

Managing BYP Browse

✖ In the **[Build Your Products]** browse, you will have an option as **[Build Options]**. This tab includes **[Options]**, **[Option Values]** and **[Option Rules]**.

Before you build your product, you must select the **[Inventory ID]** first. Automatically, the product description should appear on the **[Description Field]**.

The screenshot shows the 'Build Your Products' interface with the 'BUILD OPTIONS' tab selected. The 'Options' table is as follows:
