97327BFFC@Company'.
- Client Secret**: Text input field containing masked characters (dots).
- Login Username**: Text input field containing 'admin'.
- Login Password**: Text input field containing masked characters (dots).
- Confirm Password**: Text input field containing masked characters (dots).
- Test connection**: A button labeled 'Test connection' is highlighted with a red rectangle. Below it, a note states: 'Test Acumatica REST API connection using base url, login user name, password. Values will be automatically saved after successful testing!'.

Option to test the Acumatica REST API

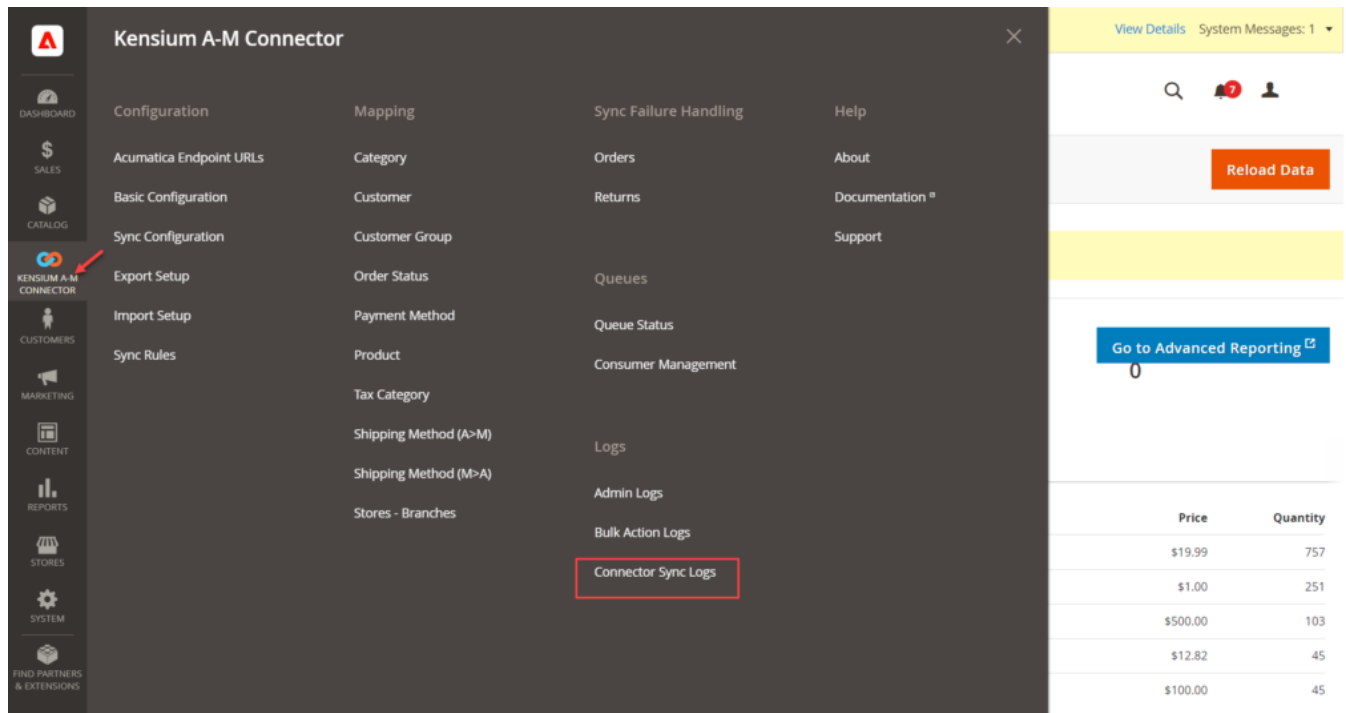

Clicking on [Test Connection] will check the connection and will return a success or failure message.

The screenshot shows the 'Configuration' page of the Kensium Adobe Connector. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, KENSIUM A-M CONNECTOR, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main area is titled 'Configuration' and contains a 'Save Config' button in the top right. Below the title is a dropdown menu with 'MAGEPAL', 'SERVICES', and 'ADVANCED' options. The configuration fields include: 'Acumatica REST API base url (no trailing slash)' (with a '[store view]' link), 'Client Id' (with a '[store view]' link and value '0D69E764-62A4-CE06-8573-15F973278FFC@Company'), 'Client Secret' (with a '[store view]' link and masked value), 'Login Username' (with a '[store view]' link and value 'admin'), 'Login Password' (with a '[store view]' link and masked value), and 'Confirm Password' (with a '[store view]' link and masked value). At the bottom, the 'Test connection' section shows a 'Test connection' button and a green success message: 'Connection is successful and credentials are saved. Please reload the page to get the Branches'. Below the message is a note: 'Test Acumatica REST API connection using base url, login user name, password. Values will be automatically saved after successful testing!'.

Success message appears on the test connection

After a successful test connection, you can view the [Connector Sync Logs]. Go to the Logs from the Kensium A-M Connector and click on the [Connector Sync Logs].

The screenshot shows the Kensium A-M Connector interface. The left sidebar contains a list of navigation items: DASHBOARD, SALES, CATALOG, KENSIMUM A-M CONNECTOR (highlighted with a red arrow), CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is divided into five columns: Configuration, Mapping, Sync Failure Handling, and Help. The 'Connector Sync Logs' option is highlighted in the 'Sync Failure Handling' column. The right sidebar contains a search bar, a 'Reload Data' button, a 'Go to Advanced Reporting' button, and a table with the following data:

Price	Quantity
\$19.99	757
\$1.00	251
\$500.00	103
\$12.82	45
\$100.00	45
