

Configuration Screens:

- To login into Amazon the following credentials are required.
- Amazon site URL
- Username
- Password
- You need to follow the steps below to create bucket in Amazon.

Step1: You must login into Amazon Website, and then click on **[Create Bucket]** and select required Time zone from the **[Region]**.

The screenshot shows the AWS S3 console interface. On the left sidebar, under 'Amazon S3', the 'Buckets' section is selected. The main area displays a table of existing buckets. A red box highlights the '+ Create bucket' button at the top left of the bucket list. The table has columns for 'Bucket name', 'Access', 'Region', and 'Date created'. Several buckets are listed, including 'chandratesbucket001', 'createken', 'devteamtesting', 'kenqabucket', 'kentest123', 'pabucket', 'qabucketname', and 'sainwaccount'. The 'createken' and 'pabucket' rows are highlighted in yellow.

Bucket name	Access	Region	Date created
chandratesbucket001	Bucket and objects not public	US East (Ohio)	Jun 12, 2019 3:45:22 PM GMT+0530
createken	Objects can be public	Asia Pacific (Mumbai)	Jun 19, 2019 12:01:07 PM GMT+0530
devteamtesting	Objects can be public	US East (Ohio)	May 22, 2019 12:35:13 PM GMT+0530
kenqabucket	Bucket and objects not public	Asia Pacific (Mumbai)	Jun 13, 2019 1:00:29 PM GMT+0530
kentest123	Bucket and objects not public	US East (Ohio)	Jun 19, 2019 12:00:03 PM GMT+0530
pabucket	Objects can be public	US East (Ohio)	May 22, 2019 1:02:20 PM GMT+0530
qabucketname	Objects can be public	Asia Pacific (Mumbai)	Jun 18, 2019 2:54:23 PM GMT+0530
sainwaccount	Objects can be public	US East (Ohio)	May 17, 2019 5:55:14

Created Bucket

Step2: Click on **[Create folder]**.

In Each button you have the possibility to add multiple folders.

Amazon S3 > qaamazons3

Overview Properties Permissions Management

Upload + Create folder Download Actions

US East (Ohio)

This bucket is empty. Upload new objects to get started.

Create Folder

Amazon S3 > qaamazons3

Overview Properties Permissions Management

Search: Type a prefix and press Enter to search. Press ESC to clear.

Upload + Create folder Download Actions

US East (Ohio)

Viewing 1 to 2

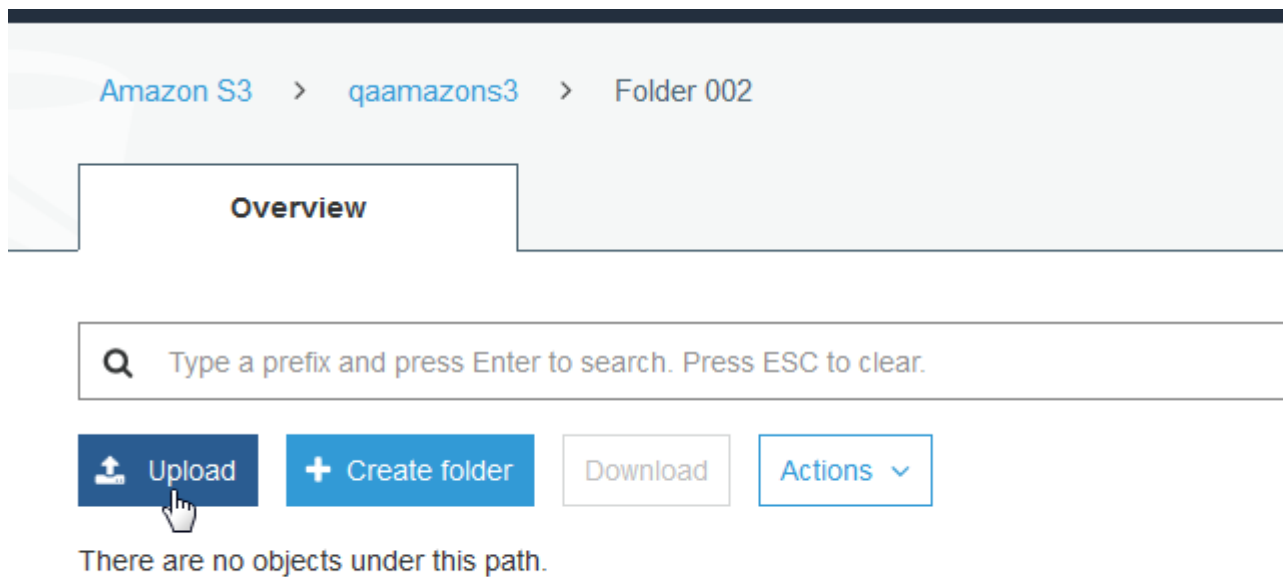

<input type="checkbox"/>	Name	Last modified	Size	Storage class
<input type="checkbox"/>	Folder 002	--	--	--
<input type="checkbox"/>	Folder001	--	--	--

