

Configuration

 To generate content for the product description, install the Kensium Open AI software.

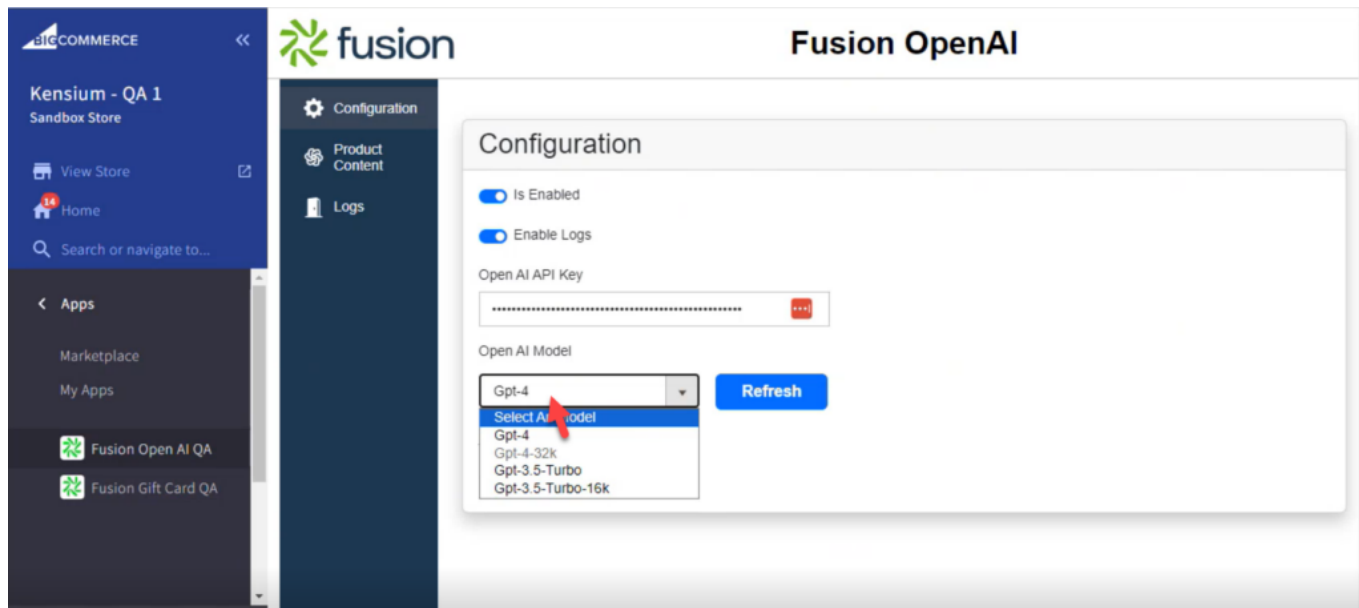

- **Is Enabled:** Enable this by using the toggle button.
- **Enable Logs:** To examine logs, activate them under the Log section.
- **Open AI API Key:** Store the generated Open API key here.
- Select **[Open AI Model]** from the drop-down option. The program will present you with the following template.
 - GPT 4
 - GPT 4-32K
 - GPT -3.5 Turbo
 - GPT -3.5 Turbo -16K
- Choose any Open AI Model to produce unique descriptions based on the version.
- Before proceeding, you must choose the **[Open AI Model]**.

The screenshot shows the 'Fusion OpenAI' configuration window. On the left is a dark blue sidebar with the 'fusion' logo and three menu items: 'Configuration' (selected), 'Product Content', and 'Logs'. The main area is titled 'Configuration' and contains the following elements: a toggle for 'Is Enabled' (checked), a toggle for 'Enable Logs' (checked), a text field for 'Open AI API Key' with a masked input, and a dropdown menu for 'Open AI Model'. The dropdown menu is open, showing options: 'Gpt-3.5-Turbo', 'Select An Model', 'Gpt-4', 'Gpt-4-32k', 'Gpt-3.5-Turbo' (highlighted), and 'Gpt-3.5-Turbo-16k'. A blue 'Refresh' button is located to the right of the dropdown.

