

# Product Custom Column Mapping

 Product custom column mapping is used to map Acumatica Attributes to SellerCloud Connector Custom columns.

If you wish to sync specific data from Acumatica to a separate custom field that you created in SellerCloud Connector, you can use this mapping option, and the data will be updated depending on the mapping.

## Scenario-1 Enabling Product

- If the attributes are not assigned to the item class, then assign the attribute to the item class follow the below steps to create Item Class.

Attribute Screen

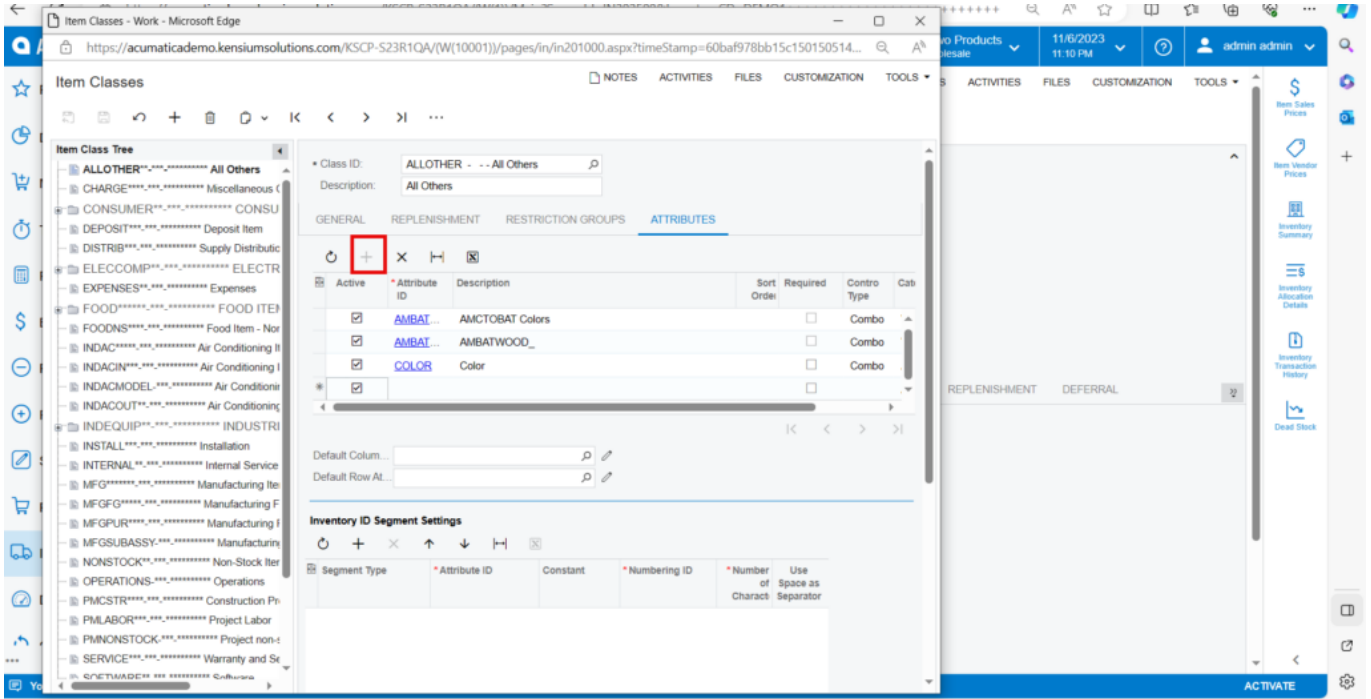

- You need to navigate to the **[GENERAL]** and click on the Pencil icon in the item class.

The screenshot shows the Acumatica interface for configuring a stock item. The main header includes the company name 'Acumatica', a search bar, and user information 'Revision Two Products Products Wholesale' and '11/6/2023 11:09 PM'. The left sidebar contains navigation options like 'Favorites', 'Data Views', 'Material Requirement...', 'Time and Expenses', 'Finance', 'Banking', 'Payables', 'Receivables', 'Sales Orders', 'Purchases', 'Inventory', 'Dashboards', and 'Company Cards'. The main content area is titled 'DEMO1 - Demo updated' and shows various configuration fields. A red box highlights the '+' icon next to the 'Item Class' dropdown menu in the 'ITEM DEFAULTS' section.