Viewing 1 to 2

Create Folder

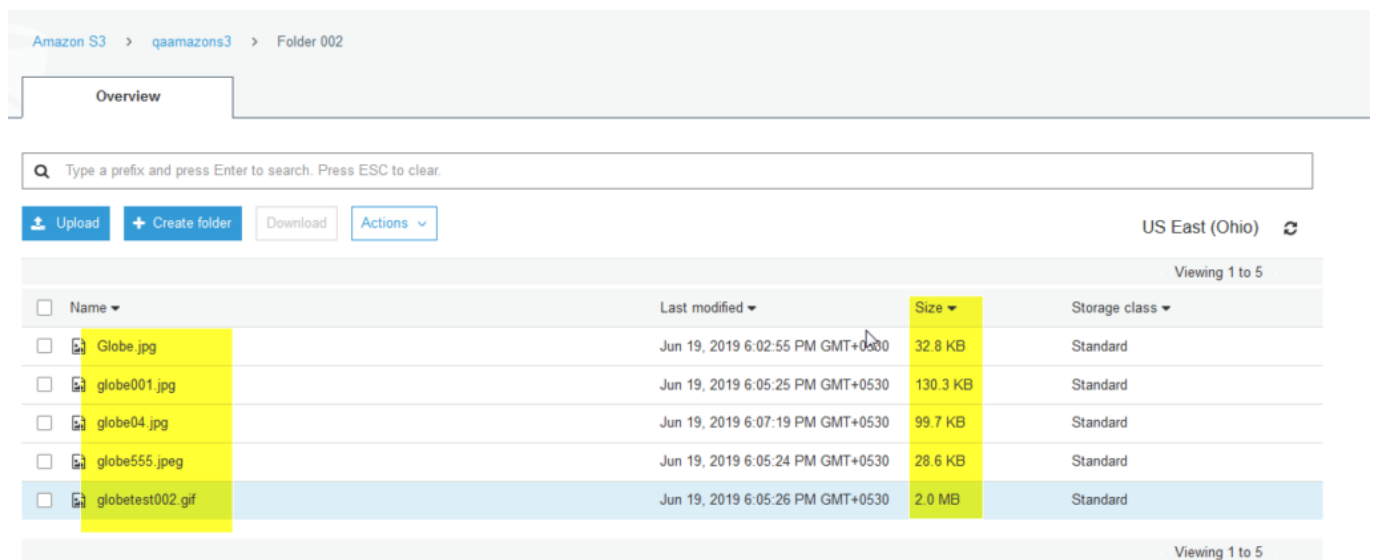

Step3: You can upload as many images as required in each folder, but you must ensure that the image prefix name matches with the inventory ID. In Acumatica, only the Amazon picture will be linked to the appropriate product if the inventory name is "Wallpaper" and the image names are Wallpaper001, Wallpapers, or Wallpaper555.

Step4: You can select the required folder to upload the images.