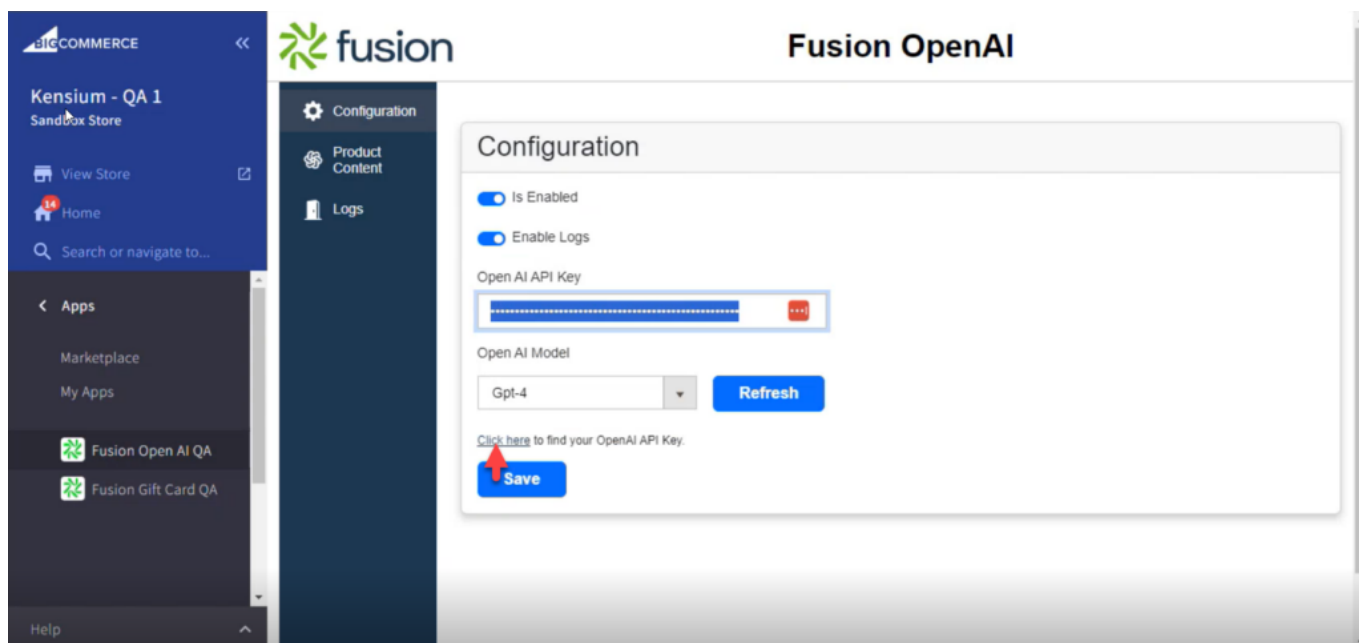

Kensium OpenAI

- **Refresh:** The **[Refresh]** button confirms that the Open AI model was successfully loaded in Kensium OpenAI.

