

Installation Guide

The first step is to add the Braintree plugin in Acumatica and run the latest version of the plugin customization package. The customization package was developed based on the Acumatica Extensibility Framework.

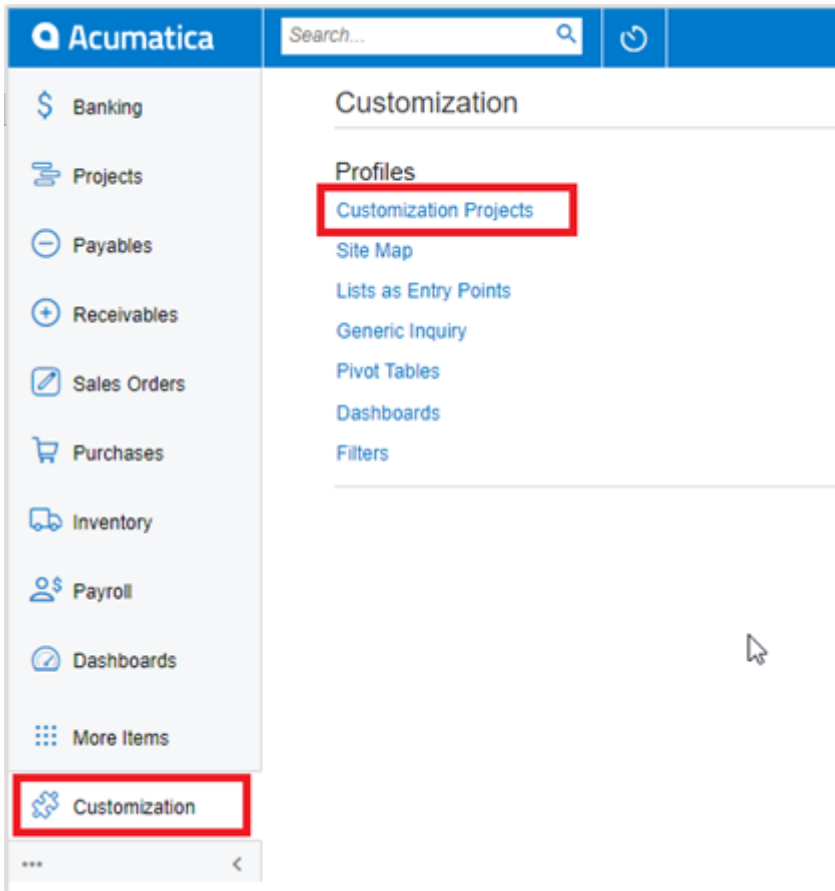

Customization Projects screen

- Install the 'KBraintree' customization package to get started.
- Obtain the latest Braintree plugin package **[*zip]** file and save it to a local drive. All packages are saved as a *.zip file.
- Go to the **[Universal]** search field.
- Enter **[Customization]**.
- Click on **[Customization Projects]**.

KENSIUM

Braintree Plugin

Customization Projects

- The **[Customization Projects]** screen should appear, as shown above.
- Click the **[Import]** button.
- Select the **[*.zip]** file location. Click on **[Import]**.
- The *.zip file will appear in the [Project Name] column.
- Select the checkbox/row for the name of the *.zip file.
- Click the **[Publish]** button.

If you want to publish the package for a specific company, click the down arrow on the Publish button.

The screenshot shows the 'Customization Projects' interface. At the top, there is a search bar, a refresh icon, and navigation tabs for 'Revision Two Products' and 'Products Wholesale'. The date is set to 5/18/2023 at 2:01 AM, and the user is 'admin admin'. Below the navigation, there are icons for 'PUBLISH', 'UNPUBLISH ALL', 'IMPORT', and 'EXPORT'. A table lists various projects with columns for 'Published', 'Project Name', 'Level', and 'Screen Names'. A context menu is open over the table, with 'Publish to Multiple Tenants' highlighted in yellow. Other options in the menu include 'Publish', 'Export', 'Unpublish All', 'View Published', 'Import', and 'Replace Highlighted Project C...'. The table contains several rows of project data, including 'FSUpdateDates2020R1', 'KNAMEX[22_200_0104][D...', 'SalesDemoDashboards20...', 'VisualWorkflow', 'KNCommerceBasic[22R2]...', 'KNPayFlow[22_201_0079][...', 'AmazonPA22R2Old', 'KNACEMagentoConnecto...', 'KNPayPalExpressChecko...', 'KBraintree[22_201_0079][...', 'KBraintree[22_201_0079][...', 'KBraintree[22_201_0079][...', and 'KNPayPalInvoicing[22_20...'. The bottom of the interface shows navigation arrows.

Publish Multiple Tenants

- Select **[Publish to Multiple Tenants]**.
- The Publish to Multiple Tenants pop-up screen will appear.

Select the **[Checkbox(es)]** for the company names for which you want to publish the package.

The screenshot shows the 'Publish to Multiple Tenants' dialog box overlaid on the 'Customization Projects' interface. The dialog box contains a table with the following data:

Selected	Tenant Name	ID	Parent ID
<input checked="" type="checkbox"/>	Company	2	1

Below the table, there are two checkboxes:

- Apply Changes Only to Database (Skip Website Update)
- Execute All Database Scripts (Including Previously Executed)

At the bottom right of the dialog box, there are two buttons: 'OK' and 'CANCEL'. A mouse cursor is pointing at the 'OK' button.

Publish to Multiple Tenants Screen

- Click **OK**.
- Click **Save**.
