

Access Configuration

To Configure the **[Access Configuration]** settings, define your user credentials to access and perform operations within Rithum Connector. This includes specifying the account ID, profile ID and password.

Profile ID

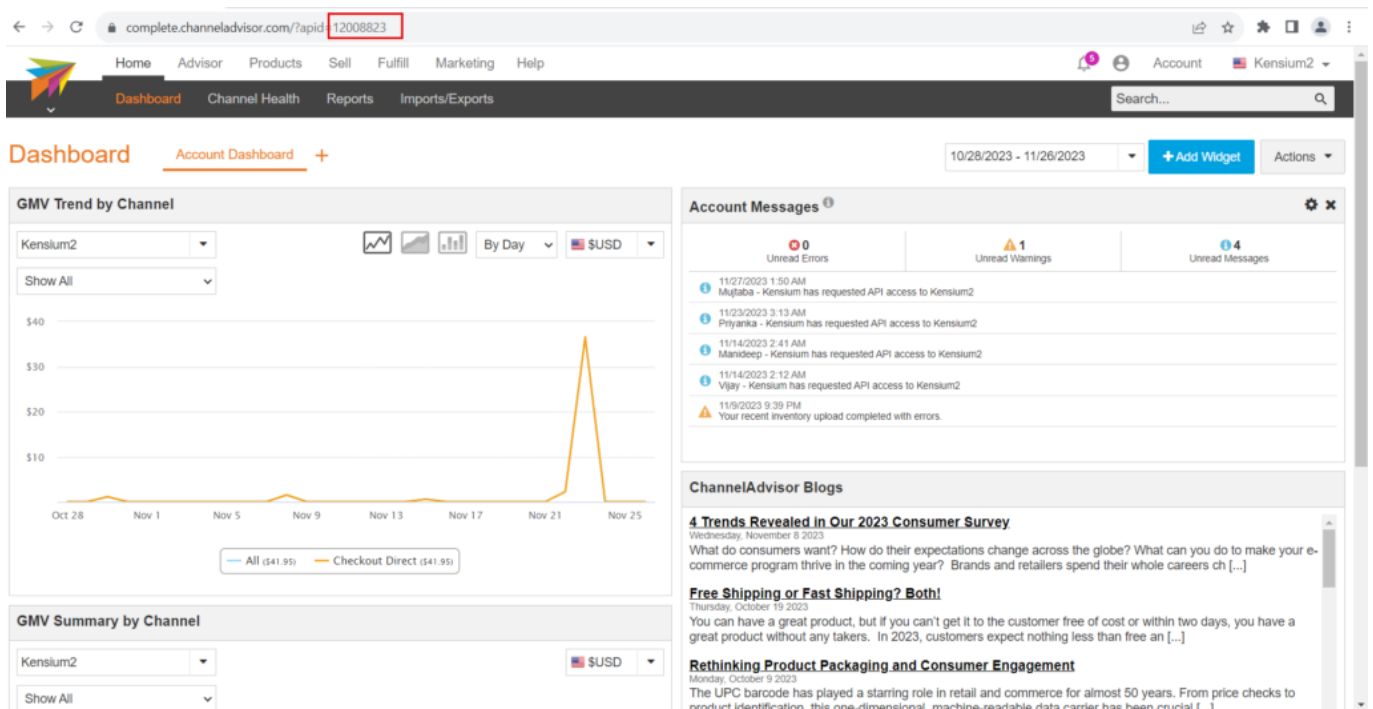

- To generate **[profile ID]** you must login into the Rithum Connector. To log in you need **[User ID]** and **[Password]**.
- Upon Logging into the Rithum Connector.
- Select the store of your choice from the **[All Accounts]** from the top right menu.

The screenshot shows the Rithum Connector dashboard. At the top right, there is a dropdown menu labeled 'All Accounts'. A red arrow points to this menu, and a red box highlights the dropdown list. The dropdown list contains two items: 'Kensium Solutions LLC - US' and 'Kensium2'. Below the dashboard, there is a table titled 'Accounts Summary' with columns 'Account' and 'GMV'. The table lists two accounts: 'Kensium Solutions LLC - US' with a GMV of '\$0.00' and 'Kensium2' with a GMV of '\$41.95'. To the right of the table, there is a section titled 'ChannelAdvisor Blogs' with several blog entries.

Select All Accounts

- Upon selecting the store, a URL will display in the Rithum Connector, you need to copy the **[URL number]** and paste it into the **[Profile ID]**.

Copy the URL Number
