

Inventory Management Setup

By establishing inventory mappings, you ensure that the inventory data in Acumatica and Rithum Connector remains consistent and up to date. This helps prevent discrepancies, overselling, or underselling of products across different sales channels.

Create Inventory in Acumatica

You need to Navigate to the left panel of Acumatica and click on **[Rithum Connector]** and then click on **[Inventory Management Setup]** under **[Preferences]**.

Inventory Management Setup

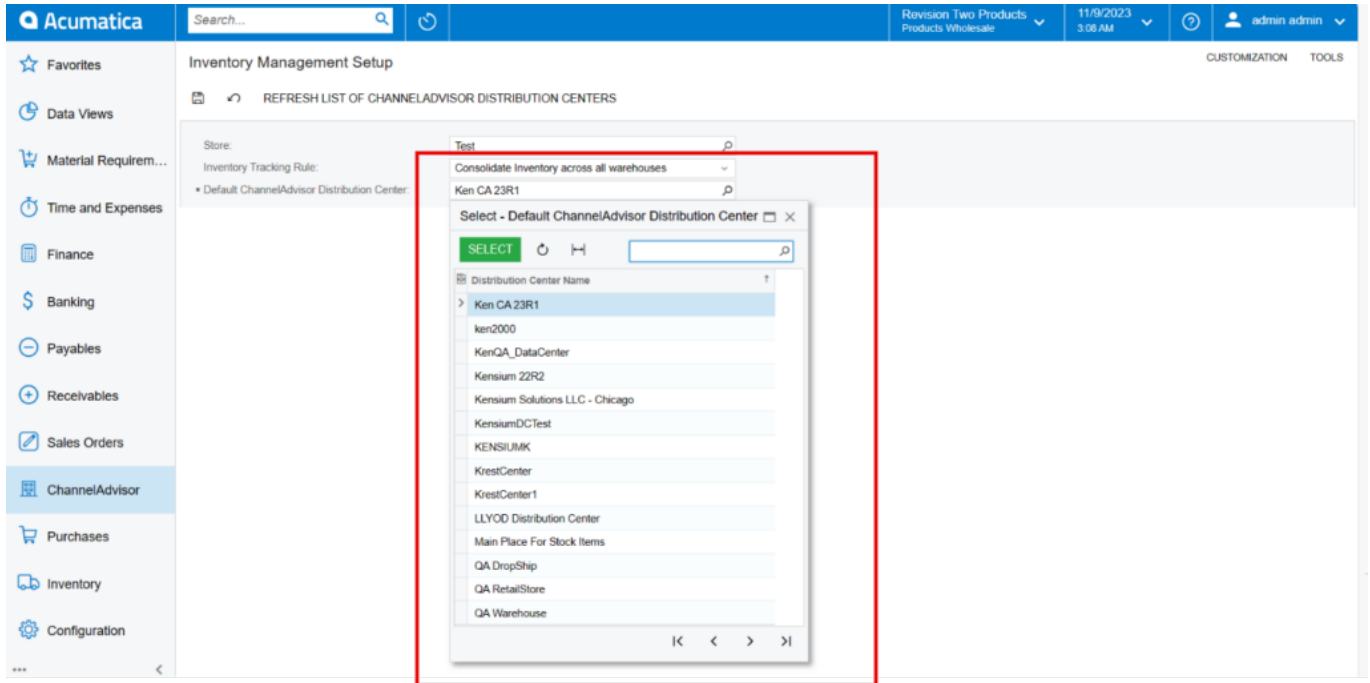

Upon Clicking you be redirected to Inventory Management Setup screen.

- You need to select the store from the **[Store]** selector.
- You must choose the **[Inventory Tracking Rule]** from the drop- down:
 - Consolidate Inventory across all warehouses.
 - Manage and sync inventory at distribution centers.

