

Duplicate Order Check

 Administrators can enable Acumatica to require a system check for duplicate orders. The Duplicate Order Check feature helps eliminate the creation of duplicate sales orders during the data integration process.

1. To access **[Duplicate Order Check]**, you must enable the check box for **[Duplicate Order Check]** under CommercePro Features.
2. Upon enabling the radio button two additional radio buttons will appear under the **[Duplicate Order Check]**.
3. You must enable both radio buttons.
4. Unique Customer Order Number
5. Unique External Reference Number.
6. Click on **[Save]**.
