

Testing the Connection

After entering the Client ID, Client Secret, Login ID, and Password in the Magento you need to test the connection.

Click on the Test Connection to check the integration between Magento and Acumatica by using the OAuth connection as shown below:

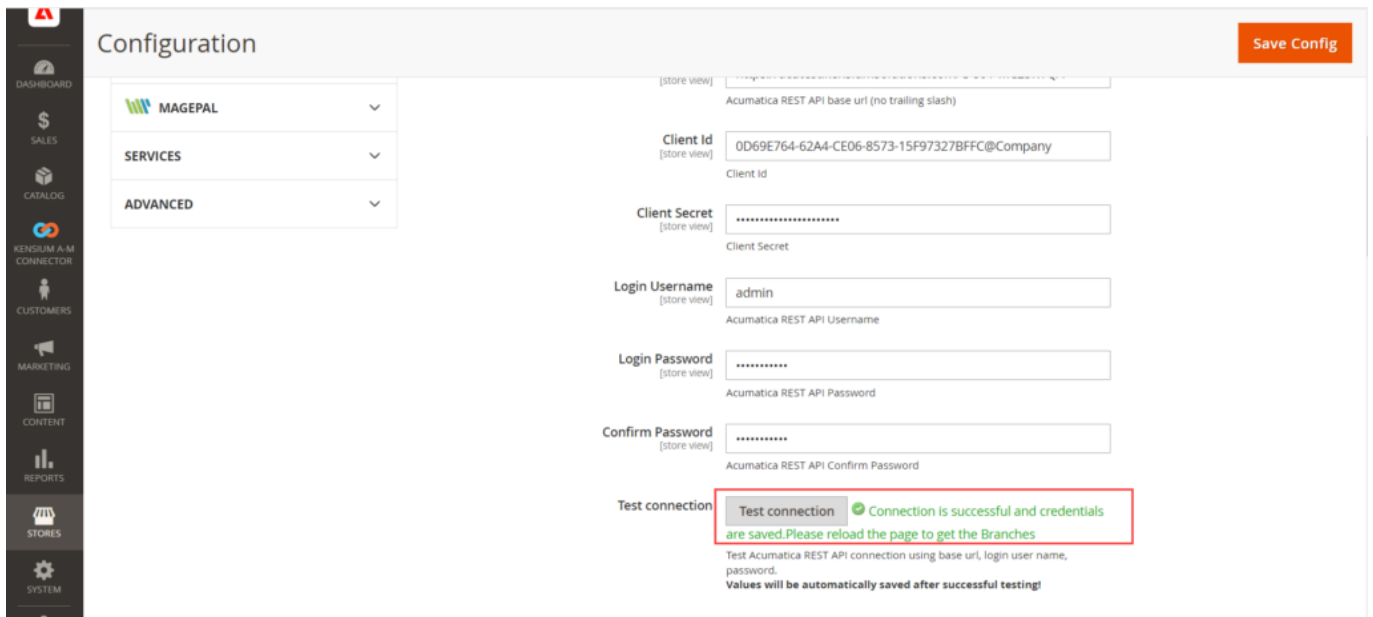

The screenshot shows the 'Configuration' page for Acumatica integration in Magento. The page includes a sidebar with navigation options like Dashboard, Sales, Catalog, and System. The main content area is titled 'Configuration' and contains several sections for setting up the connection:

- Authentication Type:** Set to 'OAuth 2'. A note below states: 'This configuration will be used for Acumatica Login Type.'
- Acumatica base url:** Set to 'https://acutest.kensiumsolutions.com/C-801-MC23R1QA'. A note below states: 'Acumatica REST API base url (no trailing slash)'.
- Client Id:** Set to '0D69E764-62A4-CE06-8573-15F97327BFFC@Company'. A note below states: 'Client Id'.
- Client Secret:** Masked with dots. A note below states: 'Client Secret'.
- Login Username:** Set to 'admin'. A note below states: 'Acumatica REST API Username'.
- Login Password:** Masked with dots. A note below states: 'Acumatica REST API Password'.
- Confirm Password:** Masked with dots. A note below states: 'Acumatica REST API Confirm Password'.
- Test connection:** A button labeled 'Test connection' is highlighted with a red box. A note below states: 'Test Acumatica REST API connection using base url, login user name, password. Values will be automatically saved after successful testing!'.

A 'Save Config' button is visible in the top right corner of the configuration area.

Option to test the Acumatica REST API

Clicking on [Test Connection] will check the connection and will return a success or failure message.

Test connection

Test connection ✔ Connection is successful and credentials are saved. Please reload the page to get the Branches

Test Acumatica REST API connection using base url, login user name, password.
Values will be automatically saved after successful testing!

Success message appears on the test connection

After a successful test connection, you can view the [Connector Sync Logs]. Go to the Logs from the Kensium A-M Connector and click on the [Connector Sync Logs].

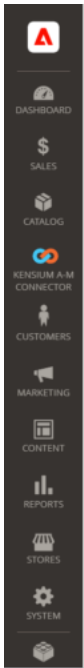

The screenshot shows the 'Kensium A-M Connector' application interface. The left sidebar contains a navigation menu with categories: DASHBOARD, SALES, CATALOG, KENSIUM A-M CONNECTOR (highlighted with a red arrow), CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area displays a grid of menu items under the 'Kensium A-M Connector' section, including Configuration, Mapping, Sync Failure Handling, Help, Acumatica Endpoint URLs, Category, Orders, About, Basic Configuration, Customer, Returns, Documentation, Sync Configuration, Customer Group, Support, Export Setup, Order Status, Queues, Import Setup, Payment Method, Queue Status, Sync Rules, Product, Consumer Management, Tax Category, Shipping Method (A>M), Logs, Shipping Method (M>A), Admin Logs, Stores - Branches, Bulk Action Logs, and Connector Sync Logs (highlighted with a red box).

On the right side of the interface, there is a header with 'View Details' and 'System Messages: 1'. Below this is a search bar, a notification bell with a red '7', and a user profile icon. A red 'Reload Data' button is visible. A blue button labeled 'Go to Advanced Reporting' with a '0' below it is also present. At the bottom right, a table displays data:

	Price	Quantity
	\$19.99	757
	\$1.00	251
	\$500.00	103
	\$12.82	45
	\$100.00	45
