

Configuration

 To generate content for the product description, install the Kensium Open AI software.

- **Is Enabled:** Enable this by using the toggle button.
- **Enable Logs:** To examine logs, activate them under the Log section.
- **Open AI API Key:** Store the generated Open API key here.
- Select **[Open AI Model]** from the drop-down option. The program will present you with the following template.
 - GPT 4
 - GPT 4-32K
 - GPT -3.5 Turbo
 - GPT -3.5 Turbo -16K
- Choose any Open AI Model to produce unique descriptions based on the version.
- Before proceeding, you must choose the **[Open AI Model]**.

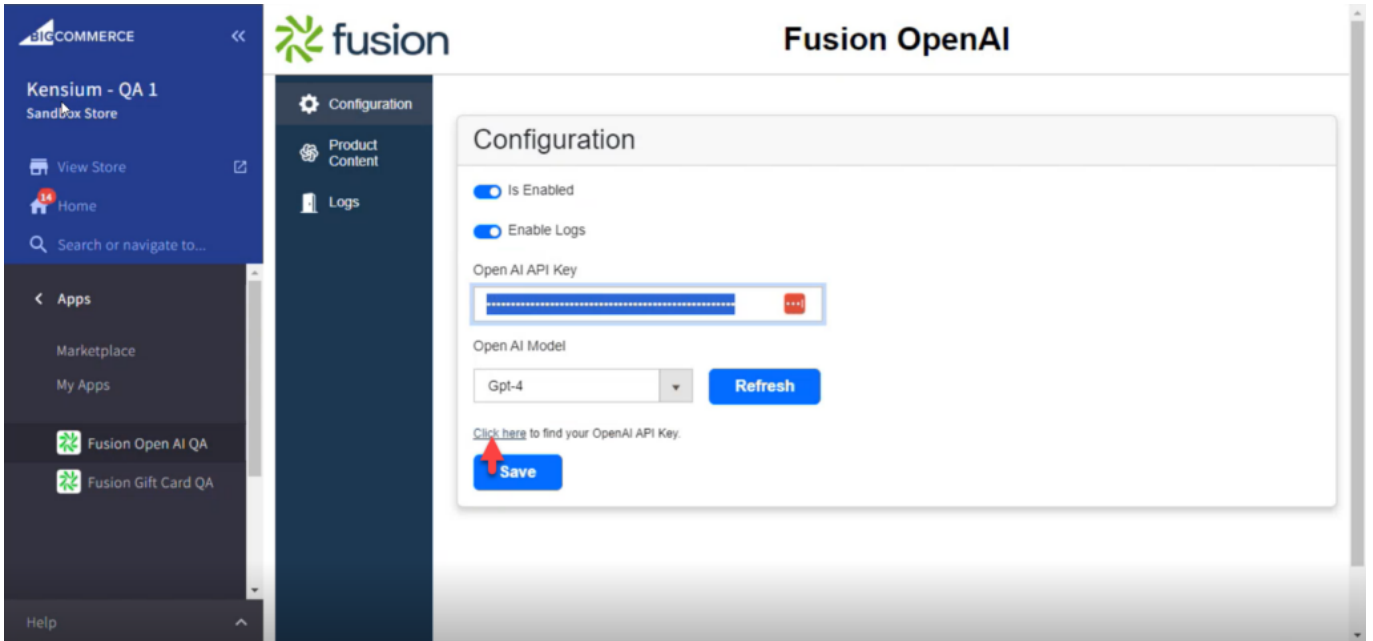

Kensium OpenAI

- **Refresh:** The **[Refresh]** button confirms that the Open AI model was successfully loaded in

