

Steps to Verify the Published BYP Packages

Once the customization package is installed, the connections must be established between Acumatica and the BYP.

1. To verify the published package, navigate to the left menu in Acumatica ERP, click **Customization**, and select **Customization Projects**.

Customization Projects

OR

Type the keyword “**Customization Project**” in the universal search bar.

Customization Projects

- The application directs you to a **Customization Projects** screen, where you can review and validate the published packages.