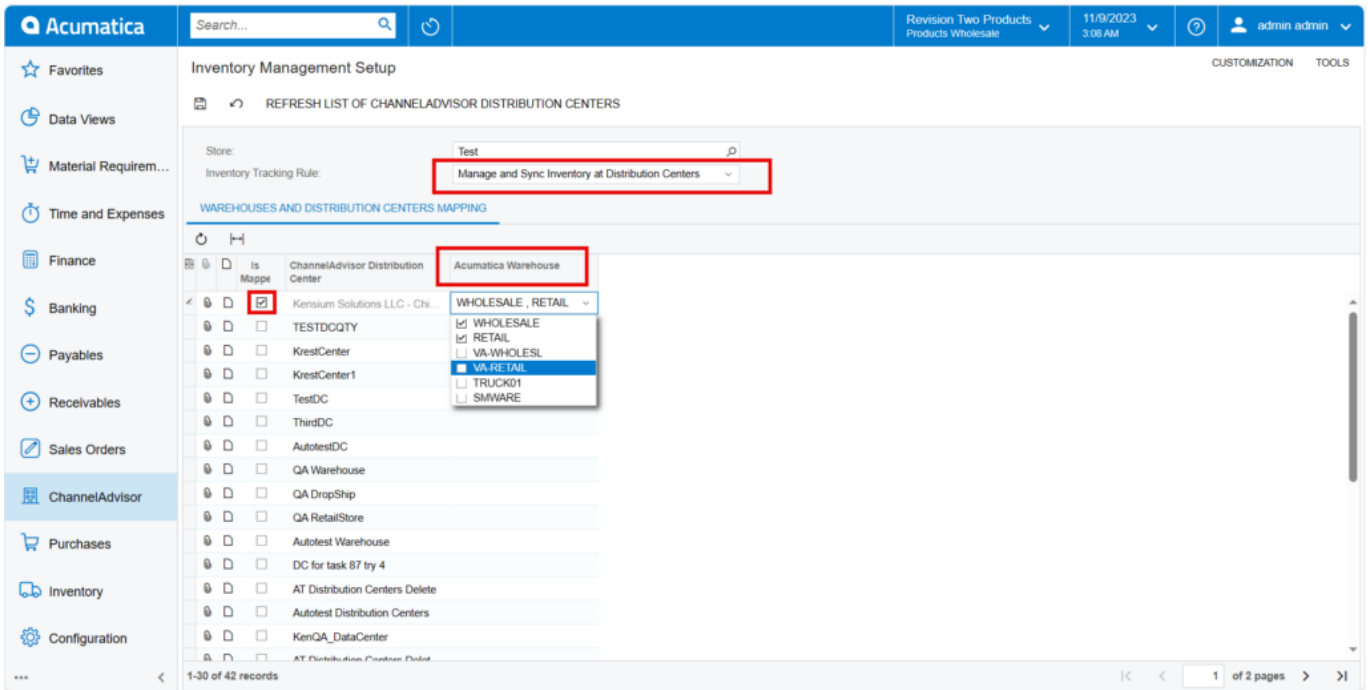

Inventory Tracking Rule

- If you choose [**Consolidate Inventory across all warehouses**] a new line labeled [**Default Rithum Connector Distribution Center**] will appear on the screen. You will then need to search for the [**Distribution Center name**] in the existing list.

Distribution center Name

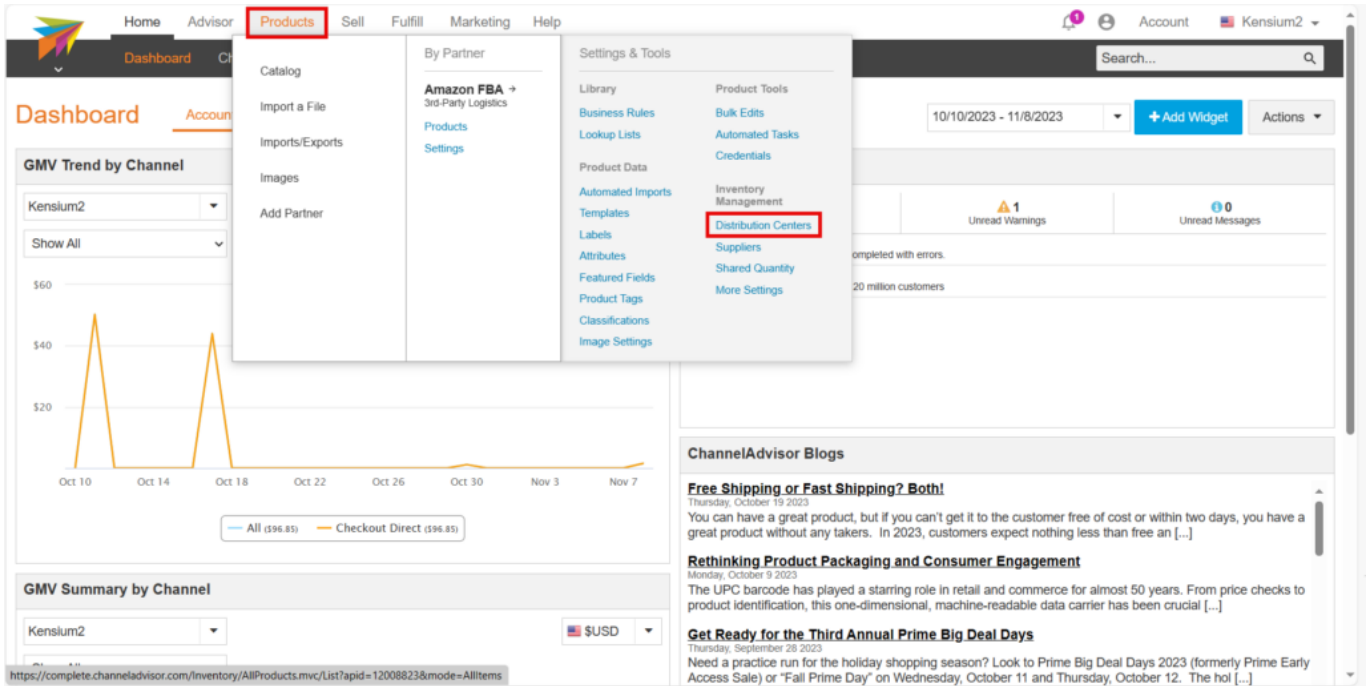

- If you choose **[Manage and sync inventory at distribution centers]** a new line labeled **[WAREHOUSES AND DISTRIBUTION CENTERS MAPPING]** will appear on the screen. You need to map this **[Rithum Connector Distribution Center]** with **[Acumatica Warehouses]**.

