

## Verifying API

 You need to enter Account ID, Profile ID, Refresh Token, Application ID, shared secret below **[Access Configuration]**.

- Click on **[REQUEST API ACCESS]** and **[Verify API ACCESS]**.

The screenshot shows the Acumatica Site Configuration page. The 'ACCESS CONFIGURATION' section is highlighted with a red box. It contains the following fields:

- Account ID: 12008823
- Profile ID: [Redacted]
- Developer Key: [Redacted]
- Password: [Redacted]
- Confirm Password: [Redacted]
- Refresh Token: [Redacted]
- Application ID: [Redacted]
- Shared Secret: [Redacted]

The 'FTP CONFIGURATION' section is also visible, showing:

- Hostname: ftps.channeladvisor.com
- Username: [Redacted]
- Password: [Redacted]
- Confirm Password: [Redacted]
- Input Directory: Inventory

### Site Configuration

- A pop-up with **[The Operation has Completed]** will appear on the screen.