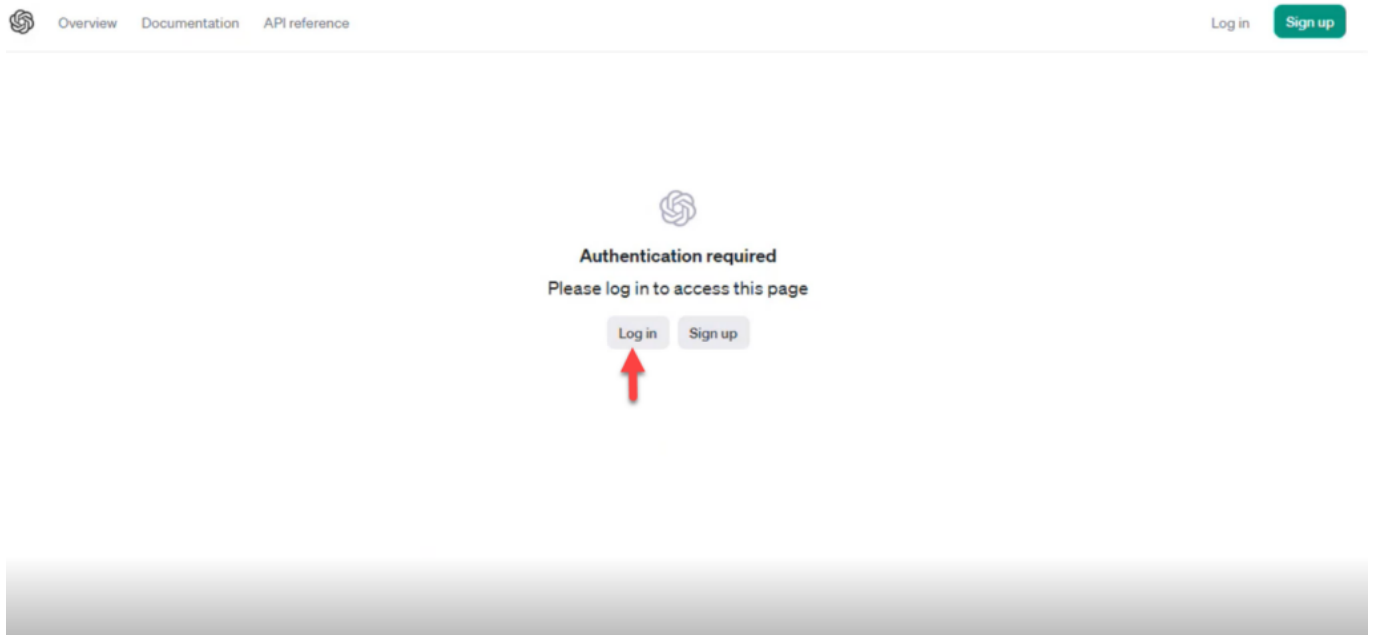

Click on Refresh

- To obtain the Open AI Key, click the **[Click here]** button. You will be restored to the Open AI API Screen, where you must log in.

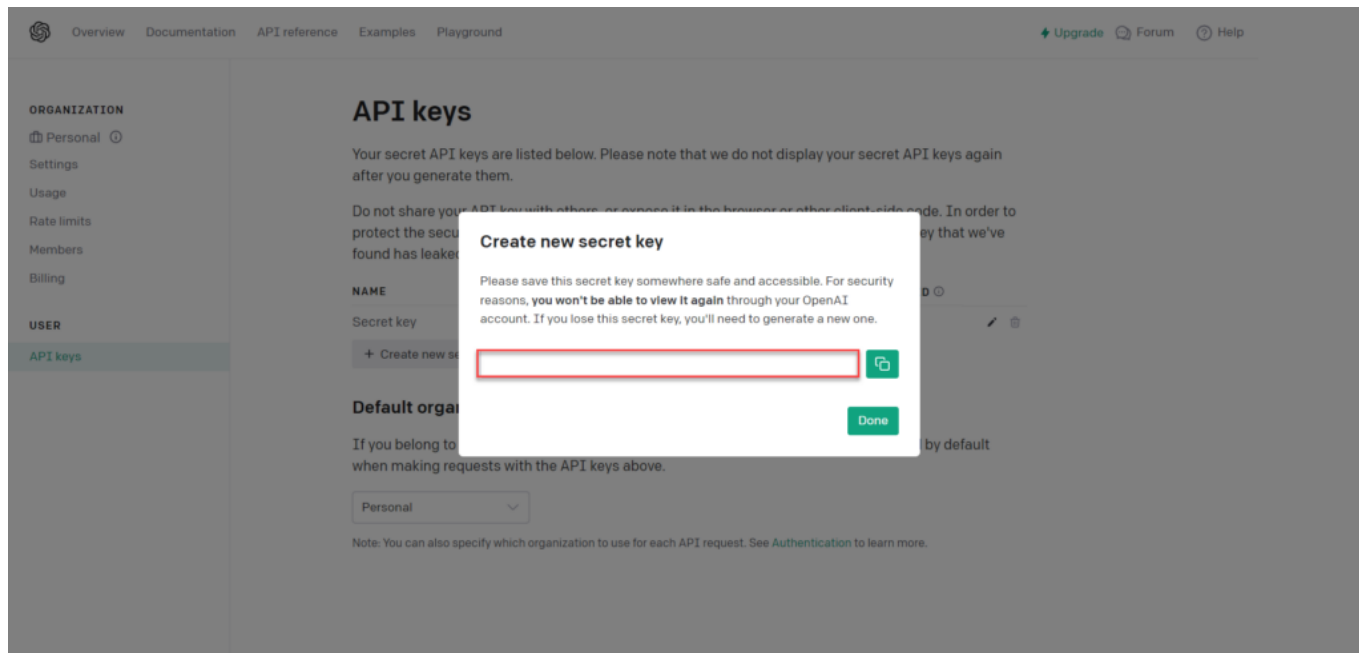

Click on Click here

Login

- Upon login you can generate API keys.
- To generate API keys, click the **[+]** button. An API key will be created, and you must copy it by clicking the **[Copy]** button and then clicking **[Done]**.

Click on Refresh

- Once copied, the Open AI platform will not display the produced secret key. You can view the date of creation. Paste the key into the Open AI API Key field. If you want to generate an additional key, select **[+ Create new secret key]**.

API keys

Your secret API keys are listed below. Please note that we do not display your secret API keys again after you generate them.

Do not share your API key with others, or expose it in the browser or other client-side code. In order to protect the security of your account, OpenAI may also automatically disable any API key that we've found has leaked publicly.

NAME	KEY	CREATED	LAST USED

Default organization

If you belong to multiple organizations, this setting controls which organization is used by default when making requests with the API keys above.

Personal

Note: You can also specify which organization to use for each API request. See [Authentication](#) to learn more.

Secret Key

- After finalizing all configuration steps, click **[Save]**.
