

Tokenizing Credit Card Payment Method

1. To tokenize the Credit Card payment method, click the CREATE NEW button.
2. The Add Payment pop-up will appear.
3. Enter the required Credit Card details.

Add the Credit Card Details

4. Click Verify Card.
5. The pop-up will automatically close, and a Token will be saved in the value field for the Payment Profile ID.

The screenshot displays the 'Customer Payment Methods' interface. At the top, there is a search bar and navigation options for 'Revision Two Products', 'Products Wholesale', and the date '10/25/2019 4:56 AM'. The user is identified as 'admin admin'. The main content area shows a record for a 'Customer Payment Method' with the following details:

- Customer: C000000001 - Jeffrey C. Silvia
- Payment Method: PAYFLOW - PAYFLOW Payment Method
- Active:
- Proc. Center ID: PAYFLOW
- Customer Profile ID: C000000001
- Cash Account: 10100 - Petty Cash
- Card/Account No: PAYFLOW****-****-1111
- Expiration Date: 10/20

Below the details, there are tabs for 'PAYMENT METHOD DETAILS' and 'BILLING INFO'. A table at the bottom shows a 'Payment Profil...' with a value of 'A50A0B615AAF'.