### Add the Attribute

- Click on **[+]** icon and add the attributes and click on **[Save]**.
- To assign the attribute You need to **[save]** stock item screen.

## Item Classes

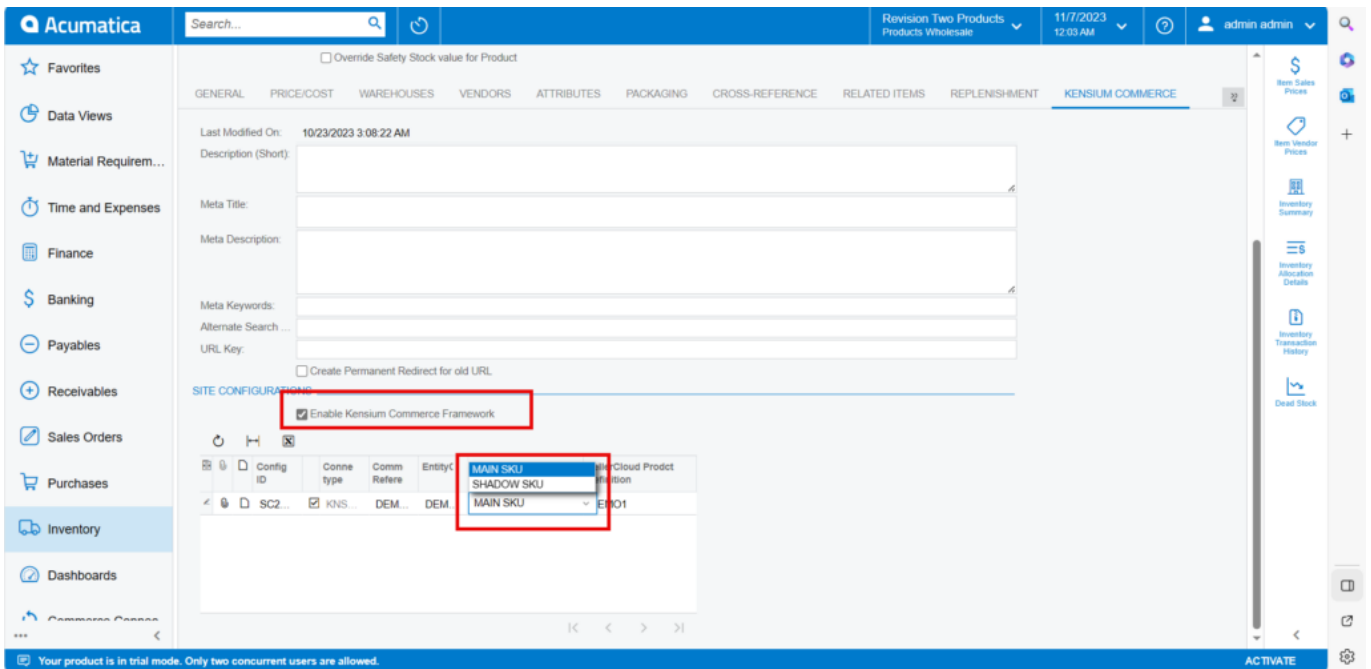

- You can select the **[Value]** of the attribute from the drop-down and save the product.

Attribute Screen.

