

Full/ Partial Refund from the Payment & Application

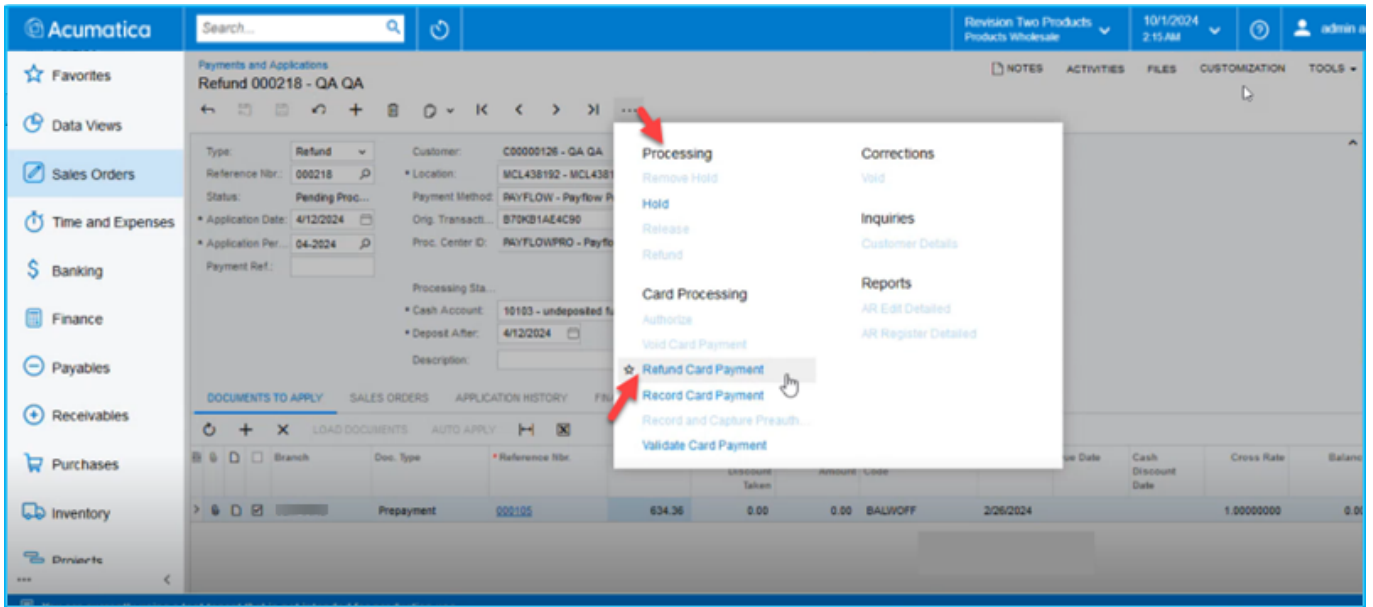

Step 1: If you wish to generate a full refund, you just need to save the screen once the [Payment Amount Field] value is populated after refreshing.

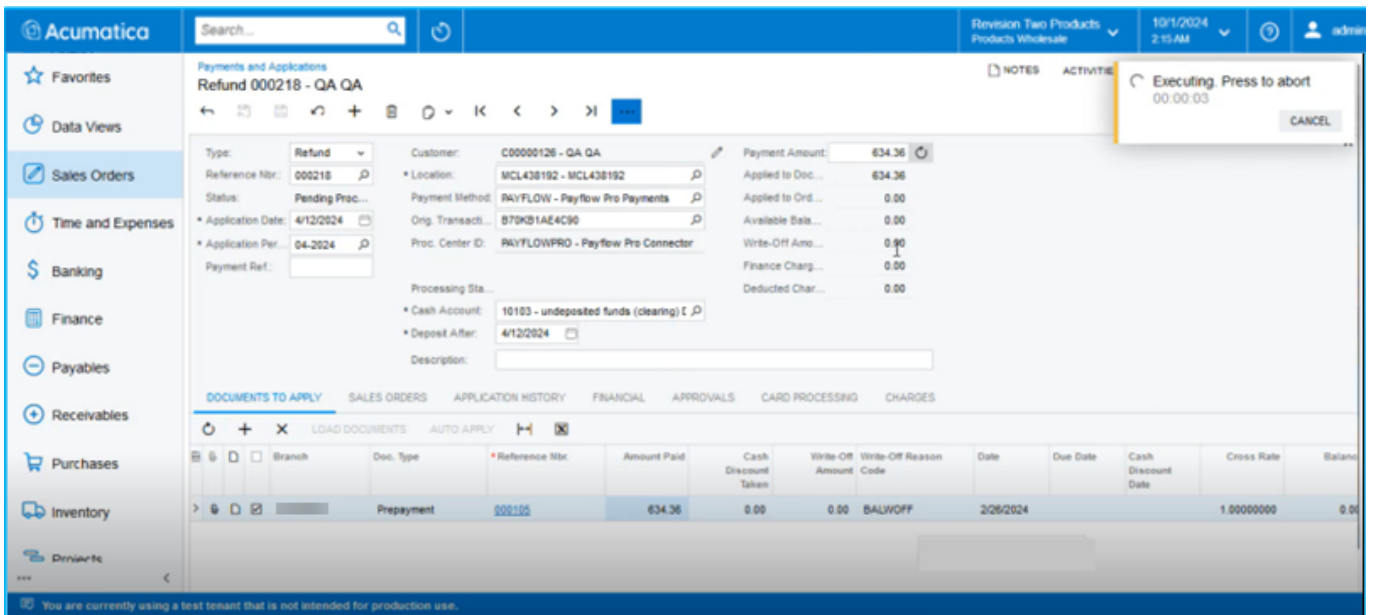

Creating full amount Refund

To initiate a partial refund, be sure to specify the amount you want to refund in the Payment Amount column.

Step 2: Go to the ellipses [...] button at the top. Upon clicking a popup will appear on the screen and to process the refund you need to click on the **[Refund Card Payment]** as illustrated.

Click on Refund Card Payment

Refund Card Payment process will be started

Step 3: Navigate to the PayPal portal page after the successful execution to check the transaction
