Requesting a Developer Account

Permalink Print

A developer account is required to make requests using either ChannelAdvisor API.

Read and understand the [Terms of Use](#), then click on the **Request an Account** link below. After the account is granted, the email used to for the request is delivered an email with credentials.

[Request An Account](#) (external link)

Note: Authorization scope is determined within the authorization request calls and cannot be restricted by the parent organization during developer account.

Developer password reset

Important: SOAP requests include the developer key and password. Changing the developer password will cause any SOAP requests to fail until the SOAP requests are updated to use the new password. Reach out to your ChannelAdvisor contact or contact Support to request a password reset ([Contact Us](#)).

Go to the [Developer Console](#), and click the **Reset Password** link, where you will be directed to enter the Developer Key for the reset. An email will be sent to the email address affiliated with the Developer Key, initiating the reset process. For other questions, contact your ChannelAdvisor contact or Support ([Contact Us](#)).

Helpful?

Request An Account

- You need to fill in all the fields provided on the screen enable the check boxes and click on **[submit request]**.

This page allows you, as a developer, to receive a **Developer Key** which is the first step in being able to develop integration code with the ChannelAdvisor API. The second step is for your Developer Key to be **authorized** to access one or more ChannelAdvisor Client Accounts. Please use this page **ONLY** to request a new Developer Key. If you already have a Developer Key and wish to be authorized to access an Account, please refer to the instructions on the API documentation [website](#).

Name:

Company:

Email Address: **A valid Email Address is required!**

Phone Number:

Please enter your desired Password below. Passwords must meet the following criteria ...

1. Be at least 8 characters long
2. Contain at least 1 number
3. Contain at least 1 lowercase letter

Hi there! Your developer API credentials have been activated and are provided below.

Name: Surparaju C - kensium

DevKey: [redacted]

For documentation on getting started, check out our site here:

<https://developer.channeladvisor.com>

Our Google Group provides a forum to ask questions, provide feedback, and participate in discussions:

<https://groups.google.com/forum/#!forum/cadn>

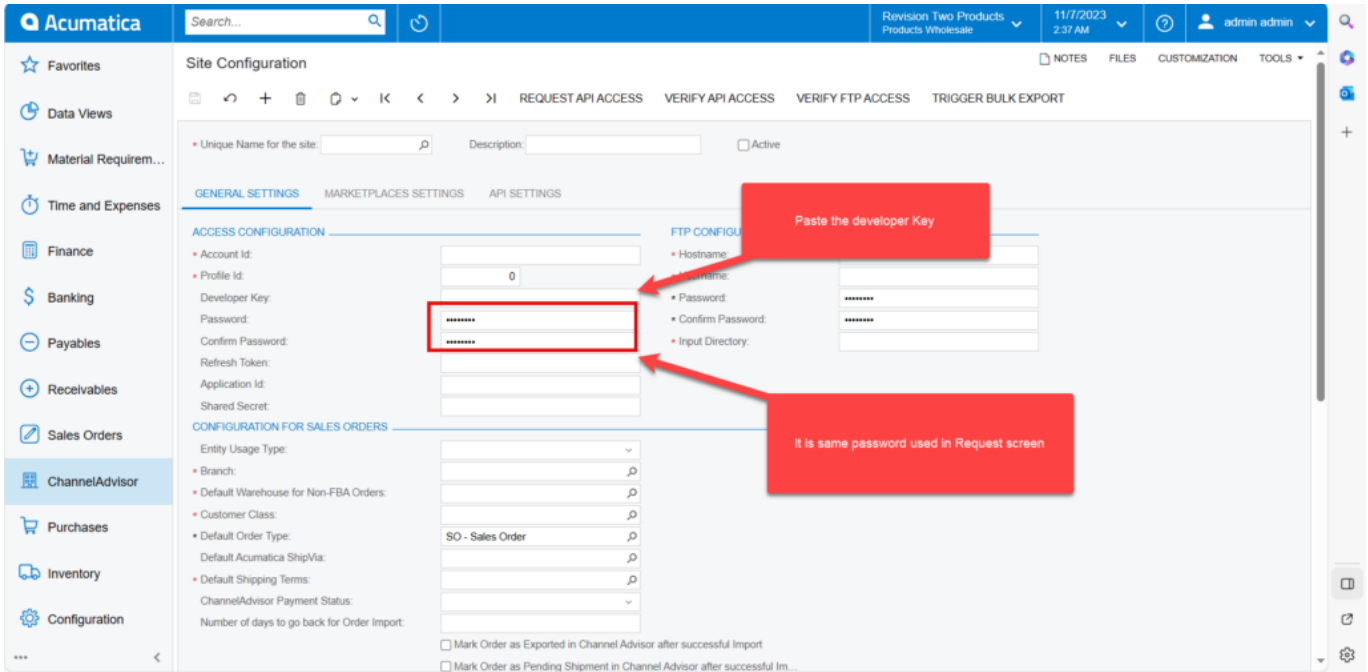

Support is provided through our standard support process. You can create a case here:

<https://community.channeladvisor.com/s/support-center>

Thanks!

Developer Key

The screenshot shows the Acumatica 'Site Configuration' page for 'ChannelAdvisor'. The page is divided into several sections: 'GENERAL SETTINGS', 'MARKETPLACES SETTINGS', and 'API SETTINGS'. The 'ACCESS CONFIGURATION' section contains fields for 'Account Id', 'Profile Id', 'Developer Key', 'Password', 'Confirm Password', 'Refresh Token', 'Application Id', and 'Shared Secret'. The 'FTP CONFIGURATION' section contains fields for 'Hostname', 'Username', 'Password', 'Confirm Password', and 'Input Directory'. The 'CONFIGURATION FOR SALES ORDERS' section contains various dropdown menus and checkboxes. Two red callout boxes are present: one pointing to the 'Developer Key' field with the text 'Paste the developer Key', and another pointing to the 'Password' field with the text 'It is same password used in Request screen'. The left sidebar shows navigation options like 'Favorites', 'Data Views', 'Material Requirement...', 'Time and Expenses', 'Finance', 'Banking', 'Payables', 'Receivables', 'Sales Orders', 'ChannelAdvisor', 'Purchases', 'Inventory', and 'Configuration'. The top navigation bar includes 'Acumatica', a search bar, and user information.

Enter Key and password
