

# Batch Processes in Commerce Connector

 The commerce connector page allows you with an option of **[Batch Process]**. If the schedulers are not working, then you need to go to the Batch Process screen.

Option for the Batch Process in the Commerce Connector

This includes the following:

- Master Data
- Product
- Category
- Customer
- Sales Order
- Shipment
- Invoice

Following is the example of the Master Data screen where you need to fill in the details.

Acumatica  Revision Two Products Products Wholesale 11/23/2023 11:29 PM admin admin

Master Data CUSTOMIZATION TOOLS

PROCESS PROCESSALL

Master Data:   Filter By Dates  Filter By Specific Entity ID   Or Entity ID:

Please upload an excel file with the first column containing the Master Id's and first row containing header as 'EntityID'.

All Records

Entity ID	Descr	State ID	State Name	Value ID	Attribute Name	Control Type
-----------	-------	----------	------------	----------	----------------	--------------