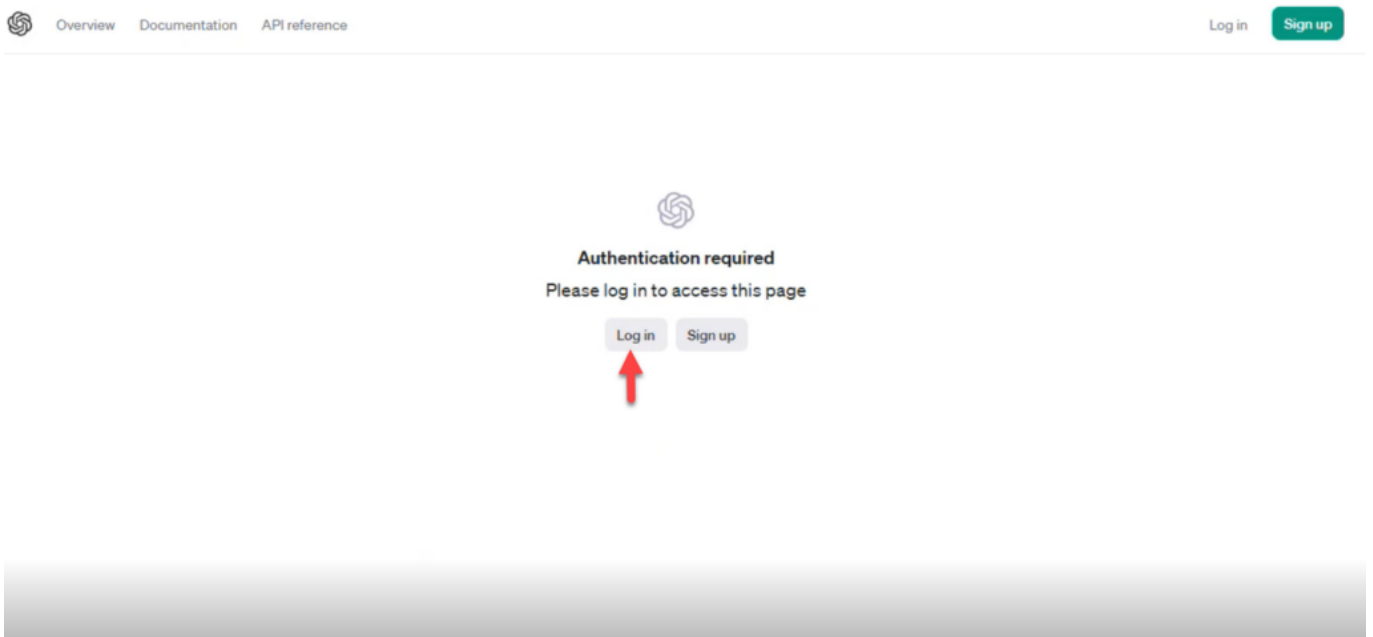

Click on Refresh

- To obtain the Open AI Key, click the **[Click here]** button. You will be restored to the Open AI API Screen, where you must log in.

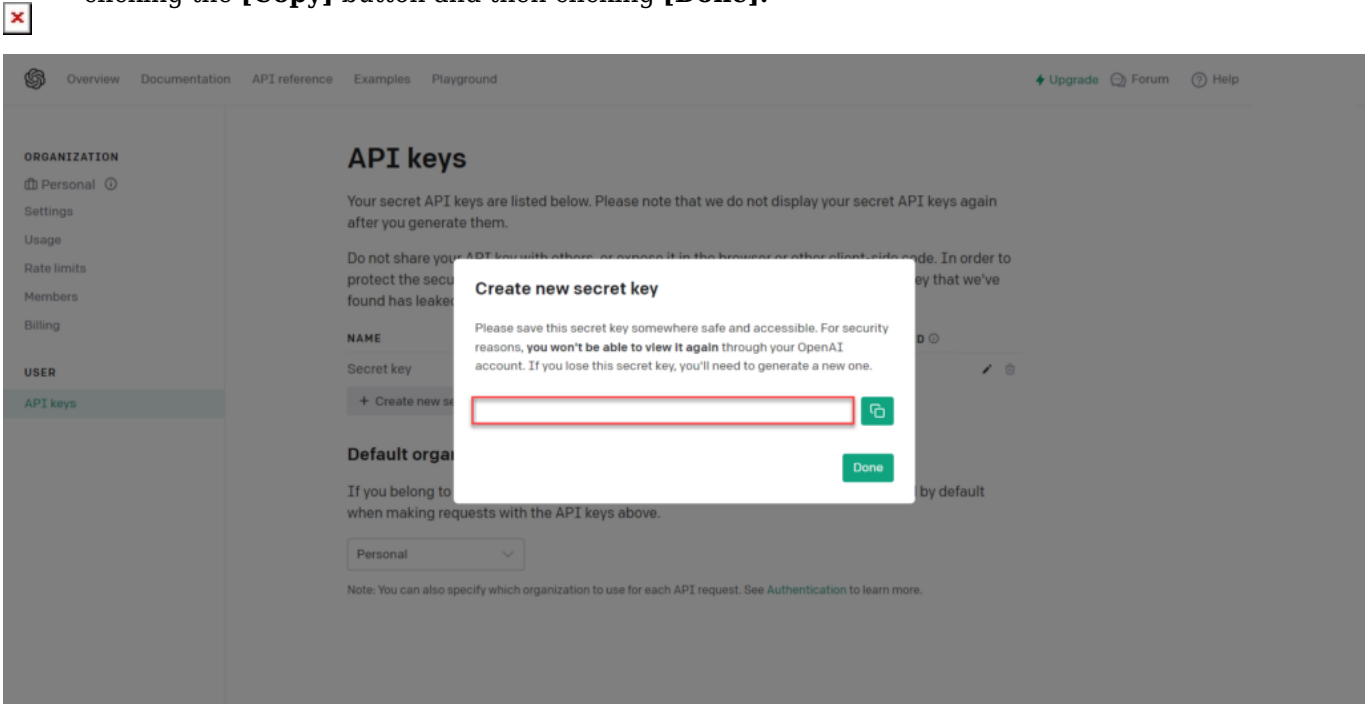

Click on Click here

Login

- Upon login you can generate API keys.
- To generate API keys, click the **[+]** button. An API key will be created, and you must copy it by clicking the **[Copy]** button and then clicking **[Done]**.

Click on Refresh

- Once copied, the Open AI platform will not display the produced secret key. You can view the date of creation. Paste the key into the Open AI API Key field. If you want to generate an additional key, select **[+ Create new secret key]**.

API keys

Your secret API keys are listed below. Please note that we do not display your secret API keys again after you generate them.

Do not share your API key with others, or expose it in the browser or other client-side code. In order to protect the security of your account, OpenAI may also automatically disable any API key that we've found has leaked publicly.
