

Accessing BYP

To access the BYP module, go to the [Inventory] section on the left panel. Click on the **[Inventory]**, you will get an option **[Build Your Products]** under the **Profile** option as shown below:

Build Your Products under the Profile option

Click on **[Build Your Products]**, you will be redirected to the **[Build Your Products]** screen as shown below.

- Create Inventory ID: You must create an Inventory ID. If you have already created the [Inventory ID] then you need to search for the same.
- Search for Item Class: After creating or selecting the **[Inventory ID]** you need to search for the item class from the existing records.