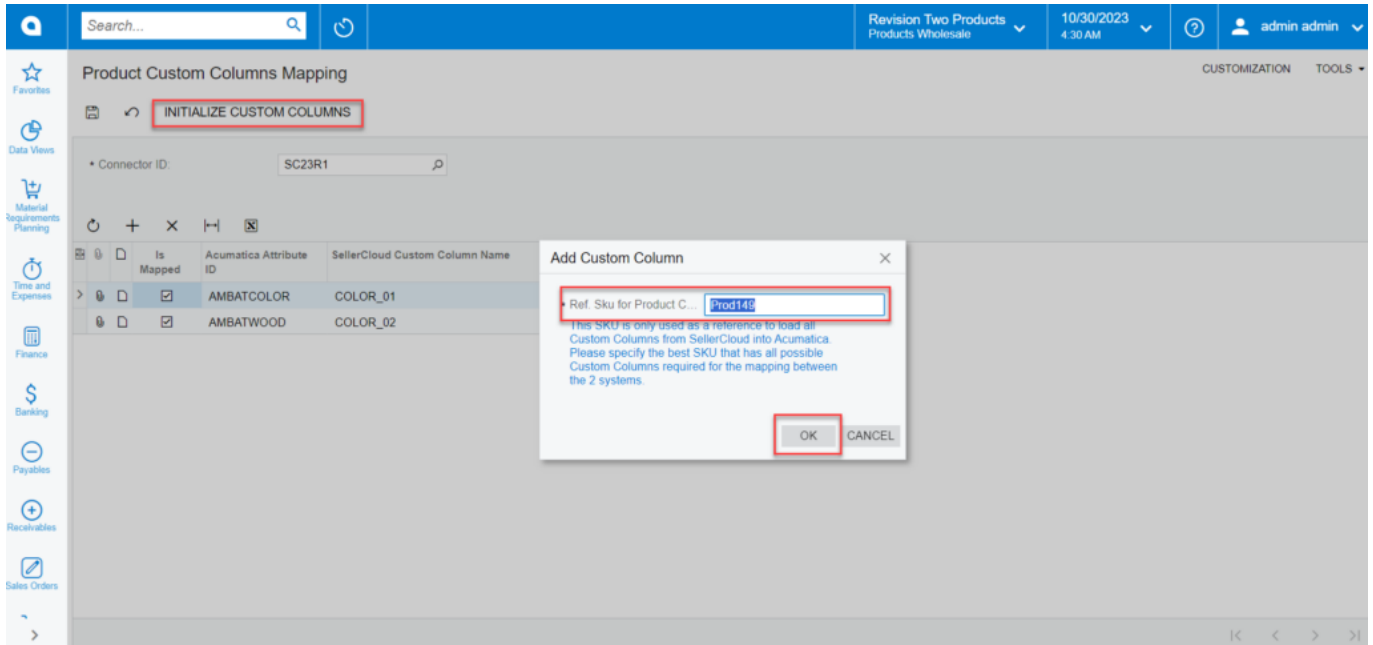

The product was not set up for SellerCloud Connector; to sync the data, you need to click on **[Kensium Commerce]** then a new screen will appear with connector.

- Toggle the checkbox then the **[Site configuration]** will display.
- You can select the product type from the drop-down menu:
  - MAIN SKU
  - SHADOW SKU
- You need to click on the **[Save]**.

## Site Configuration

- To access product custom column mapping, you need to click on **[Product custom column Mapping]** under **[Configurations]**. Then you will be redirected to a new page.
- This relates to the mapping of attributes.
- You must search for the **[connector ID]**.
- Click on **[Initialize columns]**, then a pop-up will appear, where you need to enter **[Product ID]** to fetch the custom column mapping.
- You need to enter **[Ref SKU for Product C]**, this should match with SellerCloud Connector.
- This allows you to Fetch the customized column mapping.

### Add custom Column

- Click on **[OK]**.

To make properties visible in a custom column. The attribute needs to be enabled by schema management.

- Upon Refreshing the Schema, you will be able to view option and feature.

## Scenario-2 Enabling Kit Specification

### Inventory

The Quantity must be added, you need to search for **[Receipts]** in the Global search bar.

- Click on the **[Receipts]** under transactions.

### Receipts Screen

- You will be redirected to a new screen with all the generated receipt, click on **[+]** icon.

The screenshot shows the 'Receipts' screen in Acumatica. The top navigation bar is the same as in the previous image. The main content area displays a table of receipt records. A red box highlights the '+' icon in the top toolbar, which is used to add new records. The table has the following columns: Document Type, Reference Nbr., Status, Date, Post Period, Total Qty., Total Cost, Batch Nbr., and Created On. The table contains 18 records, all with a status of 'Released'.

| Document Type | Reference Nbr. | Status   | Date       | Post Period | Total Qty. | Total Cost | Batch Nbr. | Created On |
|---------------|----------------|----------|------------|-------------|------------|------------|------------|------------|

| Receipt       | 002029         | Released | 2/9/2023   | 02-2023     | 1,300.00   | 280,272.00 | 00008547   | 2/5/2023   |
| Receipt       | 002028         | Released | 2/21/2023  | 02-2023     | 2,000.00   | 496,290.00 | 00008546   | 2/5/2023   |
| Receipt       | 002027         | Released | 2/22/2023  | 02-2023     | 1,000.00   | 17,670.00  | 00008544   | 2/5/2023   |

At the bottom of the table, it indicates '1-18 of 1858 records' and '1 of 104 pages'.

