Marketplaces Settings

Marketplace settings related to online marketplaces where you can sell products or services. This includes platforms like Amazon, eBay, or others. Marketplaces settings involve shipping preferences, product listings, payment methods, Tax Management, and Warehouses Preferences.

If you are a merchant with a company that has multiple sales channels and you wish to sell your product at different channels and order levels, you can choose marketplace settings.

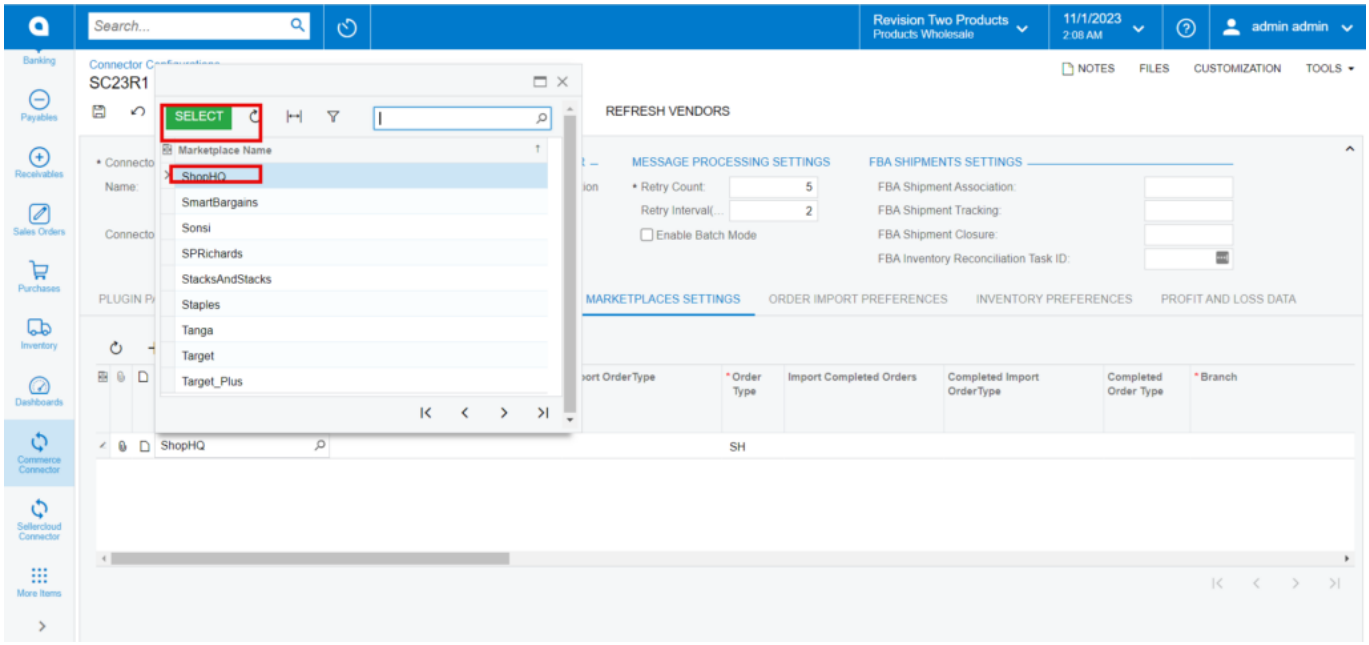

- You need to click on the **[Marketplace Settings].**

Marketplace Settings

- Click on **[+]** icon.
- Search for **[Sales Channel]** from marketplace Name.
