

# Pay With Extend Configurations Settings

 Note: You must create an extend account prior to connecting Extend and Acumatica.

## Settings Tab

The screenshot shows the Acumatica interface for configuring the Pay With Extend settings. The left sidebar contains navigation options: Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, Dashboards, Commerce Connections, Commerce, Kensium License, Pay with Extend (highlighted), and More Items. The main content area is titled "Extend Configuration Settings" and includes a "TEST CONNECTION" button. The "Extend CD" field is set to "PayWithExtend" and is highlighted with a red box. The "Description" is "Configuration for Extend Process" and "Virtual Card Exp. Days" is set to 15. Below this, there are tabs for "SETTINGS", "ACCOUNTS / CREDIT CARDS", and "ACTIVITY LOG". The "SETTINGS" tab is active, showing a table with columns for "Detail ID", "Description", and "Value".

Detail ID	Description	Value
> APIURL	please enter Extend API URL	*****
Email	please enter your Extend Email	*****
Password	please enter your Extend Password	*****

Enter the required information to connect your Extend account with Acumatica

Under Settings, enter the following information:

- Virtual Card Exp. Days

Enter how many days you would like virtual cards to be active for.

- Pay with Extend API URL: <https://app.paywithextend.com/home>

Enter the API URL given above

- Email

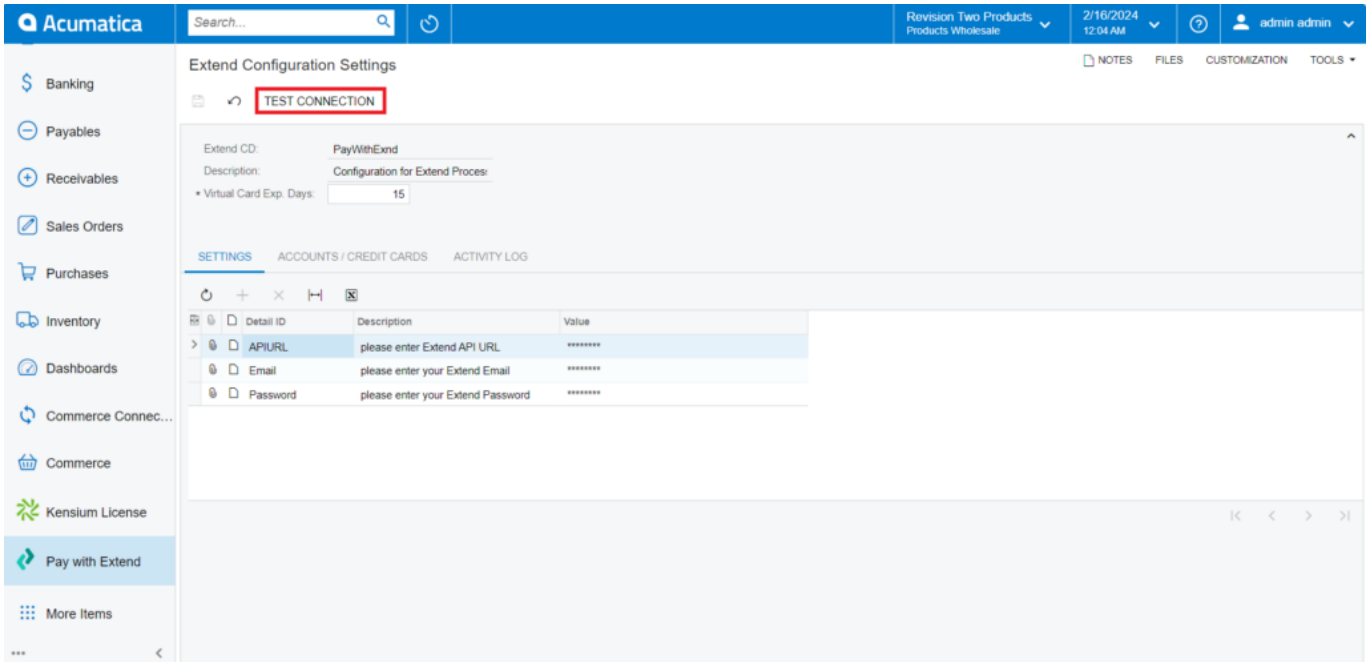

For your Extend account

- Password

For your Extend account

- After entering all configuration details, click on **[Test Connection]**.

The screenshot shows the Acumatica interface for configuring the 'Pay with Extend' feature. The top navigation bar includes the Acumatica logo, a search bar, and user information (Revision Two Products, Products Wholesale, 2/16/2024 12:04 AM, admin admin). The left sidebar lists various modules, with 'Pay with Extend' selected. The main content area is titled 'Extend Configuration Settings' and features a 'TEST CONNECTION' button highlighted with a red box. Below this, the configuration details for 'PayWithExnd' are shown, including a description 'Configuration for Extend Process' and a 'Virtual Card Exp. Days' field set to 15. A 'SETTINGS' tab is active, displaying a table with the following data:

Detail ID	Description	Value
APIURL	please enter Extend API URL	*****
Email	please enter your Extend Email	*****
Password	please enter your Extend Password	*****

Click Test Connection to validate that Acumatica has established a connection with Extend.

- A successful connection will result in the pop-up message seen below.