## Receipts Screen

- You will be redirected to a new screen, click on the **[+]** icon and search for the existing **[Inventory ID]**.

The screenshot shows the Acumatica interface for creating a new receipt record. The main form includes fields for Reference Nbr., Transfer Nbr., Total Qty., Status, External Ref., Total Cost, Date, and Post Period. Below the form is a table with columns for Branch, Inventory ID, Warehouse, Location, Quantity, UOM, Unit Cost, Ext. Cost, Lot/Serial Nbr., Expiration Date, Reason Code, and Project. A search modal is open, displaying a table of inventory items with columns for Inventory ID, Description, Item Class, Item Status, and Type. The item 'DEMO1' with description 'Demo updated' is highlighted.

| Branch    | Inventory ID | Warehouse | Location | Quantity | UOM | Unit Cost | Ext. Cost | Lot/Serial Nbr. | Expiration Date | Reason Code | Project |

Your product is in trial mode. Only two concurrent users are allowed.

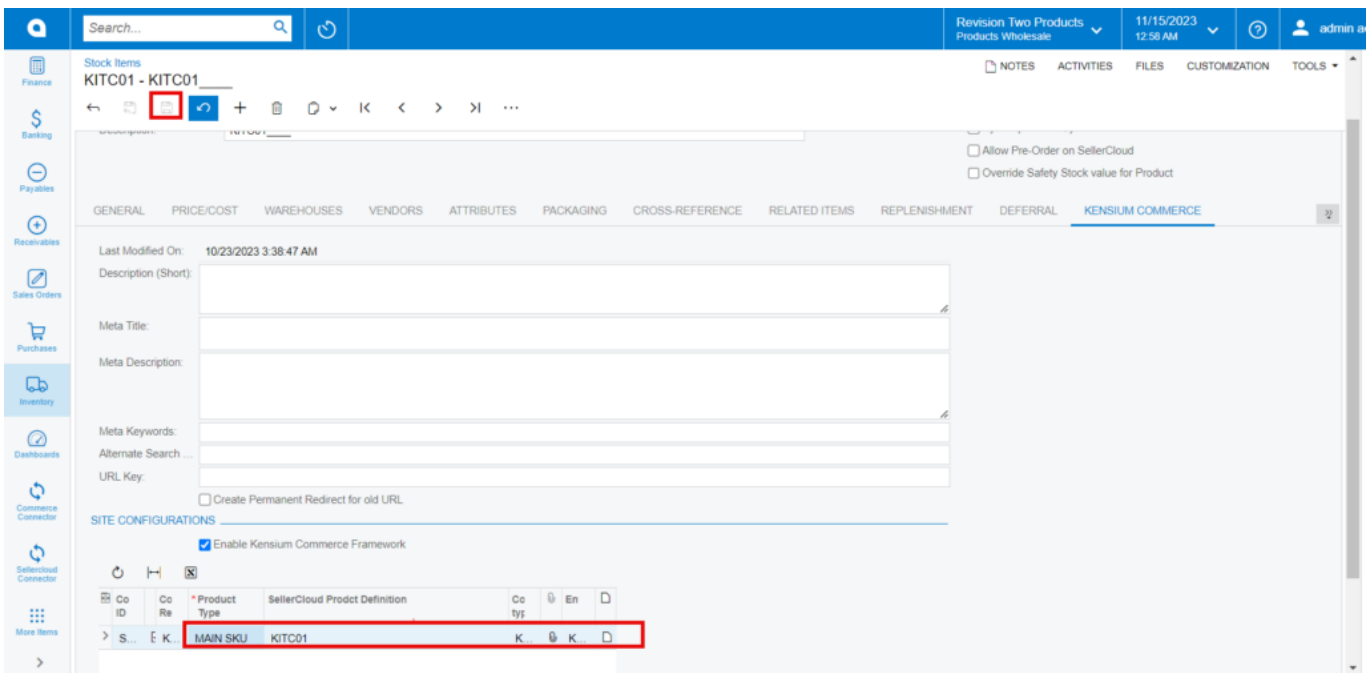

Quantity synced in logs

- The Inventory is pushed or synced into SellerCloud Connector.
- You can view inventory in SellerCloud Connector.

