

## **Tax Category Mapping**

The products which fall under tax will be referred to as taxable products. If the tax does not apply to the product will be tax exempted. In Acumatica, there are two types of tax categories, Taxable and Exempt.

You need to map this tax category with the Acumatica Tax Category with Acumatica.

- To access the Tax category screen, you need to navigate to the left side of Acumatica and click on **[SellerCloud Connector]**, you will be redirected to SellerCloud Connector screen.
- Click on [Tax category] under [Configuration].
