

Steps to Verify the Published C-KITs Packages

Once the customization package is installed, the connections must be established between Acumatica and the C-KITs.

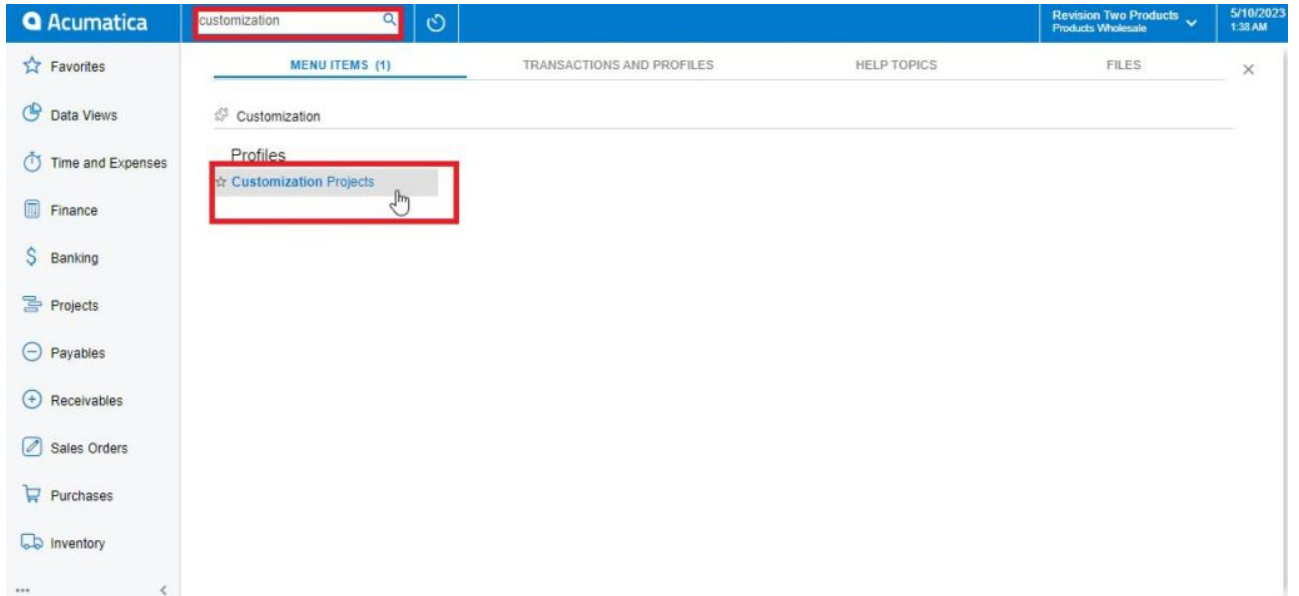

1. To verify the published package, navigate to the left menu in Acumatica ERP, click **Customization**, and select **Customization Projects**.

Customization Projects

OR

Type the keyword “**Customization Project**” in the universal search bar.

Customization Projects

- The application directs you to a Customization Projects screen, where you can review and validate the published packages.
