

# Non-Stock Items

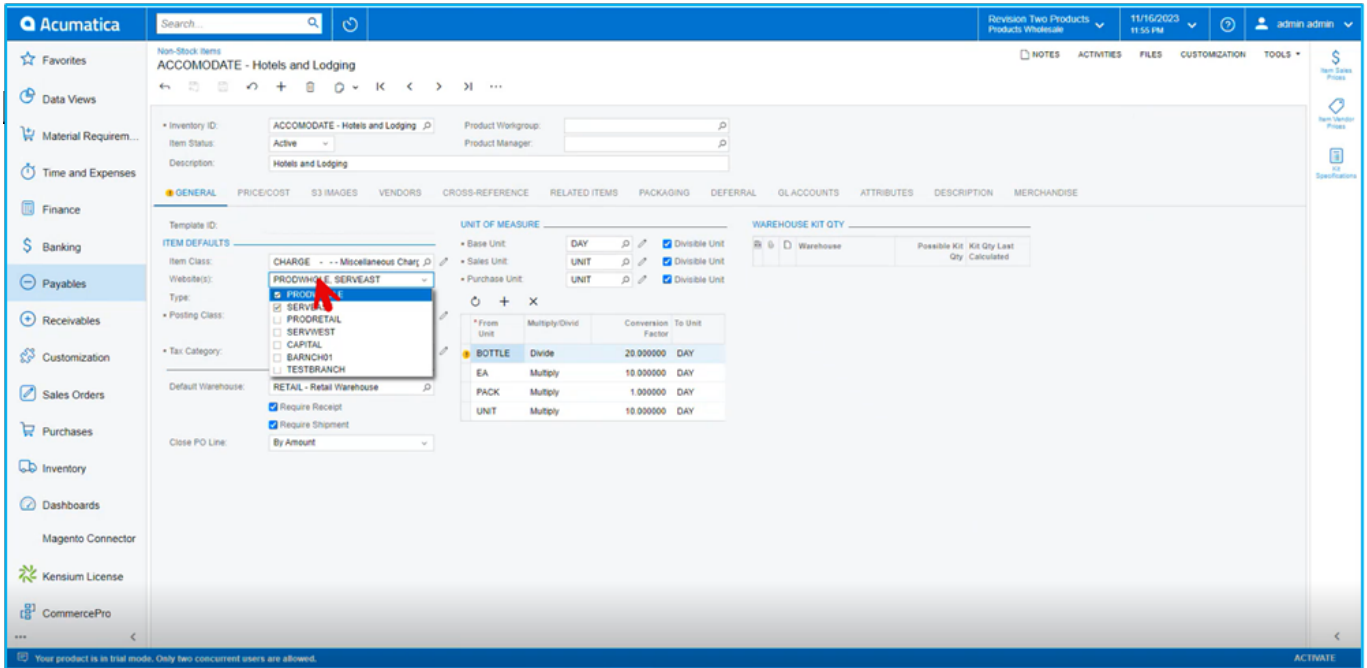

The screenshot displays the Acumatica software interface for configuring Item Classes. The 'Item Class Tree' on the left lists various classes, with 'CHARGE' (Miscellaneous Charges) highlighted in red. The main configuration area shows the 'Attributes' tab, which includes a table of attributes:

Active	Attribute ID	Description	Sort Order	Required	Control Type	Category	Merchandising Section	Section Sort Order	Row Position	Column Position
<input checked="" type="checkbox"/>	AMBAT	AMCTOBAT Colors		<input type="checkbox"/>	Combo	Attribute	section1			
<input checked="" type="checkbox"/>	AMBAT	AMCTOBAT Length		<input type="checkbox"/>	Text	Attribute				

Below the attributes table, there are sections for 'Inventory ID Segment Settings' and 'Description Segment Settings', each with a table for defining segment types and their attributes.

## Item Classes

- The created **[Item Class]** is reflected under Item Class.
- Select the **[Item Class]**.

