

# Verify the Published SellerCloud Connector Packages

- After the customization package is installed, the connections must be established between Acumatica and SellerCloud Connector.
- To verify the published package, navigate to the left menu in Acumatica ERP click **Customization**, and select **Customization Projects**.

[OR]

- Type the keyword “**Customization Project**” in the Global Search Bar. You will be redirected to the customization project screen.

## Customization Projects

- The application redirects you to a Customization Projects screen, where you can review and validate the published packages.
