

# SellerCloud Connector Package

The first step to install the feature is to run the latest version of the Kensium commerce Framework, SellerCloud Connector.

# Steps to Install

- You need to Save the .zip file of the **[SellerCloud Connector]** , **[KCF]** package to the local hard drive.
- Go to the left navigation panel in Acumatica and choose [More Items].
- Click on **[Customization]**.

**Customization Projects** 

# [OR]

• You need to type the keyword [Customization] in the Global Search Bar.