Rithum Connector Distribution Center

Creating Distribution Center in Rithum Connector

You need to Navigate to the Rithum Connector and click on **[Distribution Centers]** under the **[Products]**.

Distribution Centers

- Click on [New DC].

The screenshot displays the 'Distribution Centers (DC)' management interface. At the top, there are navigation tabs for Home, Advisor, Products, Sell, Fulfill, Marketing, and Help. Below this, a sub-navigation bar includes 'Inventory Management: Distribution Centers', 'Suppliers', 'Shared Quantity', and 'More Settings'. A search bar is located on the right. The main content area is titled 'Distribution Centers (DC)' and has tabs for 'Setup' and 'Priority'. There are buttons for 'Custom Columns OFF', 'Edit', and 'Reset'. A 'Filter by Product:' dropdown is present. In the top right corner, there are buttons for 'Export', 'Bulk Import/Update', and '+ New DC'. The '+ New DC' button is highlighted with a red box, and its dropdown menu is also highlighted, showing two options: 'Add Distribution Center' and 'Add Externally-Managed DC (FBA)'. The table below has columns: Name, Code, DC Type, Status, Actions, Contact Name, and City. The table lists several DCs, including KENSIMUMK, KensiumDCTest, Kensium Solutions LLC - Chicago, and Kensium 22R2. Each row has a 'Delete' button in the Actions column.

Name ↓	Code	DC Type	Status	Actions	Contact Name	City
Starts With kensium	Starts With Search...	All			Starts With Search...	Starts With Search...
KENSIMUMK	KEN	Warehouse		Delete		Crescent City California United State
KensiumDCTest	KDC	Warehouse		Delete		Chicago Illinois United State
Kensium Solutions LLC - Chicago	Chicago	Warehouse		Delete	Rahu Gedupudi	Chicago Illinois United State
Kensium 22R2	Kensium 22R2	Retail Store		Delete		chicago California United State

New DC

- If you want to create a merchant-run distribution center, select **[Add Distribution Center]**.

Mapping Distribution Center in Acumatica

- You need to navigate to the left panel of Acumatica and click on **[Inventory Management Setup]** under **[Preferences]**.
- Click on **[Refresh List of Rithum Connector Distribution Centers]**.
- Upon clicking **[Refresh]** it will update the **[Distribution Center]** from Rithum Connector.
- You need to follow the below actions to guarantee effective inventory management and synchronization at a distribution center:
 - Select the Store name from the **[Store]** Selector.
 - You need to choose the **[Manage and Sync inventory at Distribution Center]** option from the tracking rule.
 - Further map the Acumatica Warehouse to the Rithum Connector Distribution Center and enable the radio button to establish the relation between Rithum Connector Distribution and Acumatica Warehouse.

The screenshot shows the Acumatica Inventory Management Setup interface. The top navigation bar includes the Acumatica logo, a search bar, and user information (Revision Two Products, Products Wholesale, 11/9/2023 3:57 AM, admin admin). The left sidebar lists various modules like Favorites, Data Views, Material Requirement, Time and Expenses, Finance, Banking, Payables, Receivables, Sales Orders, ChannelAdvisor, Purchases, Inventory, and Configuration. The main content area is titled 'Inventory Management Setup' and includes a 'REFRESH LIST OF CHANNELADVISOR DISTRIBUTION CENTERS' button. Below this, there are fields for 'Store' (set to 'Test') and 'Inventory Tracking Rule' (set to 'Manage and Sync Inventory at Distribution Centers'). A section titled 'WAREHOUSES AND DISTRIBUTION CENTERS MAPPING' contains a table with columns for 'Is Mapped', 'ChannelAdvisor Distribution Center', and 'Acumatica Warehouse'. The table lists several distribution centers, with 'TestDC' highlighted by a red box, indicating it is selected for mapping to a 'WHOLESALE' Acumatica Warehouse. The bottom of the interface shows '1-30 of 42 records' and '1 of 2 pages'.

Enable the Radio Button

- By ensuring that inventory data is precisely synchronized between the two systems, this mapping facilitates effective fulfilment and management procedures.
- You need to sync the quantity from Acumatica to Rithum Connector for this you need must navigate to receipts screen.
