

# Export Shipment Carrier Mapping

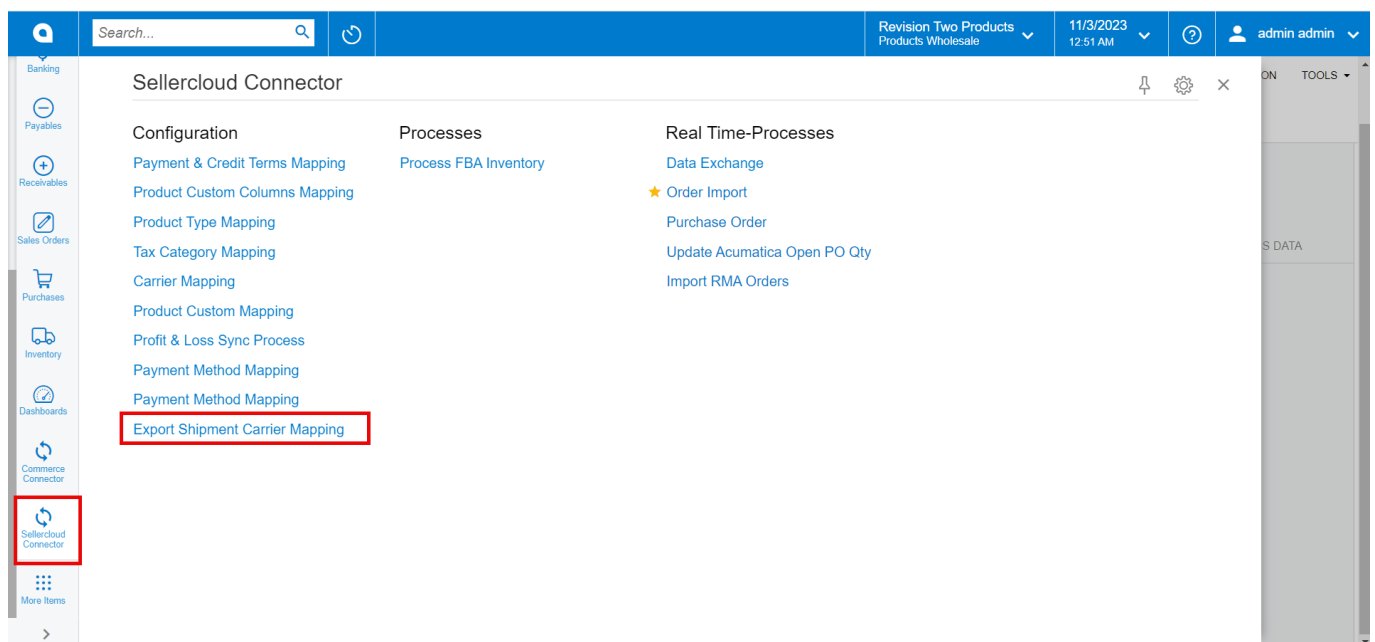

When an order is placed and sent from Acumatica to Seller Cloud with a specific shipment, and if you want to change the updated shipment, you have an option of **[Export Shipment Carrier Mapping]**.

## Illustration

You have the order synced with FedEx Ground; but, by using the **[Export Shipment Carrier Mappings]**, you can sync it to USPS or other FedEx services.

This screen will assist you in mapping, and the same data will be synced to SellerCloud Connector if you are syncing the shipment details back to Seller Cloud.
