Send Failure Log Report	Drop-down	Need to select the “Yes” or “No” from the options.
Send Queue Idle Notifications	Drop-down	Need to select the “Yes” or “No” from the options.

The screenshot shows the 'Configuration' page in the OrderPad interface. A sidebar on the left contains navigation links: DASHBOARD, POS, SALES, CATALOG, ORDERPAD A.M CONNECTOR, CUSTOMERS, MARKETING, REPORTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and includes a 'Save Config' button. A list of connector actions to be logged is shown, all with checked boxes: Magento Salesprice Update, Magento Salesprice Publisher, Magento Productstatus Update, Magento Productstatus Publisher, Magento Orderstatus Update, Magento Orderstatus Publisher, Magento Order Update, and Magento Realtime Update. Below this, the 'Log Settings' section is highlighted with an orange box. It contains the following fields: 'Log Severity' (set to Debug), 'Log cleaning' (set to Yes), 'Log Entry Lifetime Days' (set to 30), 'Batch Count' (set to 1000), 'Delete Archive Logs' (set to Yes), 'Log Entry Lifetime Days' (set to 30), 'Send Queue idle notifications' (set to No), and 'Send failure log report' (set to No). A note at the bottom of the highlighted section states: 'Make sure to enable all connector actions for each queue consumer. If anyone of the action is not enabled for the given consumer then the email notification will not trigger for that queue.'