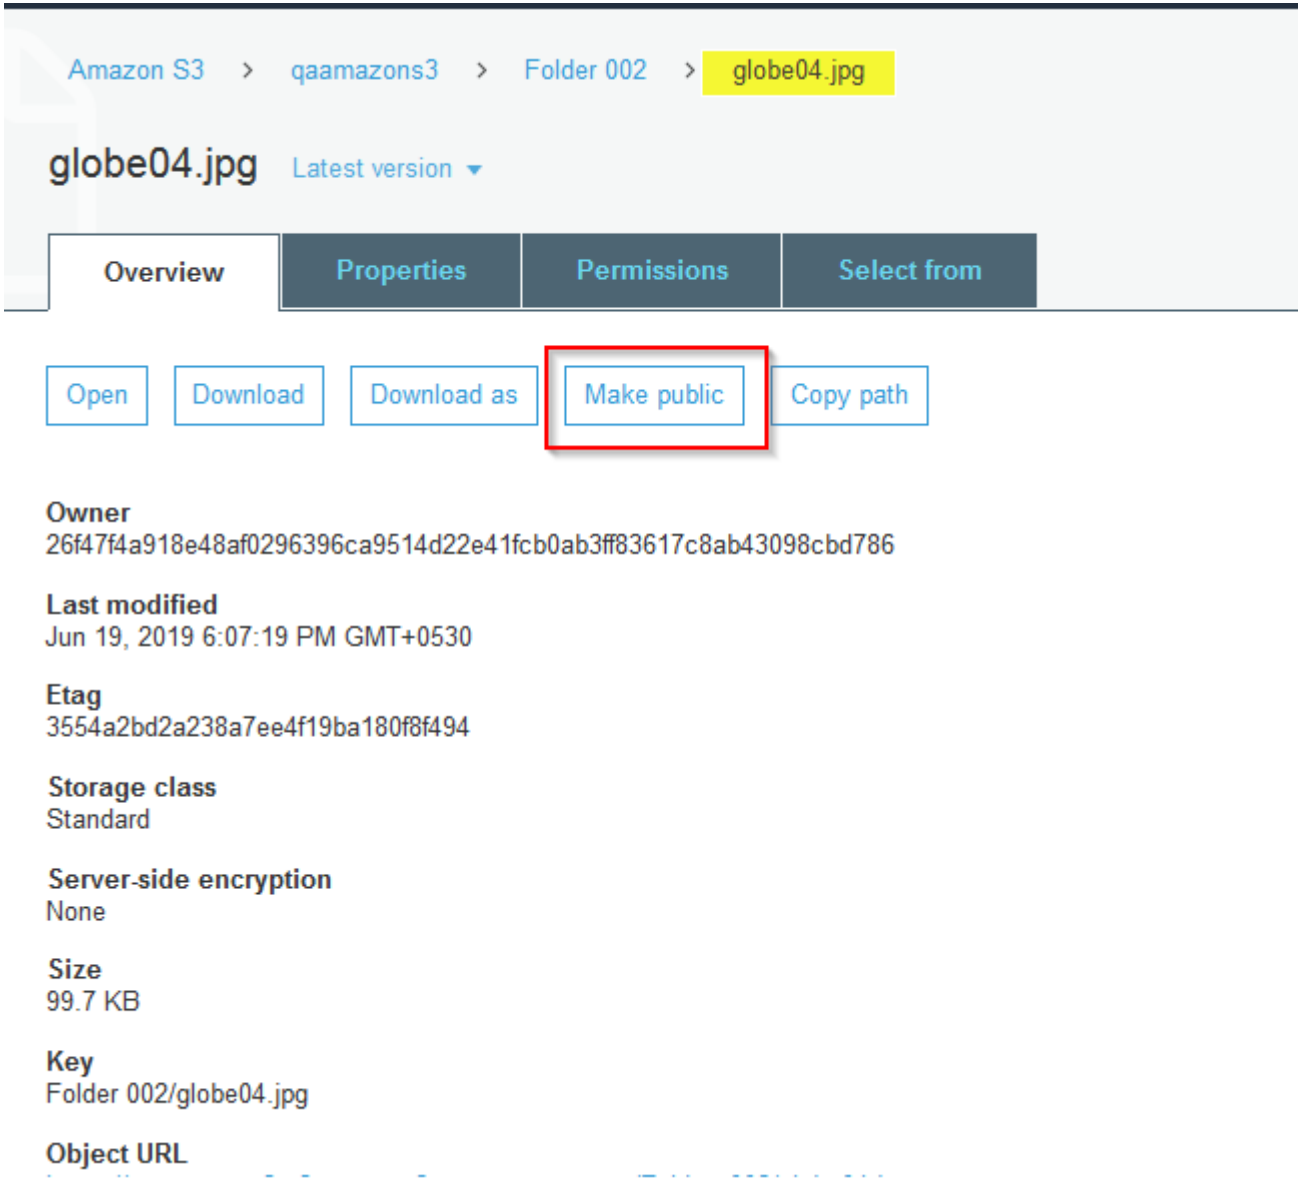

Upload Folder

You can add any type of image, regardless of size, beneath the folder.

Images

Step5: Once the image is uploaded then you need to click on the image and then click on **[Make Public]** then only the image will display in Acumatica.

