Publish the Package

- Click on 

The screenshot displays the 'Customization Projects' interface. At the top, there is a search bar and navigation options. The main area shows a table of projects with columns for 'Published', 'Project Name', 'Level', 'Screen Names', 'Description', 'Initials', 'Created By', and 'Last Modified On'. A red box highlights the 'PUBLISH TO MULTIPLE TENANTS' button. A dialog box titled 'Publish to Multiple Tenants' is open, showing a table with columns 'Selected', 'Tenant Name', 'ID', and 'Parent ID'. The 'Selected' column has a red box around the checkbox, and the 'Tenant Name' column has a red box around the text 'Company'. Below the table, there are two checkboxes: 'Apply Changes Only to Database (Skip Website Update)' and 'Execute All Database Scripts (Including Previously Executed)'. A red arrow points to the 'OK' button.

Selected	Tenant Name	ID	Parent ID
<input checked="" type="checkbox"/>	Company	2	1

Apply Changes Only to Database (Skip Website Update)
 Execute All Database Scripts (Including Previously Executed)

OK CANCEL

Publish the Package

- Click on  .
- You can view a pop-up on the screen.

Publish Customization

Click on 

The screenshot shows the 'Customization Projects' section of the Kensium CommercePro interface. A 'Compilation' dialog box is open, displaying a list of SQL commands and their execution status. The dialog box includes a 'Close Compilation pane' button, which is highlighted with a red rectangle. Below the list of commands, a message states: 'Customization project published successfully. You can close the Compilation pane.'
