

Marketplaces Settings

Marketplace settings related to online marketplaces where you can sell products or services. This includes platforms like Amazon, eBay, or others. Marketplaces settings involve shipping preferences, product listings, payment methods, Tax Management, and Warehouses Preferences.

If you are a merchant with a company that has multiple sales channels and you wish to sell your product at different channels and order levels, you can choose marketplace settings.

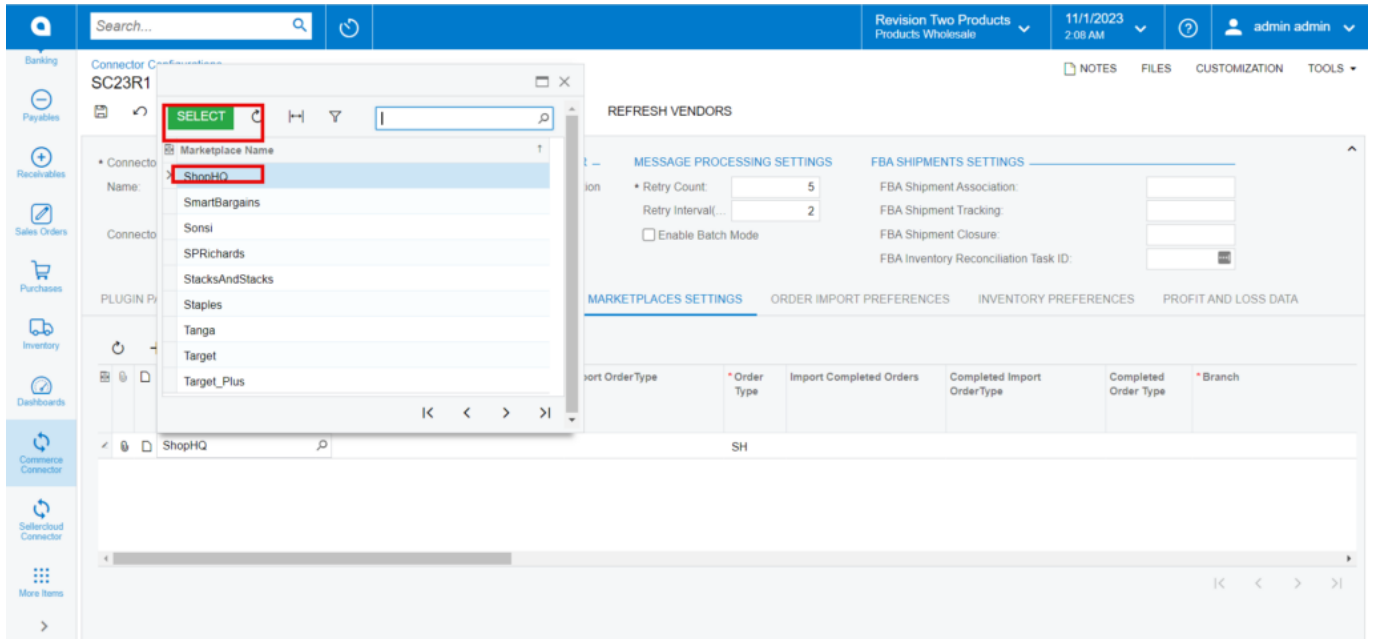

- You need to click on the **[Marketplace Settings]**.

The screenshot shows the 'Connector Configurations' page for connector 'SC23R1'. The 'MARKETPLACES SETTINGS' tab is selected and highlighted with a red box. Below the settings, a table is displayed with the following columns: Sales Channel, Description, Import OrderType, Order Type, Import Completed Orders, Completed Import OrderType, Completed Order Type, and Branch. A red box highlights the search bar above the table.

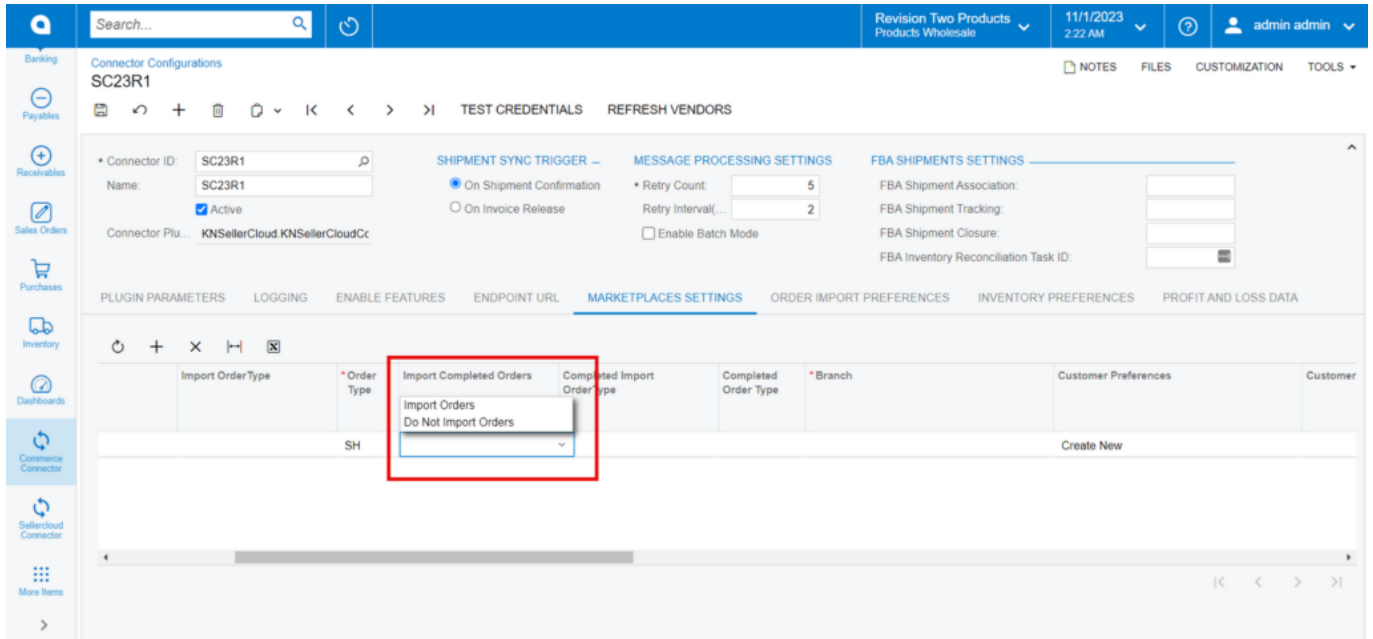

Marketplace Settings

- Click on **[+]** icon.
- Search for **[Sales Channel]** from marketplace Name.

Sales Channel

- Search for the **[Order Type]**.
- When the order is synced from Acumatica to SellerCloud Connector under this marketplace, the order will be created under the specified channel and order type.
- You can select multiple sales channels with different order types.