Step6: You need to search for **[Inventory Preferences]** in Global search bar and then click on

[**Inventory Preferences**] under Preferences.

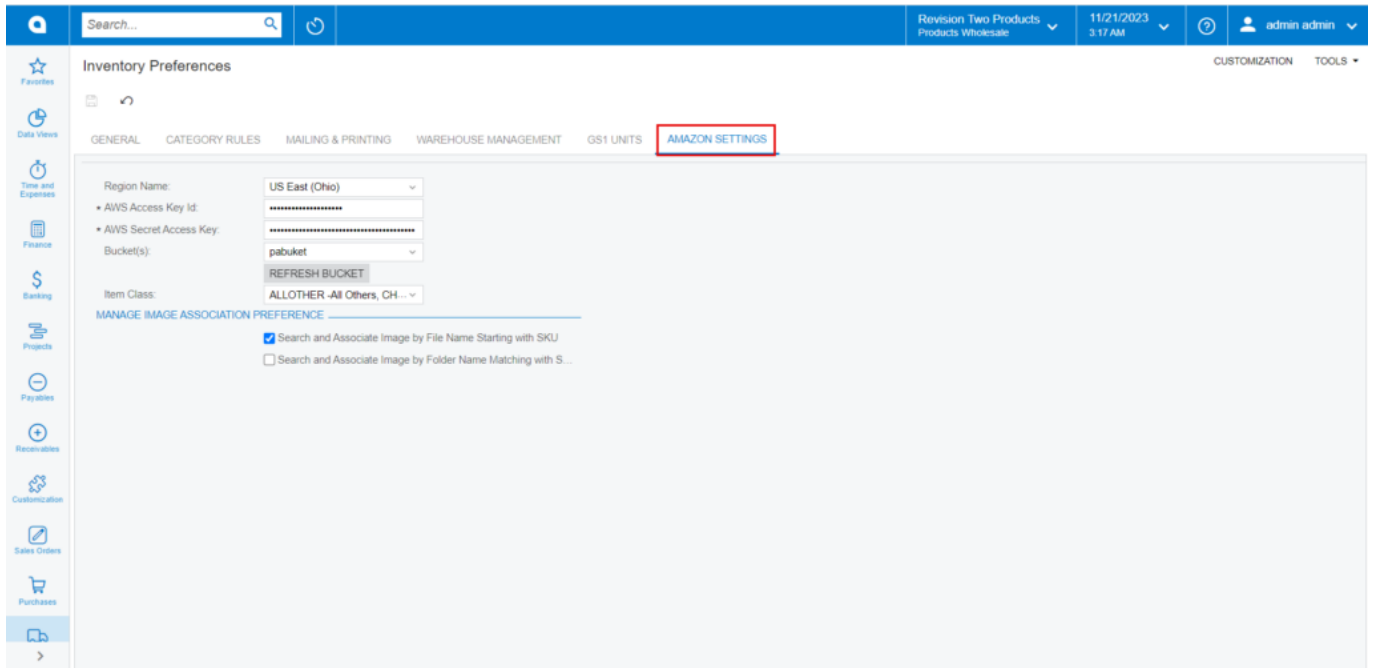

The screenshot shows the main dashboard of Kensium CommercePro. The top navigation bar includes a search bar with 'Inventory' entered, a clock icon, and user information for 'admin admin' on '11/21/2023 3:25 AM'. The left sidebar contains various icons for Receivables, Customization, Sales Orders, Purchases, Inventory, Payroll, Dashboards, Commerce Connector, Kensium License, and Commerce Pro. The main content area is divided into sections: 'MENU ITEMS (44)', 'TRANSACTIONS AND PROFILES', 'HELP TOPICS', and 'FILES'. Under 'MENU ITEMS (44)', there are sections for 'Data Views', 'Inquiries', 'Sales Orders', 'Reports', 'Purchases', 'Profiles', and 'Inventory'. The 'Inventory' section is expanded, showing sub-sections like 'Physical Inventory', 'Inquiries', 'Printed Forms', and 'Preferences'. The 'Preferences' section is highlighted with a red box, and 'Inventory Preferences' is the selected option within it.

Inventory Preferences

- Click on [**Amazon Settings**] tab then you need to fill out the details below.
 - Region Name: Select the region from drop-down.
 - AWS Access Key ID: Provided by Amazon
