

Commit

 When the user presses the commit button it will create in Acumatica, the new containers created in this screen

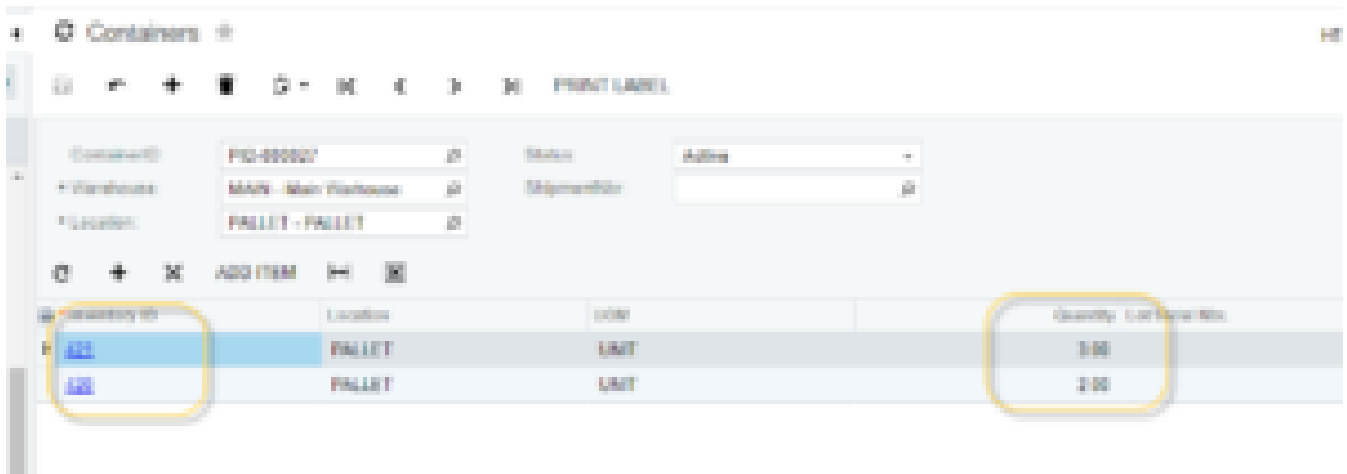

Commit Button

Success Message

After a successful commit In Acumatica, the containers are created

The image shows the "Containers" screen in the Acumatica system. The screen has a header with the title "Containers" and a toolbar with various icons. Below the header, there are several input fields for container details: Container ID (PID-000007), Warehouse (MAIN - Main Warehouse), Location (PALLET - PALLET), Status (Active), and Segment ID. Below these fields is a table with columns: Inventory ID, Location, Unit, and Quantity. The table contains two rows of data, both with a Quantity of 1.00. The first row has an Inventory ID of 123 and the second row has an Inventory ID of 124. Both rows have a Location of PALLET and a Unit of UNIT. The table is highlighted with a yellow border.

Inventory ID	Location	Unit	Quantity
123	PALLET	UNIT	1.00
124	PALLET	UNIT	1.00
