

Users can dynamically adjust the sales price based on the packaging unit for Stock Items and Non-Stock Items by utilizing the  (UOM) fields. A default Unit of Measure (UOM) can be applied to an Item Class.

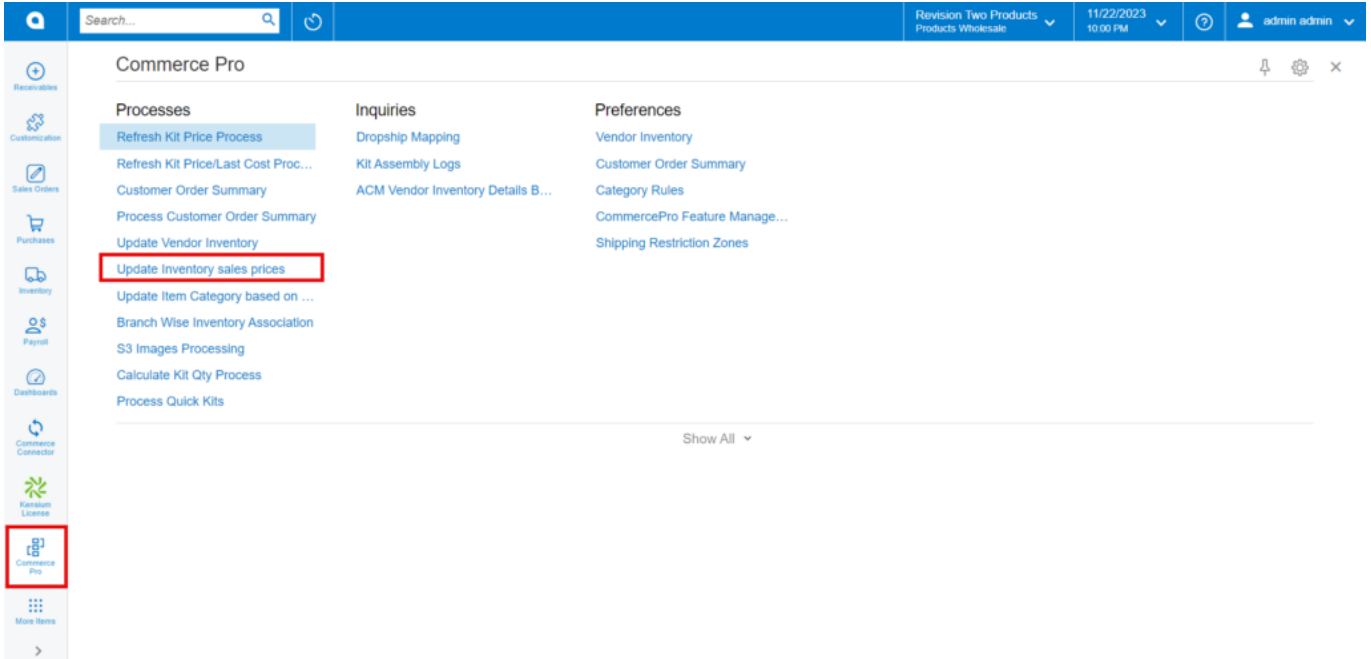

- To access  you must enable the check box for   under CommercePro Features.
- Click on 

CommercePro

The Impacted areas for Unit of Measure Pricing are below.

- Stock Items
- Non-Stock Items
- Template Items
- If the UOM is not automatically updated for the above screen items, you need to manually refresh the process.
- To Refresh you must navigate to the left side panel of  select  and then select  under 

CommercePro

- You must enable the Radio Button.
- Click on
