Payment Card details through Hosted Form at Customer Payment Method and Sales Orders

- Create a **[Customer]** at the Customers screen.
- Create a new customer payment method and assign payment method & processing center.
- Click on the **[CREATE NEW]** action.
- Enter all the details of **[Payment]** and can use these payment card details in transactions.

The screenshot displays the 'Customer Payment Methods' screen for a customer named 'AACUSTOMER'. A modal window titled 'Add Payment' is open, allowing for the creation of a new payment method. The modal contains fields for 'Credit Card Number' (4111 1111 1111 1111), 'Expiration Date' (04 / 2025), and 'CVV' (123). A yellow 'Submit' button is located at the bottom of the modal. In the background, the 'Customer Payment Methods' screen shows a list of payment methods, with 'BRAINTREE - BRAINTREE' selected. The 'Payment Method Details' tab is active, showing fields for 'Customer', 'Payment Method', 'Proc. Center ID', 'Customer Profile ID', 'Cash Account', 'Card/Account Nbr.', and 'Expiration Date'. The 'Payment Method Details' tab is also visible, showing a table with 'Description' and 'Value' columns.
