

Configuring BYP Preferences

 We have added an option for **[Build Your Products Preferences]** under **[Preferences]**.

Build Your Products window

This feature will allow you to set the product preferences for creating transactions. By clicking on this you will be redirected to the preferences screen. At the bottom of the Preferences column, you will get the option **[Build Your Product Preferences]**.

Option for Build Your Product Preferences

The above option will redirect you to the page with the following details.

Tenant	(Hub) Server	Local Server
BYP REASON CODES		
Receipt Reason Code	Lookup	BYPRECEIPTS
Issue Reason Code	Lookup	BYPISSUE
Adjustment Reason Code	Lookup	BYPADJUSTMENT
REPORT SETTINGS (based on the selection the following will be displayed on the Report)		
Show Components on Sales Order	Checkbox	If a checked component on the sales order is shown.
Show Components on Shipment Confirmation	Checkbox	If the component on the shipment confirmation
