

Managing Customer Contact Sync in B2B

 You can sync the Customer contacts of Acumatica to B2B. The contacts of Acumatica will be treated as users in B2B.

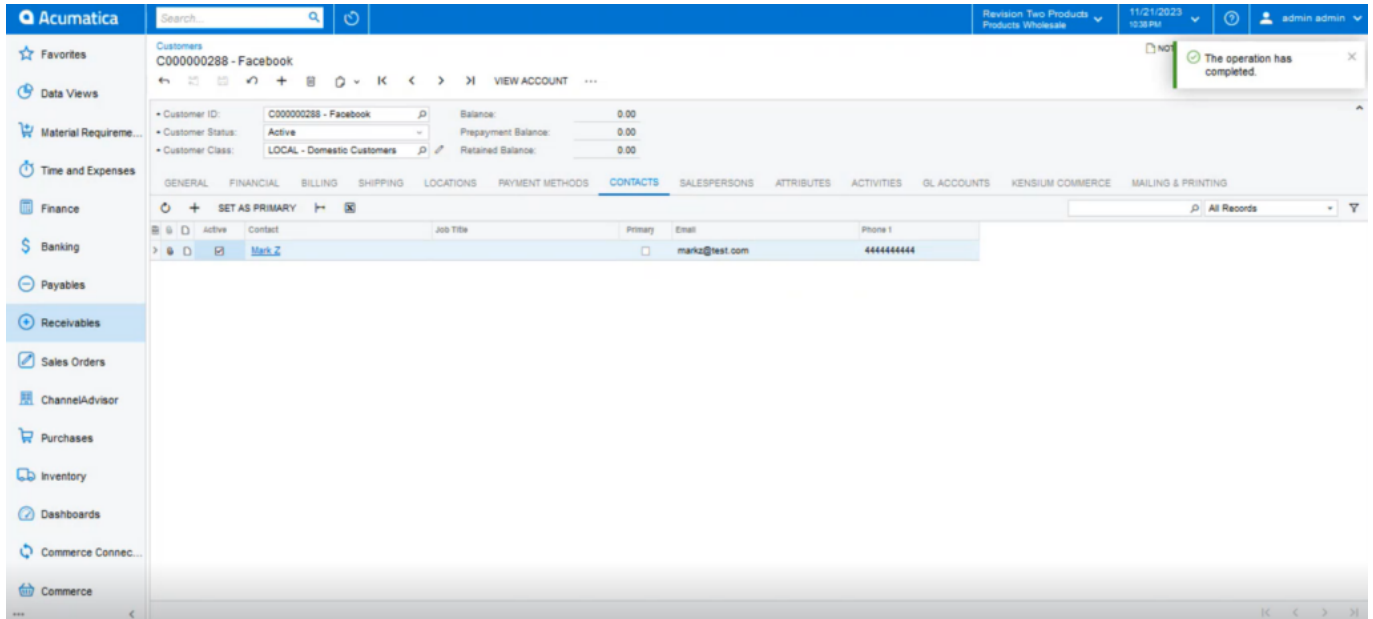

You need to follow the steps for successful synchronization.

Step 1: On the Customer Screen create a new contact.

Creating a customer within Acumatica

Step 2: The contact will be reflected on the grid.

Customer Contact ID synced to Better B2B

Step 6: Go to the B2B app and click on [Company]. Click on the [Company User(s)] you will be able to see the Username synced from Acumatica. Here the user role is [Primary Admin].

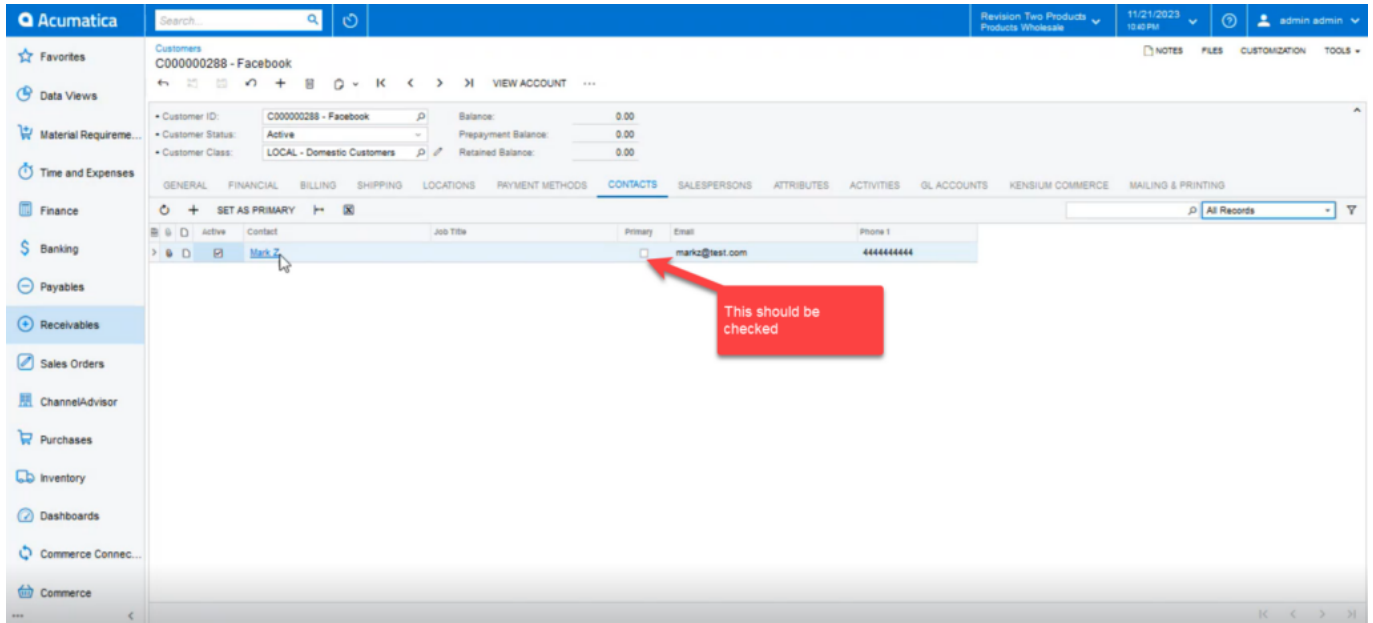

The screenshot shows the 'Company Detail' page for 'Facebook' in the Kensium BigCommerce B2B Connector. The 'Company User(s)' tab is selected, showing a table of users. The table has columns for User Name, Phone Number, Email, Role, Updated At, and Action. One user is listed: 'Mark Z' with phone number '444444444', email 'markz@test.com', and role 'Primary Admin'. The role is highlighted with a blue badge. The 'Updated At' is 'Nov 22nd 2023'. There is a 'View 20' dropdown at the bottom right of the table.

User Name	Phone Number	Email	Role	Updated At	Action
Mark Z	444444444	markz@test.com	Primary Admin	Nov 22nd 2023	...

User Name synced in the Company User(s)

Step 7: The primary contact check box should be checked in Acumatica then only you can view the same as a Primary User Admin.

The screenshot shows the Acumatica interface for a customer named 'C000000288 - Facebook'. The 'CONTACTS' tab is active, displaying a list of contacts. The contact 'Mark Z' is highlighted. A red arrow points to the 'Primary' checkbox, which is currently unchecked. A red callout box with the text 'This should be checked' points to the checkbox.

Active	Contact	Job Title	Primary	Email	Phone 1
<input checked="" type="checkbox"/>	Mark Z		<input type="checkbox"/>	markz@test.com	4444444444

The Primary Check box should be checked.
