

Version 5.2.5

Release notes now include new features and bug fixes for all POS components. These components include:

- Kensium Register
- Sage Loyalty Package

Bug Fixes / Critical Improvements

674 Register - API integrator changed from Kensium to something called MyTestApp

- The name of the application is changed when the register calls the avalara API. "KensiumRetailSolution_Register_version" is now used.

677 Register - Pay with a personal GC - CreatePayment_CATCH: One or more errors occurred

- Fixed issue with handling of error messages sent by XMS.

659 Loyalty package - Pay with a gift card / error Unexpected character encountered while parsing value: S. Path "", line 0, position 0

- Fixed issue with handling of error messages sent by XMS.
