

# **Inventory Management Setup**

sy establishing inventory mappings, you ensure that the inventory data in Acumatica and Rithum Connector remains consistent and up to date. This helps prevent discrepancies, overselling, or underselling of products across different sales channels.

## **Create Inventory in Acumatica**

You need to Navigate to the left panel of Acumatica and click on **[Rithum Connector]** and then click on **[Inventory Management Setup]** under **[Preferences]**.

Create New Distribution Center

- If you want to create an FBA distribution center, select [Add Externally Managed DC (FBA)].
- You need to fill out the required fields and provide information about the Distribution Center.
- Click on [Save].

# **Mapping Distribution Center in Acumatica**

- You need to navigate to the left panel of Acumatica and click on [Inventory Management Setup] under [Preferences].
- Click on [Refresh List of Rithum Connector Distribution Centers].
- Upon clicking [Refresh] it will update the [Distribution Center] from Rithum Connector.
- You need to follow the below actions to guarantee effective inventory management and synchronization at a distribution center:
- Select the Store name from the **[Store]** Selector.
- You need to choose the **[Manage and Sync inventory at Distribution Center]** option from the tracking rule.
- Further map the Acumatica Warehouse to the Rithum Connector Distribution Center and enable the radio button to establish the relation between Rithum Connector Distribution and Acumatica Warehouse.
