

Multiple Site Configurations

Moreover, you can establish several stores by using the same **[Site Configurations]**.

- After creating Multiple stores, you can activate the **[Active]** Radio button in site Configuration to sync the data to a specific store.

Site Configuration

- The activated store will be available under **[Attributes]** in **[Inventory]**.
- The Active Rithum Connector site will be available in **[Associated Rithum Connector Sites]**.

The screenshot displays the 'TESTSKU - Test Sku' page in the Rithum Connector application. The interface includes a search bar, navigation tabs (NOTES, ACTIVITIES, FILES, CUSTOMIZATION, TOOLS), and a sidebar with various modules like Finance, Banking, Payables, Receivables, Sales Orders, Channels, Purchases, Inventory, Configuration, and Dashboards. The main content area is divided into two sections: 'Labels Management' and 'Associated ChannelAdvisor Sites'. The 'Associated ChannelAdvisor Sites' section is highlighted with a red box and contains a table with the following data:

ChannelAdvisor Site	Active	CA Product ID
Test	<input checked="" type="checkbox"/>	

Associated Rithum Connector Sites
