Login Password	Textbox	Provide the Login Password
Confirm Password	Textbox	Re-enter the Password
Test Connection	Button	Click "Test Connection" to initiate the connection between Acumatica and OrderPad.

The screenshot shows the OrderPad configuration interface. On the left, there's a sidebar with various icons and sections: DASHBOARD, POS, SALES, CATALOG, ORDERPAD A/M CONNECTOR, CUSTOMERS, MARKETING, REPORTS, STORES, and SYSTEM. The 'ACUMATICA CONFIGURATION' section is currently selected. The main area has a title 'Configuration' and a 'Save Config' button. Under 'ACUMATICA CONFIGURATION', there are tabs for 'GENERAL', 'ACUMATICA CONFIGURATION', and 'POS'. The 'ACUMATICA CONFIGURATION' tab is active, showing the 'Acumatica Connection settings' page. This page contains fields for 'Authentication Type' (set to 'OAuth 2'), 'Acumatica base url', 'Client Id', 'Client Secret', 'Login Username', 'Login Password', and 'Confirm Password'. A large orange box highlights the 'Authentication Type' dropdown and the following fields: 'Acumatica base url', 'Client Id', 'Client Secret', 'Login Username', 'Login Password', and 'Confirm Password'. Below these fields is a 'Test connection' button. At the bottom of the page, there's a note: 'Test Acumatica REST API connection using base url, login user name, password. Values will be automatically saved after successful testing!'