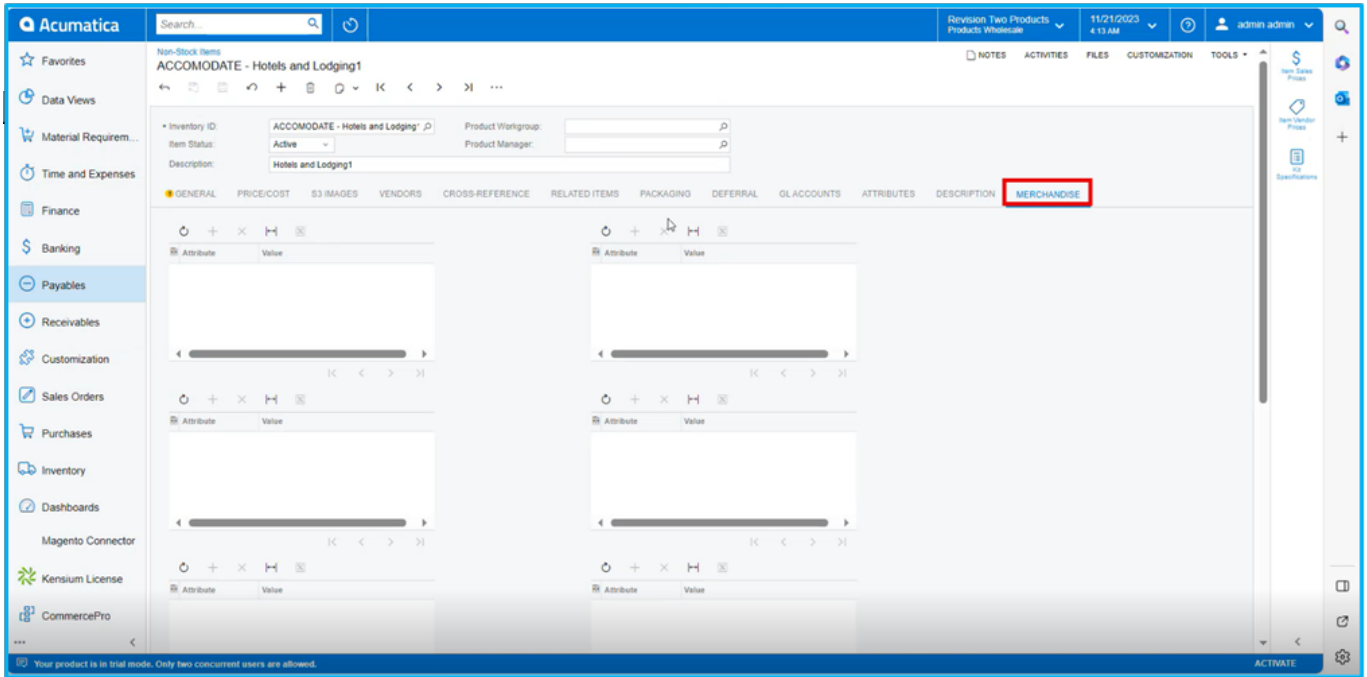

The screenshot shows the Acumatica interface for configuring a non-stock item. The main window is titled 'ACCOMODATE - Hotels and Lodging'. The 'Merchandise' tab is active, and a dropdown menu is open, showing options like 'PROVINCE', 'SERVEAST', 'PROORETAIL', 'SERVWEST', 'CAPITAL', 'BARNCH01', and 'TESTBRANCH'. The 'UNIT OF MEASURE' table is visible, showing units like 'BOTTLE', 'EA', 'PACK', and 'UNIT' with their respective conversion factors and units.

From Unit	Multiply/Divide	Conversion Factor	To Unit
BOTTLE	Divide	20.000000	DAY
EA	Multiply	10.000000	DAY
PACK	Multiply	1.000000	DAY
UNIT	Multiply	10.000000	DAY

### Non-Stock Items

## Merchandise

- Click on the **[Merchandise]** tab.
- You can view the mapped Merchandise attributes.
