

Entity Settings in Acumatica

Upon clicking on the **[Entity Settings]** you need to check the entities which need to be synced from Acumatica to Big Commerce. The available entities will have a checkbox along with it. The Real-Time Import and the Real Time Export need to be set up by the customer at the time of setting up the Store details.

The screenshot shows the Acumatica interface for configuring the BigCommerce B2BQASore. The 'ENTITY SETTINGS' tab is active, displaying a table of entities to be synced. A notification at the top right states 'The operation has completed.'

Active	Entity	Sync Direction	Primary System	Real-Time Import	Real-Time Export	Real-Time Mode	Max. Number of Failed Attempts
<input type="checkbox"/>	Customer Price Cl...	Export	ERP	Not Supported	Not Supported	Prepare	5
<input checked="" type="checkbox"/>	Customer	Bidirectional	External System	Not Supported	Not Supported	Prepare & Process	5
<input type="checkbox"/>	Customer Location	Bidirectional	External System	Not Supported	Not Supported	Prepare & Process	5
<input type="checkbox"/>	Sales Category	Export	ERP	Not Supported	Not Supported	Prepare	5
<input checked="" type="checkbox"/>	Stock Item	Export	ERP	Not Supported	Stopped	Prepare & Process	5
<input type="checkbox"/>	Non-Stock Item	Export	ERP	Not Supported	Stopped	Prepare	5
<input type="checkbox"/>	Template Item	Export	ERP	Not Supported	Stopped	Prepare	5
<input type="checkbox"/>	Base Sales Price	Export	ERP	Not Supported	Not Supported	Prepare	5
<input type="checkbox"/>	Price List	Export	ERP	Not Supported	Not Supported	Prepare	5
<input type="checkbox"/>	Product Image	Export	ERP	Not Supported	Not Supported	Prepare	5
<input checked="" type="checkbox"/>	Product Availability	Export	ERP	Not Supported	Stopped	Prepare & Process	5
<input checked="" type="checkbox"/>	Sales Order	Import	External System	Running	Stopped	Prepare & Process	5