### Inventory in SellerCloud Connector

- You will be redirected to a new screen.

### Select Product Type

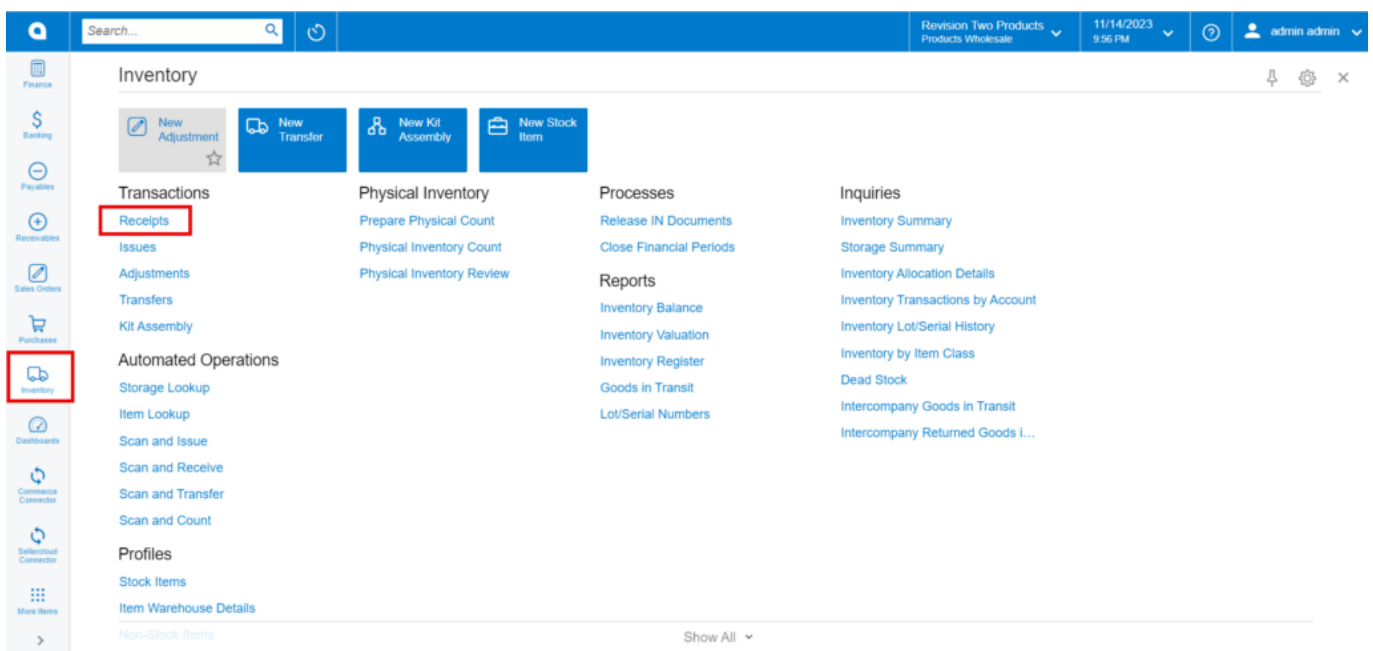

KENSIUM

## Sellercloud Connector

- You must enable the check box for **[Enable Kensium Commerce Framework]** and then enable the check box for **[Connector Type]** and select the **[product type]** from the drop-down menu:

- MAIN SKU
  - SHADOW SKU
- Click on **[Save]**.
- Similarly, you need to add **[Default price]** for the remaining child's items and map with Kensium Commerce.
- You need to navigate to the **[Inventory]** and click **[Receipts]** under **[Transactions]**.
- Click on **[+]** icon.

### Receipts

- Click on **[+]** icon under **[Details]** and search for the created child items in **[Inventory ID]**.
- Enter the **[Quantity]**.
- Click on **[Save]**.
- Click on **[Remove Hold]**.
