

Move Inventory

 The user will be able to enter/scan the BIN source, and the warehouse/bin destination of the item desired. In this example we are moving 10 items AALEGO500 from BIN: STORAGE to BIN R10RACK2, after entering the qty and the user pressing on the next button, the transaction will be done once we fill properly all the fields of this screen and they are successful.

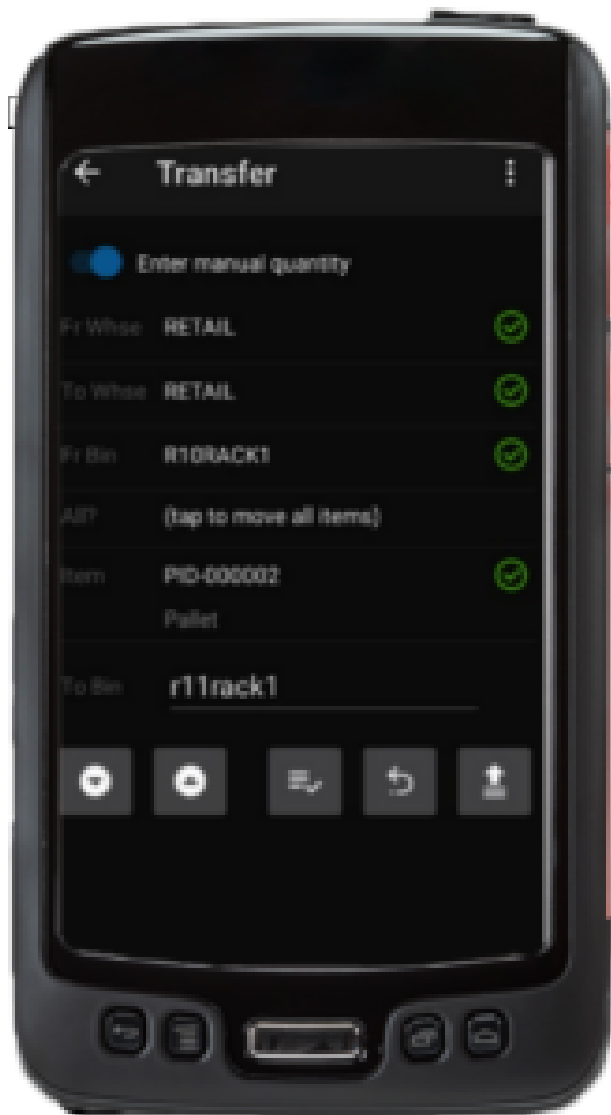

Scan Item

Enter Bin

Upon a successful save/move, you will see the following screen.

TODO

TODO

You can confirm this transaction in Acumatica, in the inventory summary screen, and in the On hand field.

Expand By: Lot/Serial Number

Inventory ID	Warehouse	Location	Available	SO Shipped	Available for Shipment	On Hand	Available for Stock	Not Available	SO Prep
LTS60000	RETAIL	UNASSIGNED Co-	0.00	0.00	0.00	0.00	0.00	0.00	0
LTS60000	RETAIL	RT-BACK2	10.00	0.00	10.00	10.00	10.00	0.00	0
LTS60000	RETAIL	RT-BACK1	2.00	0.00	2.00	2.00	2.00	0.00	0
LTS60000	RETAIL	STORAGE	24.00	0.00	24.00	24.00	24.00	0.00	0

Inventory Summary

Also, in Acumatica a transfer order will be created for this kind of transaction (see the example below)
